Who are we

As a premier provider, we pride ourselves on delivering exceptional tailored consulting and solutions to meet the unique needs of each business.

Our team of experts brings a wealth of technical knowledge, experience, and certifications to the table, which allows us to tackle even the most complex business scenarios with ease. Our on-premise and cloud-based solutions are designed to optimize performance and efficiency, so you can focus on growing your business with confidence.

We are committed to providing you with the highest level of service and support to ensure your business success.

INNOVAPTE

Our Products & Services

DataVapte

InnovTrack

PolicyApt

InnoVIA

INNOVAPTE

- **Seamless Integration:** DataVapte works in conjunction with SAP's LTMC templates, allowing for efficient data validation and correction within the destination SAP system.
- **Streamlined Validation Process:** By leveraging SAP's standard LTMC tool, DataVapte simplifies the complex validation structure, reducing the time spent on error management.
- **Time-Saving Error Management:** With a user-friendly color-coded error management feature, DataVapte significantly reduces the time required for data validation.
- **Real-Time Insights:** DataVapte provides a comprehensive dashboard that offers real-time status and progress updates on all templates, empowering users with enhanced efficiency and informed decision-making.
- **Custom Fields Handling:** Modify LTMC templates effortlessly by adding custom fields using the LTMOM tool, making DataVapte highly adaptable to your specific needs.
- **Centralized Data Management:** Utilizing SharePoint, DataVapte ensures that all data is centralized, promoting efficient collaboration and accessibility.

INNOVTRACK

1. InnovTrack is one of a kind unique application that monitors any measurable parameter that is crucial for your assets.

2. InnovTrack intelligently captures data from IoT devices (like- Temperature, Humidity, G-force, Location, Speed etc).

3. Helping businesses with better integration, optimization, and management services.

4. Improve information management across logistics life-cycle through real-time tracking and tracing of shipments.

5. InnovTrack consists of a centralized server where the tracked data is collected and maintained. The captured data is pushed into native ERP.

6. Modern dashboards help increase productivity and efficiency.

INNOVAPTE

- **PolicyApt** is a policy and procedure application which enables businesses to streamline creation, approval and communication methods relating to internal and external policies.

- Based on **SAP Business Technology Platform,** Policy Apt provides audit trails, policy centralisation and version control with simple point & click usability

- **Advanced Workflow Configuration** sends relevant updates to the relevant individuals, keeping your business 100% informed and compliant at all times, with native ERP & DocuSign integration.

- **Smart Dashboards** give your super-users the ability to see policy acceptance per department or business unit, minimising costs and efforts.

- Our modern approach to policy management reduces the risks of breaches and protects your organization from reputational or financial damage.

InnoVIA is a cutting-edge SAP application tool that redefines the way you manage invoices. With its powerful features and seamless integration, InnoVIA automates the entire process of posting the Vendor Invoices with or Without reference to Purchase order , making invoice processing faster, smarter, and error-free. Eliminates the manual intervention and saving valuable time and resources.

- **Effortless Email Automation:** Directly read multiple Vendor invoice digital PDFs, Excel, or Word documents from vendors' emails.

- **Automate with Ease:** InnoVIA's intelligent algorithms and validation checks significantly reduce the risk of duplicate invoice postings. Benefit from SAP standard and custom validation checks, ensuring accurate and error-free postings in a single go. Minimize errors and ensures the compliance with your business rules.

- **Compatibility with All ERP Systems:** InnoVIA seamlessly integrates with all ERP systems, including S/4 HANA and SAP ECC.

- Enjoy the flexibility and scalability of our tool, designed to align with your organization's unique needs.

- **Real-time Status Updates:** Stay informed with detailed logs and status updates sent via email in case of validation failure and successful postings. Proactively manage your invoice processing with timely notifications.
