Setting the Foundation for
Transformation with IBM
Rapid Discovery

Setting the Foundation for Transformation

Successful transformation programs begin with a solid foundation, built on an accepted and aligned understanding of the ‘why’, ‘what’, and ‘how’

WHY...

Technology-enabled transformation should be a strategic priority for my organization

Executive Alignment

Business Value

WHAT...

Transformational opportunities and considerations are available for my organization

Enterprise Capability Model

Enterprise Architecture

Organizational Change Mgmt.

Opportunity Horizon

Data and Analytics

Security and Controls

HOW...

We can unlock the value of transformation through technology enablement

Implementation Roadmap

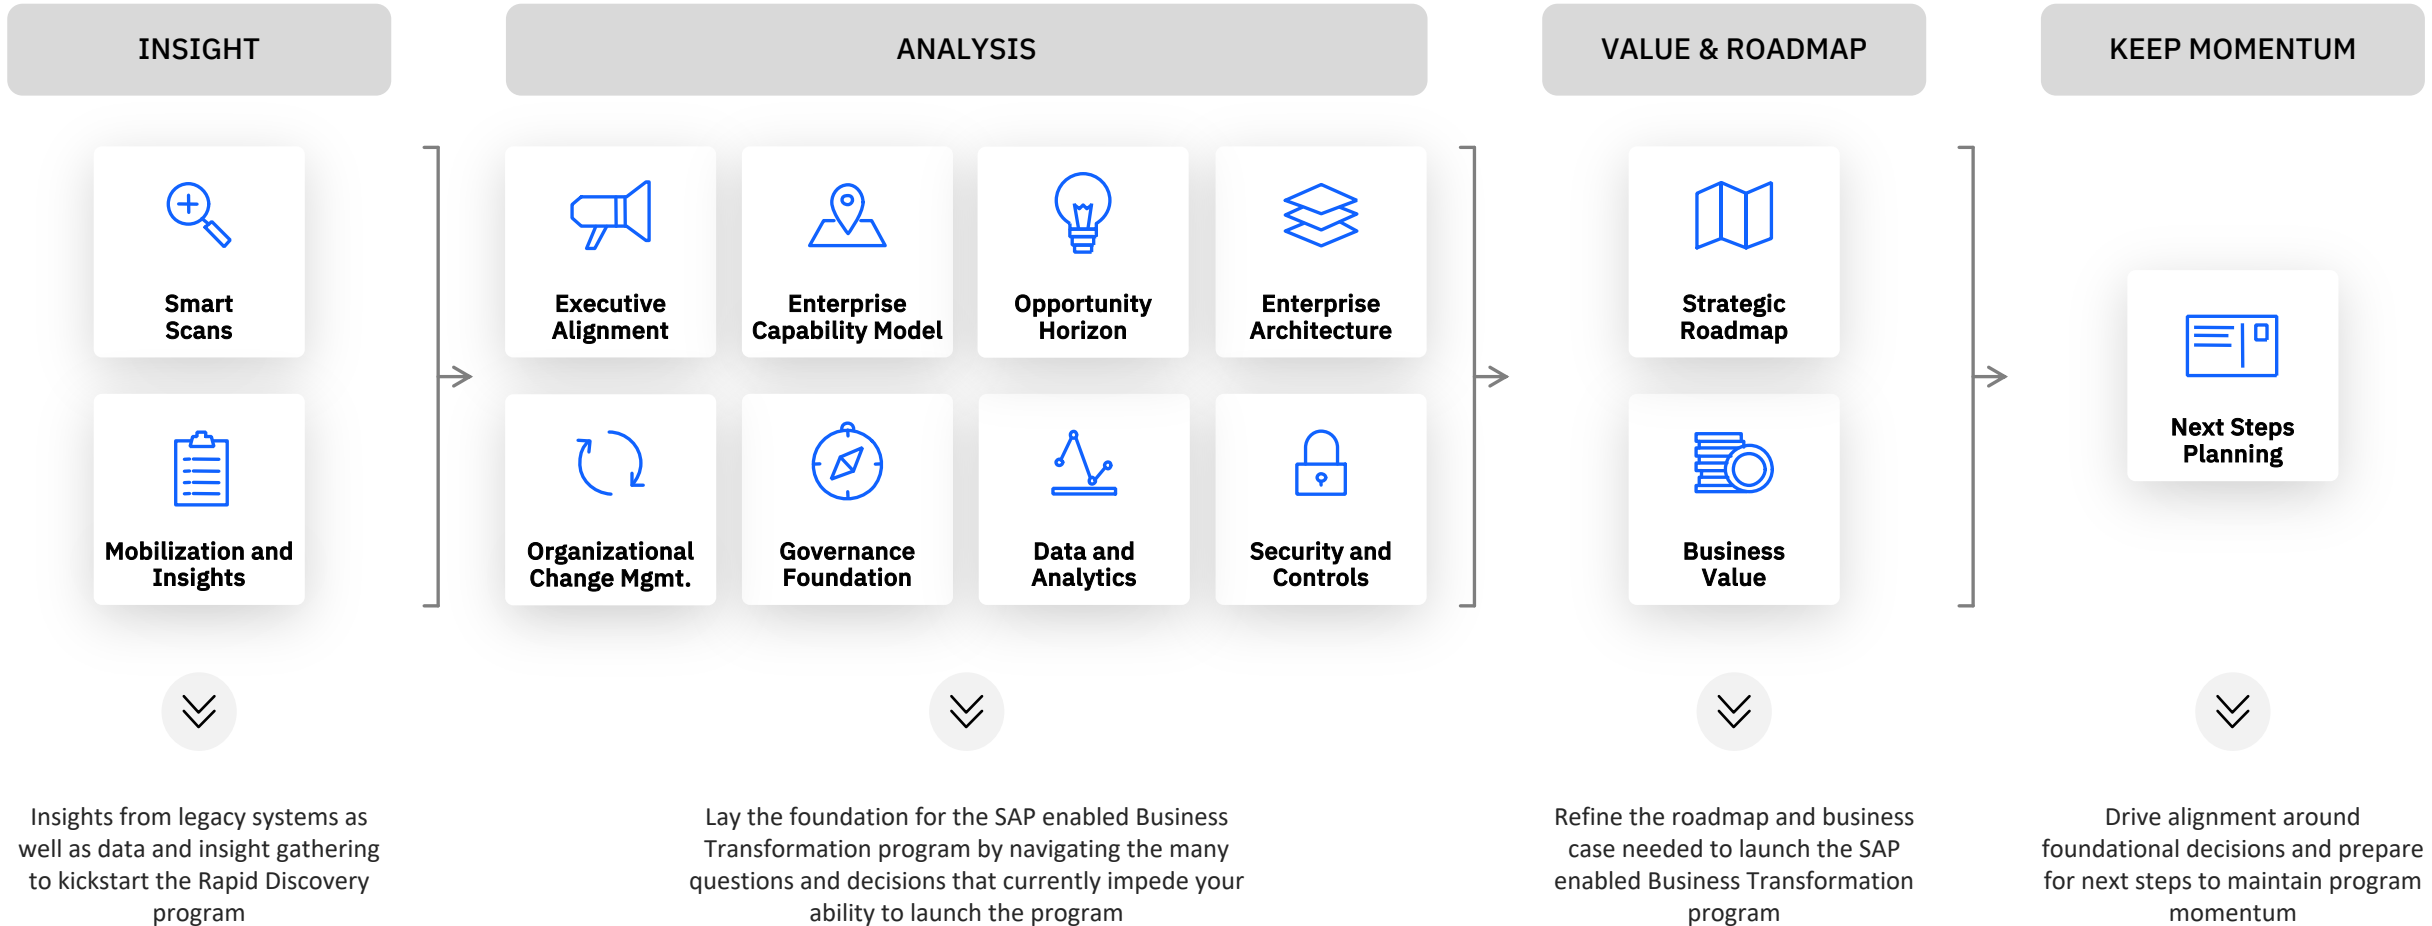

Governance Foundation

| MISSION | VISION | PLAN |
for transformation

Rapid Discovery Execution Plan

How we will logically execute a Rapid Discovery program and help build transformation momentum

Rapid Discovery Schedule

IBM Rapid Discovery Workstream Overview

Insight Phase

Executive Alignment

Workstream Deep-Dive

APPROACH

OUTCOMES

- Summary of executive alignment assessment illustrating commonality & divergence on key topics such as vision, strategy, pain points, moments that matter, etc.
- Summary of next steps / actions for further development of alignment

