Agenda

Introduction to Blockchain

SAP Cloud Platform Blockchain

Blockchain for Supply Chain

Bumble Bee Foods – Ocean to Table Traceability with Blockchain

Wrap Up

Blockchain in Numbers

83%

of life science leaders believe Blockchain will be adopted within 5 years¹

>50%

of companies in consumer products, life science, healthcare, tech and media already deploying Blockchain solutions⁴

Over **\$1,4bIn** investments over the past 3 years⁴

2500+ patents filed over last 3 years⁴

24+ countries currently investing in Blockchain⁴

71%

of business leaders using Blockchain believe it plays a key role in advancing the technology and reestablishing industry standards²

90+

central banks engaged in DLT discussions worldwide⁴

Market cap of public Blockchain assets breaks **\$100bIn**³

What is Blockchain?

Composition of Existing Technologies

- § Decentralized peer-to-peer technology
- § Private / Public key cryptography + hashing algorithms
- § Consensus algorithm

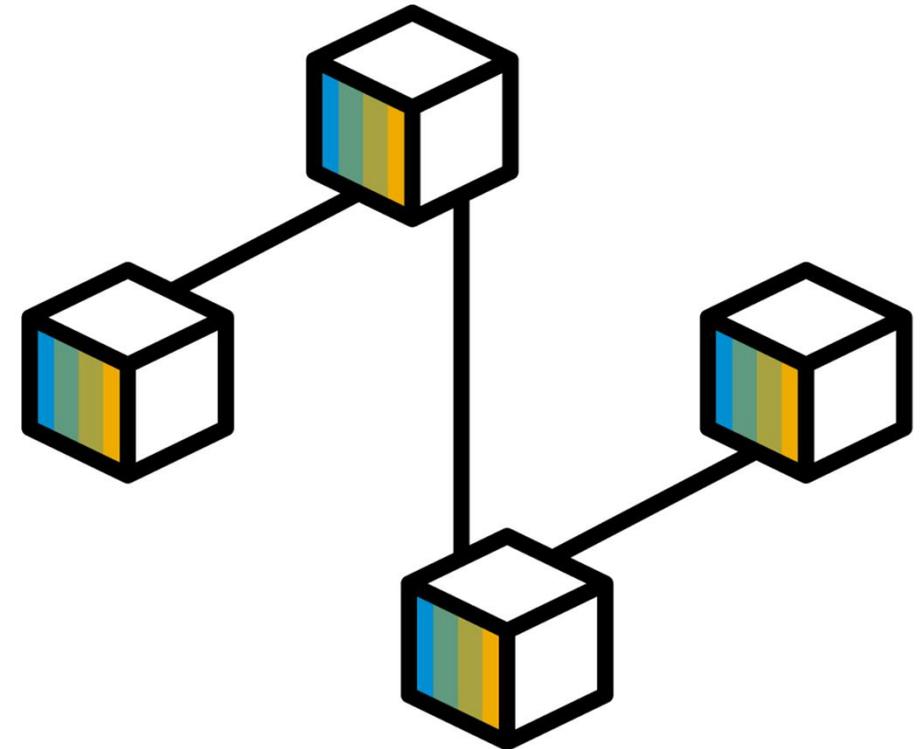

Shared Information Storage

- § Distributed
- § Transparent
- § Immutable

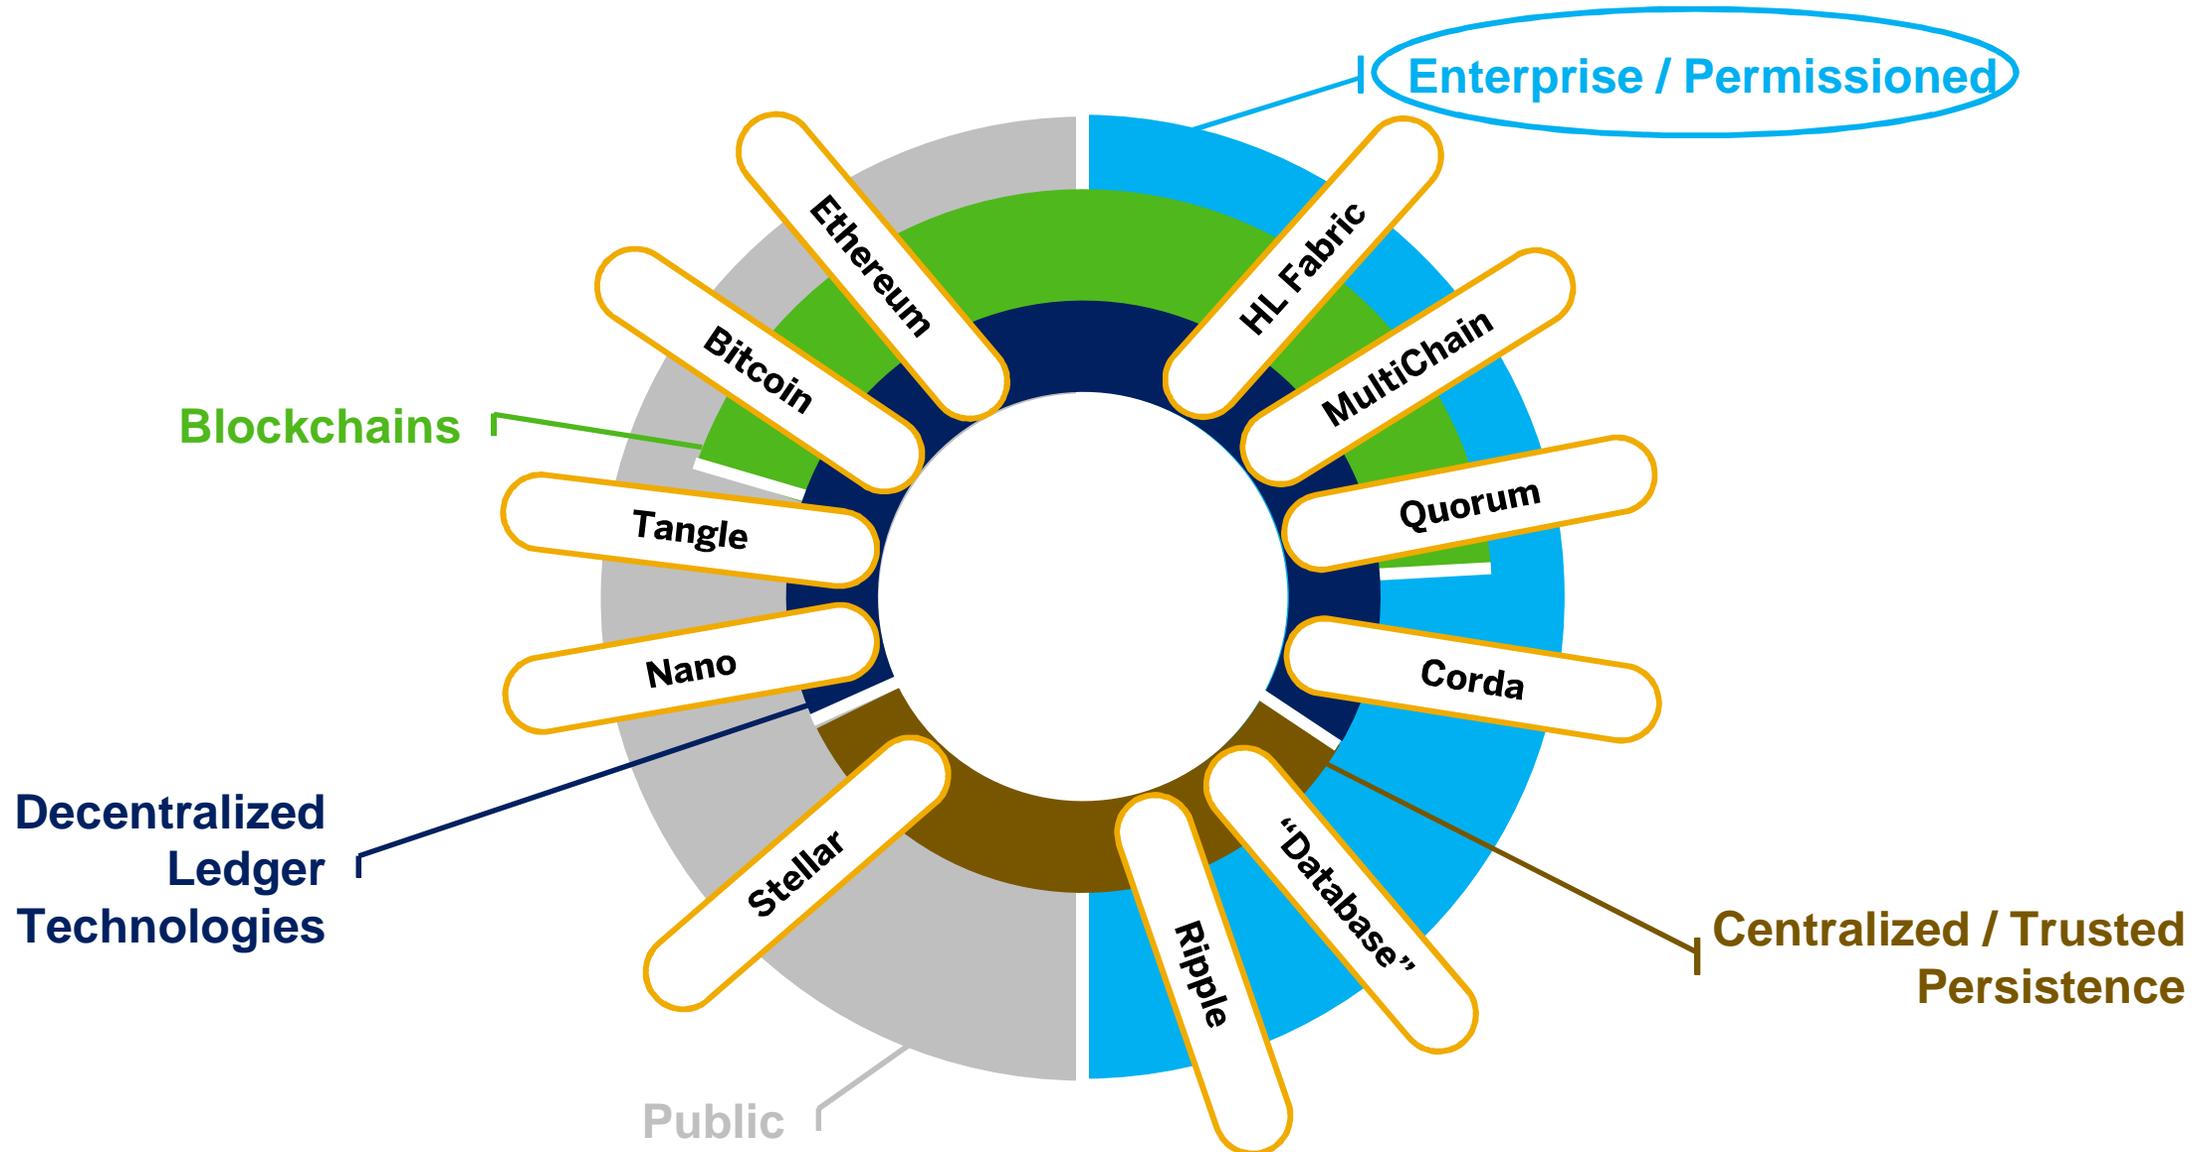

Cryptographically Linked Blocks

Smart Contracts (depends on blockchain protocol)

- § Can represent a business contract and guarantees automation of business rule execution

Landscape of “Blockchain Solutions” – Not-exhaustive

Enterprise Blockchain - Business Value Drivers for Supply Chain

Multi-Company
Collaboration

Time and Cost
Reduction

Information
Imbalance

Transparency &
Auditability

Risk and Fraud
Prevention

Security

Optimize Processes

Peer-to-peer business
network with fewer
intermediaries

Trusted Ecosystem

Decentralized, tamper-
proof and verifiable data
shared by all parties

Data Integrity

Provability & automated
business rules using
smart contracts

Sample List of Blockchain Use Cases Covered By SAP

Across different Lines of Business and Industries

Blockchain for Supply Chain

International Trade
(PoC)

Safeguarding the
Semiconductor Value
Chain against Counterfeits
(PoC)

Pharmaceutical Saleable Returns
(SAP Information Collaboration
Hub for Life Sciences, option for
U.S. supply chain)

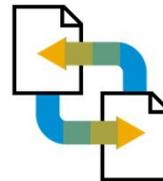

Farm to Consumer
(SAP Logistics Business Network
for Material Traceability – *Planned
Innovation 2019, currently in Beta*)

