About the Speakers – David McClure

David McClure, Chief Information Security Officer
CONA Services, a Coca-Cola Bottler Organization

David has over 15 years experience in Identity, Security, and Compliance in consulting and consumer products organizations. David has been in the Coca-Cola system for 10 years, he came from IT audit and security consulting. With Coca-Cola, David has had the opportunity to work in the Controlling and IT organizations, built out controls, performed risk assessments, established Identity and Access Management solutions, established cyber security standards, and deployed a greenfield SAP solution. David works for CONA Services, a Coca-Cola Bottler IT organization operating a $20+ Billion SAP solution for the North American Bottlers. David enjoys playing guitar and tennis when not at work, as well as supporting his wife Ariane's animal rescue (S.A.V.E.).

About the Speakers – Kevin Simmonds

Kevin Simmonds, Partner, Cybersecurity & Privacy, PWC

Kevin is a Partner in PwC's Cybersecurity & Privacy practice based in Atlanta, with over 15 years of experience assisting companies with developing business-aligned Information Security programs, developing sustainable Payment Card Industry (PCI) Compliance programs, overseeing technical security assessments, and responding to cyber incidents/breaches. Kevin leads PwC's Cyber Penetration Testing Team (CPT^2), which is a team of advanced testers focused on adversary attack simulation services (e.g., red teaming, purple teaming, dynamic application security testing (DAST), mobile application security testing, IoT testing, and more) for clients across all industries.

Speakers – Mike Golz

Michael Golz, SAP NA CIO

Michael Golz is Senior Vice President and CIO Americas at SAP. He frequently speaks to customers about IT's first-hand experiences with SAP solutions in the areas of digital transformation, digital core, cloud, business networks, security, and leading-edge technologies

ASUG

Key Outcomes/Objectives

1. Understand Real World Threat Scenarios

2. Learn Strategies to Protect SAP Systems

3. Discuss Best Practices for SAP Security Operations

ASUG

Agenda

- What is your cybersecurity vision and strategy?

- What is your biggest security concerns as it relates to your business? And as it relates to SAP?

- What do you think are the most important emerging technologies in the area of fighting cyber threats?

- Thoughts on moving to the cloud to improve your security posture?

- What are your thoughts on GDPR, CCPA or Privacy Shield?

- How do you go about assessing your environment for threats?

- What have been the successful components of your security awareness program?