CLIENT EXPECTATIONS

Suggested Participants:

- 5 – 10 Senior Executives

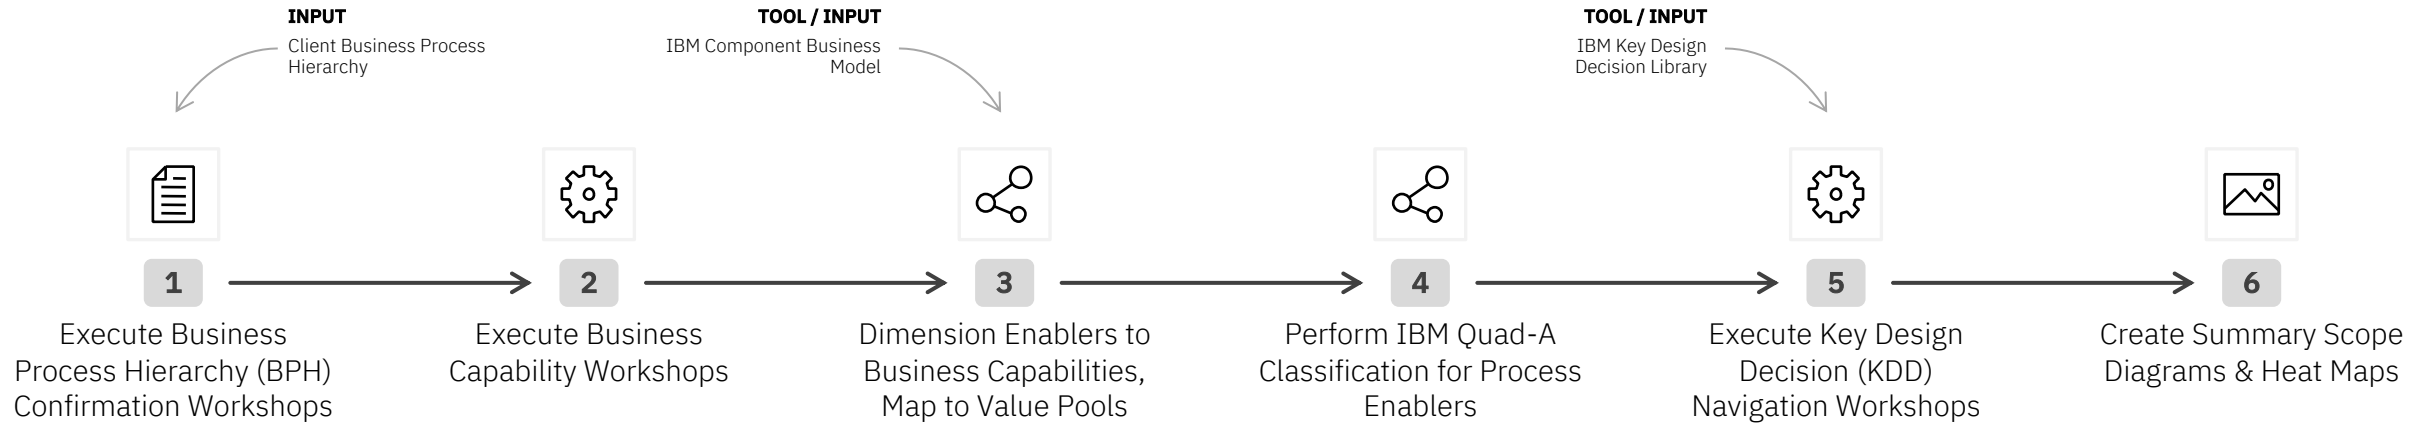

Ways of Working:

- One 45-minute Executive Interview / executive

Enterprise Capability Model

Workstream Deep-Dive

APPROACH

OUTCOMES

- Definition of to-be business capabilities and enablers (people, process, technology, data)
- Confirmed Business Process Hierarchy (BPH) illustrating the functional scope of the future-state program
- IBM Quad-A preliminary classification (based on Implementation Strategy)
- Co-defined Key Design Decision (KDD) outcomes
- Summary scope diagrams and heat maps for high-level understanding