Secure Bidding in
Procurement

Guarantee Network

Bonded Loans

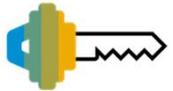

Secured Authorization
Procedures in Public
Sector

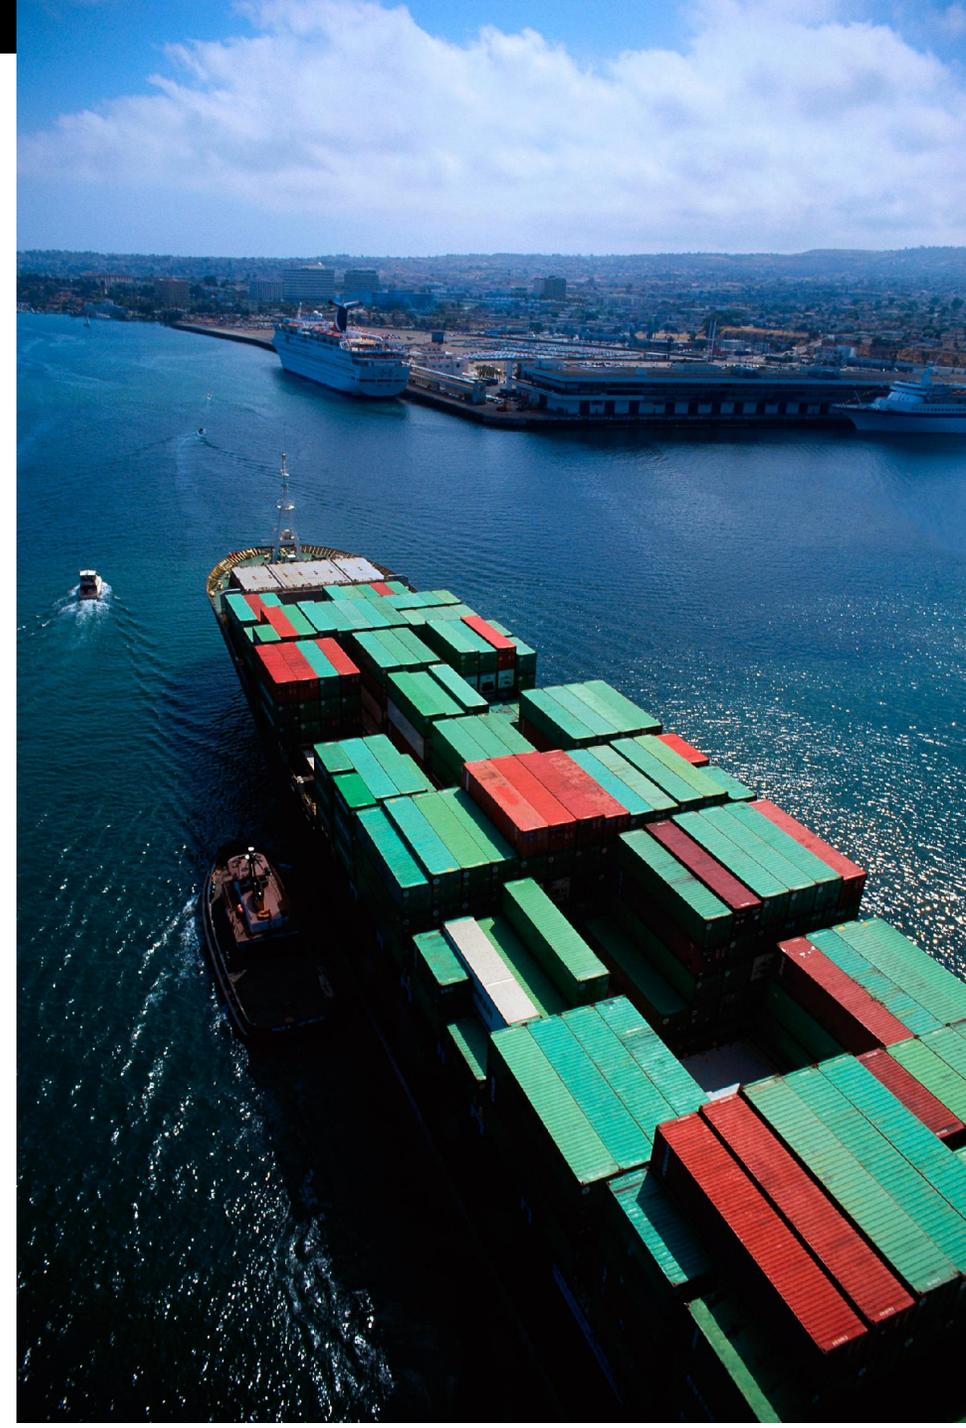

Disaster Operations

International Trade is fraught with inefficiencies

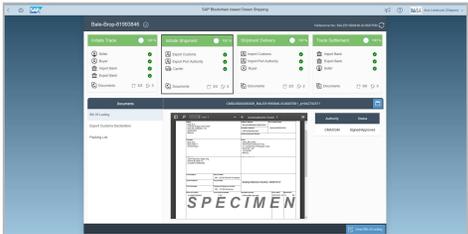

- International trade in most instances is still dependent upon slow, paper-based processes
- Shippers and Consignees spend considerable time and resources, and incur costs on resolving discrepancies and disputes
- Fraud, document loss or falsification, demurrage and finance costs are issues that business partners deal with frequently