CLIENT EXPECTATIONS

Suggested Participants:

- Working group of key business and IT stakeholders / Level 2 process area

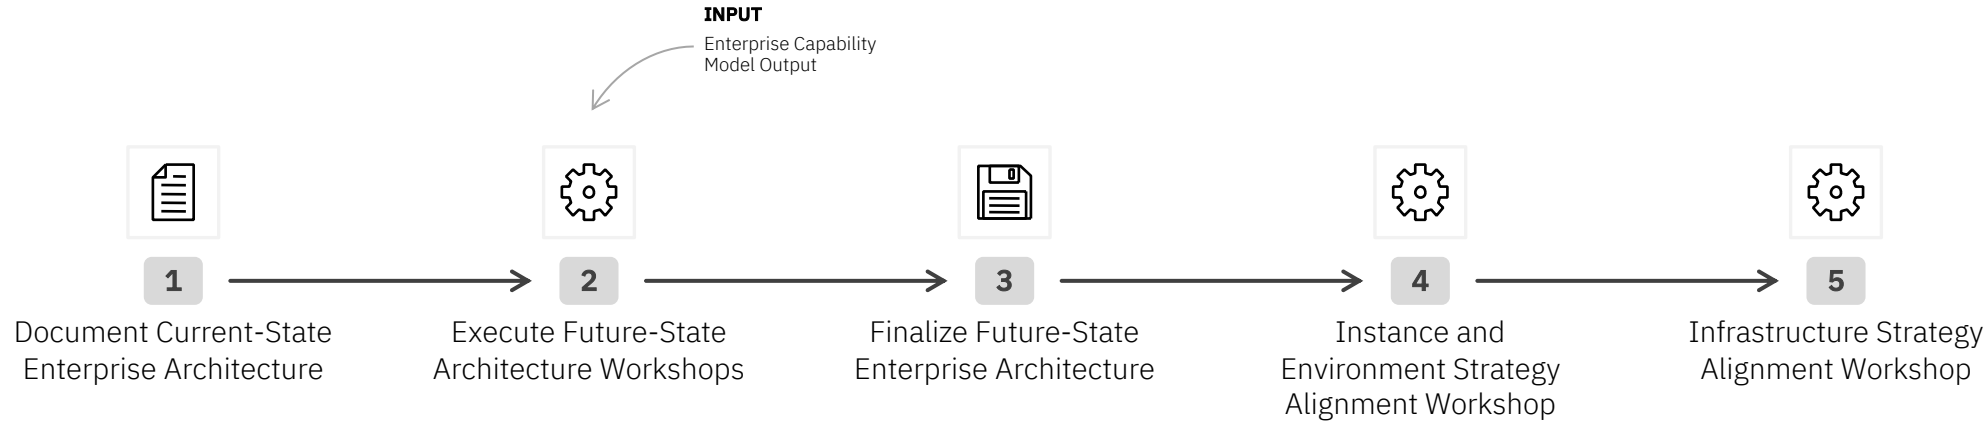

Ways of Working:

- One 90-minute BPH Confirmation Workshop / Level 2 process area
- Multiple 90-minute Business Capabilities Workshops / Level 2 process area
- As needed, 60-minute KDD Navigation Workshops

Enterprise Architecture

Workstream Deep-Dive

APPROACH

OUTCOMES

- Enabling enterprise application inventory based on Enterprise Capability Model outcomes
- Technical design for future-state Enterprise Architecture, including future-state architecture diagrams
- Preliminary recommendations for Application Rationalization
- Future-state instance strategy
- Future-state infrastructure sizing and strategy

CLIENT EXPECTATIONS

Suggested Participants:

- Working group of key IT stakeholders / architects

Ways of Working:

- Multiple 90-minute Future-State Architecture Workshops
- One 60/90-Minute Instance & Environment Strategy Alignment Workshop
- One 60/90-Minute Infrastructure Strategy Alignment Workshop

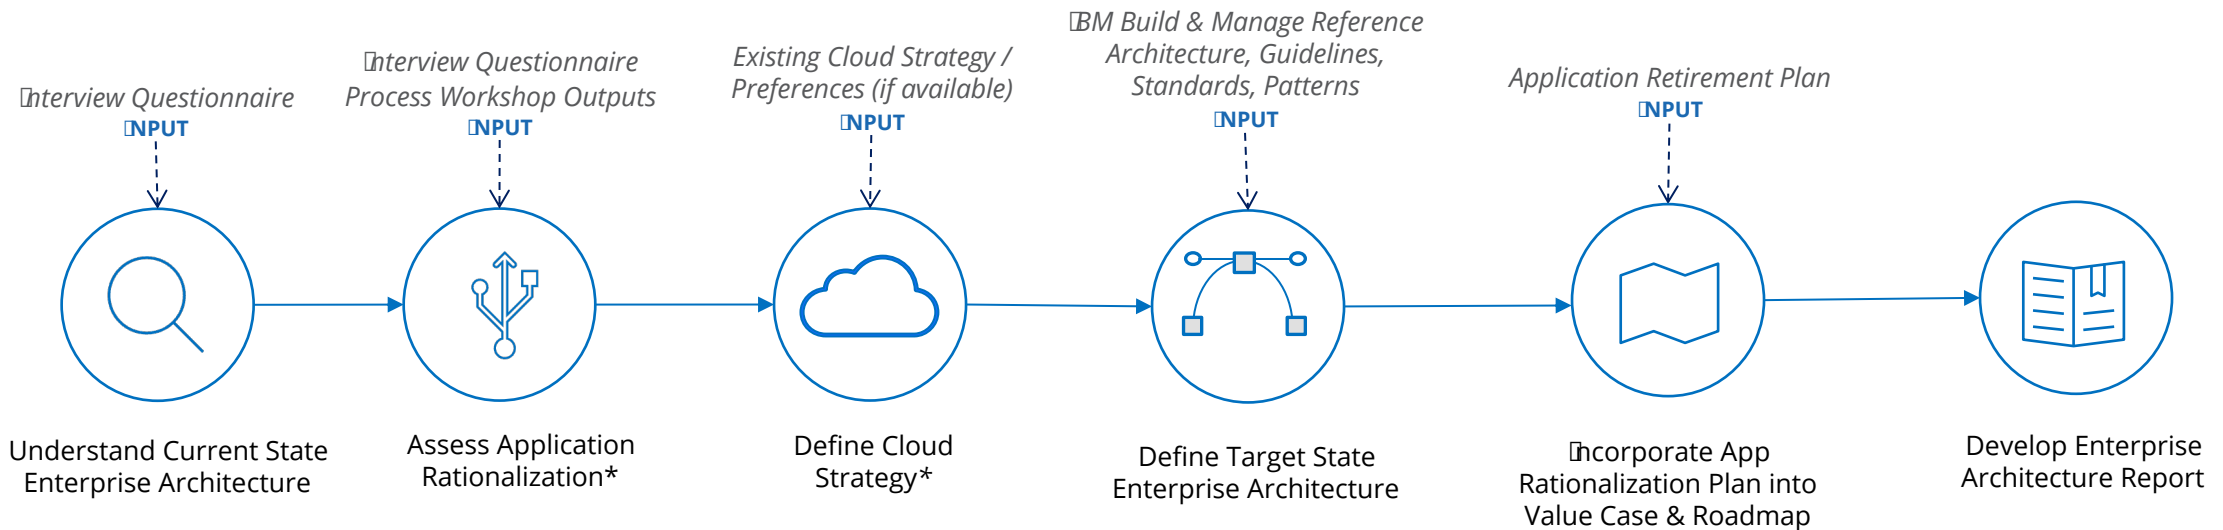

Future-State Enterprise Architecture

Determine the enterprise architecture to form the foundation for future-state operations, aligned with your organization's architectural guidelines and priorities

PURPOSE

The purpose of the Enterprise Architecture workstream is to provide the high-level enterprise architecture roadmap for the S/4 implementation in a hybrid cloud model + RISE. Additionally, deployment and total cost of ownership options are provided in support of customer requirements.

WORKSTREAM APPROACH:

What We Need From You

Complete the enterprise architecture questionnaire

Allocate 1+ resource to attend workshops for future state enterprise architecture

Allocate personnel to assist with sizing requirements

Outcomes

Clear understanding of current state and target state of enterprise architecture

High-level enterprise architecture roadmap for the S/4 implementation

Enterprise Architecture – Pillars

Enterprise Architecture has many components that need to be tailored to the needs of the program.

Future State Enterprise Architecture

- SAP Landscape, including connected systems (modern integration approach)
- Clean Core architecture, BTP
- Intelligent Workflow Modern Architecture
- Instance Strategy (Global, Regional, etc)
- TCO estimations
- Future State Resource Model (optional)
- License Summary

Cloud Strategy

- Hybrid Cloud Strategy
- Cloud Service Provider Selection
- Location of Data Centers, HA, DR Architecture.
- TCO Estimates
- RISE Breakthrough with IBM
- Others SaaS product selection

Application Rationalization

- Identification of Applications to be retired/replaced by transformation program (input from direct technical discussions and process workshops)
- Rationalization Roadmap (incorporated into overall Implementation Plan)
- TCO Estimates (inputs to Value Case)

Clean Core / Development Strategy

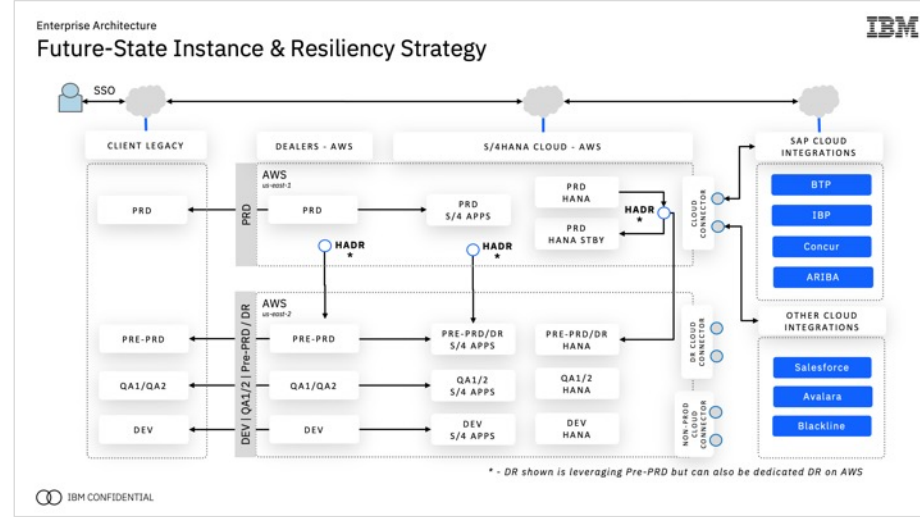

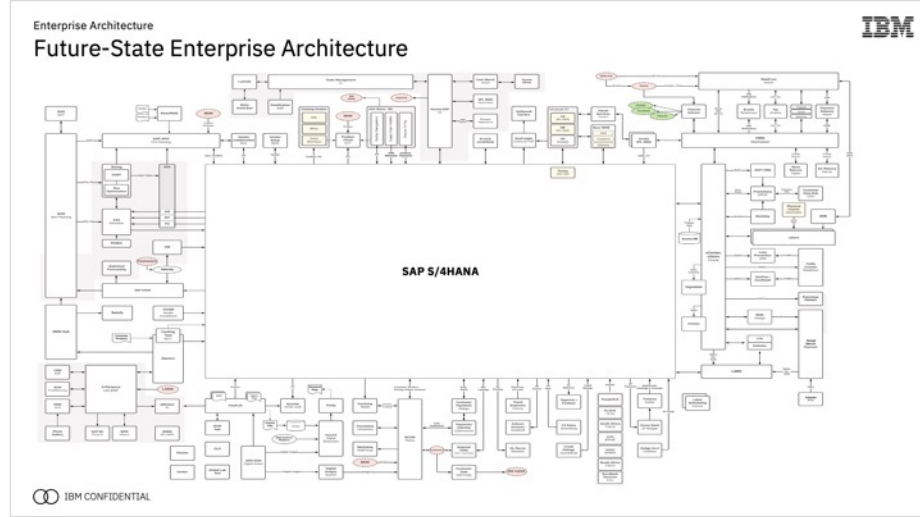

- Future Development Strategy, BTP.
- Clean Core considerations, SAP BTP
- Legacy remediation recommendations and approach (dependent on migration approach)
- SNP Rapid Move+, Syniti for data migration, Ehub etc.

Future / Advanced Discussion Topics

- Watsonx and SAP
- IBM Technology Alignment - e.g., Cloud Paks, IBM Managed services, API connect etc.

Enterprise Architecture

IBM CONFIDENTIAL

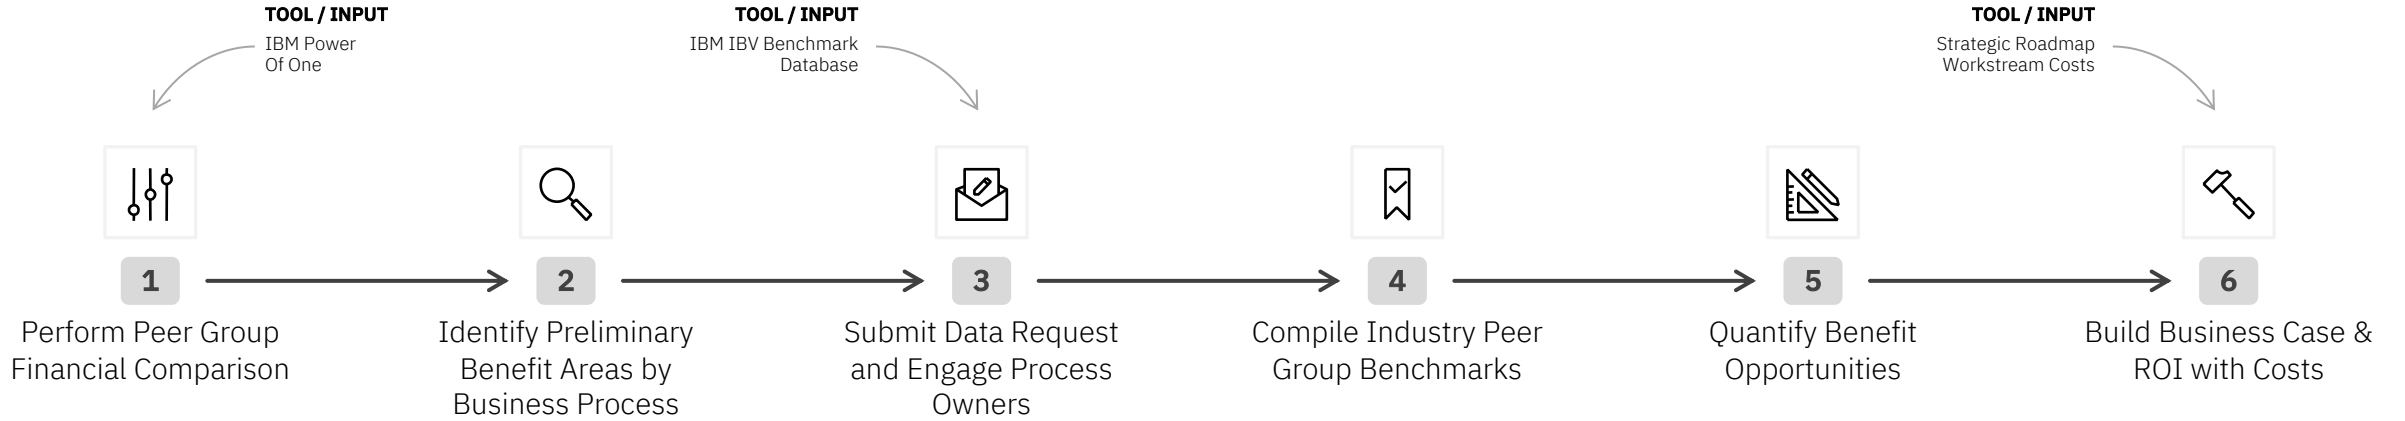

IBM Rapid Discovery Workstream Overview

Value & Roadmap Phase

Business Value

Workstream Deep-Dive

APPROACH

OUTCOMES

- Business case supporting the SAP S/4HANA Strategy & Roadmap
- Financial model of benefits versus costs (ROI)
- Benefit description and sizing by value pool
- Capability to value pool mapping
- KPI benchmark comparisons

CLIENT EXPECTATIONS

Suggested Participants:

- Working group of key business & IT stakeholders

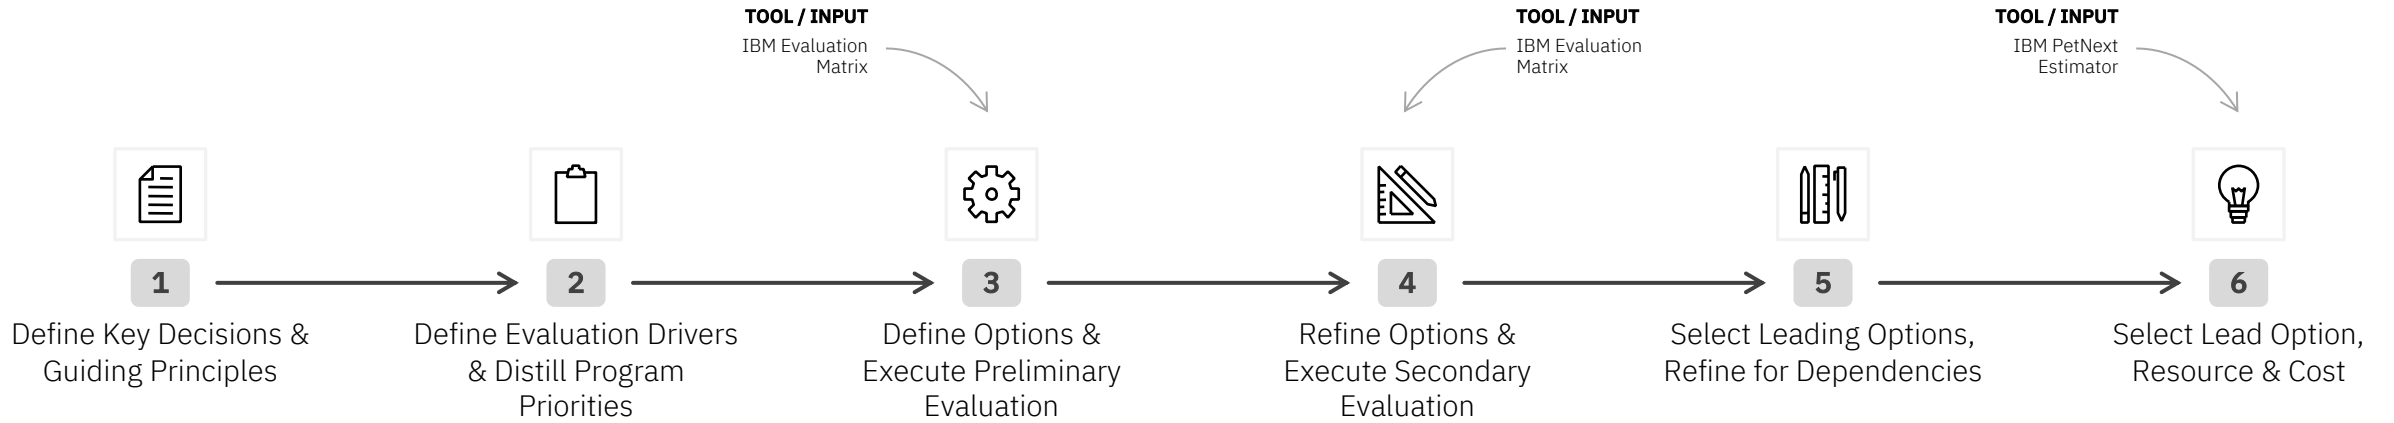

Ways of Working:

- One, 90-minute Introduction & Value Pools Hypothesis Workshop
- Self-paced data request completion
- Multiple, 90-minute workshops to refine and iterate value pool assumptions, sizing, and estimation

Strategic Roadmap

Workstream Deep-Dive

APPROACH

OUTCOMES

- Summary of SAP enabled Business Transformation Strategic Roadmap, including co-defined SAP implementation and deployment strategies
- Strategic Roadmap timeline
- Strategic Roadmap resourcing
- Strategic Roadmap cost

CLIENT EXPECTATIONS

Suggested Participants:

- Working group of key business & IT stakeholders

Ways of Working:

- One, 90-minute Program Priorities workshop
- Three/Four, 90-minute Implementation & Deployment Strategy Workshops
- Multiple informal playback and refinement sessions