SAP launched a Proof of Concept initiative for using blockchain technology to provide **supply chain transparency** and visibility to streamline the international trade process with real-time view of the current state of the trade using **shared, tamper-proof, and verifiable** trade documents.

Partner Access

Global Issue of Food Quality and Waste

- 1 in 10 people fell sick every year due to poor quality food and 420,000 people die each year from foodborne diseases¹
- The supply chain complexity makes it difficult to quickly respond to product recalls
- 30% of the food produced is spoilt or wasted², yet a global population expected to grow to 9.8 billion by 2050³

SAP launched Farm-to-Consumer blockchain initiative with 13 customers to improve **material provenance and traceability** by providing a decentralized platform to enable data sharing across the **supply chain network** and improve end-to-end visibility.

¹ [World Health Organization](#)

² [Food and Agriculture Organization of the United Nations](#)

³ [United Nations Department of Economic and Social Affairs](#)

Farm-to-Consumer Blockchain Co-Innovation Proof of Concept

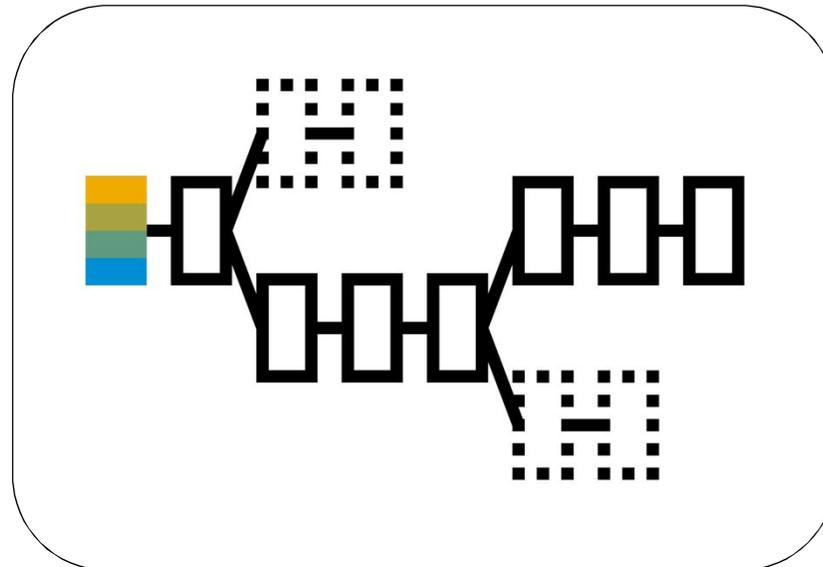

Transparency of food genealogy across the entire supply chain

Business Goals:

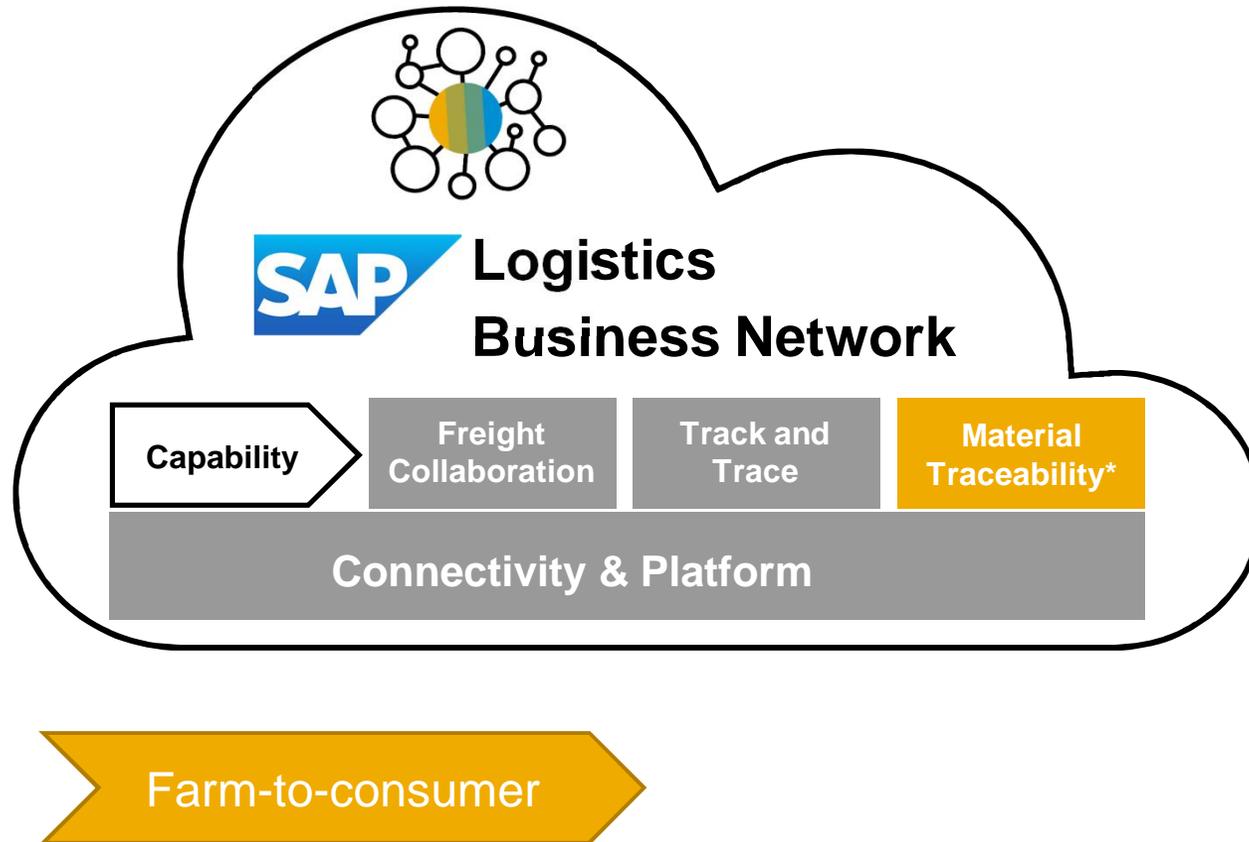

- § Reduce food waste
- § Streamline recalls and reduce amount of product to be recalled

Technology Goals:

- § Prove applicability of Blockchain through a joint proof of concept across the supply chain
- § Augment SAP traceability solutions like SAP Global Track and Trace cloud network with Blockchain

SAP Logistics Business Network, Material Traceability*

Trace material provenance from raw material batch origin to finished product across an n-tiered material value chain with a state-of-the-art technology approach

- § Decentralized platform to enable data sharing across the supply chain network and improve end-to-end visibility
- § Alert your supply chain partners in case of a product issue
- § Integrate with your business backend systems
- § Leverage capabilities of SAP Cloud Platform Blockchain as a Service

* beta program

Agenda

Introduction to Blockchain

SAP Cloud Platform Blockchain

Blockchain for Supply Chain

Bumble Bee Foods – Ocean to Table Traceability with Blockchain

Wrap Up

Blockchain Traceability Project Objectives

- § Started our journey to optimize our supply chain and expand our industry leadership around traceability and sustainability
- § Ultimate goal to provide consumers with full transparency
- § Find a strategic partner to implement best-in-class blockchain technology

Blockchain Traceability Project Challenges

- § Technical limitations with implementing a solution in the remote islands of Indonesia
- § We don't own a single piece of the supply chain from catch to finished goods
- § How do we get the fishers, suppliers, and 3rd party manufacturing companies to participate (share data)

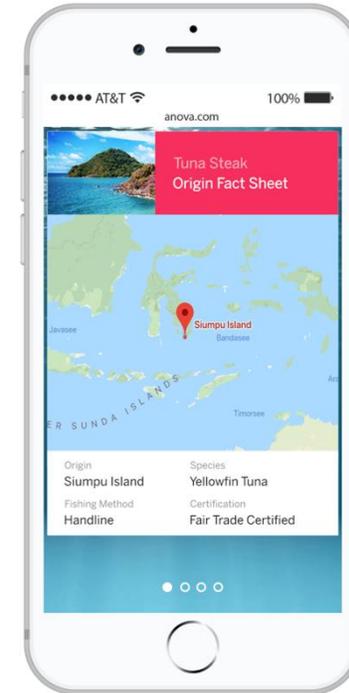

Blockchain Traceability Project Roll-out

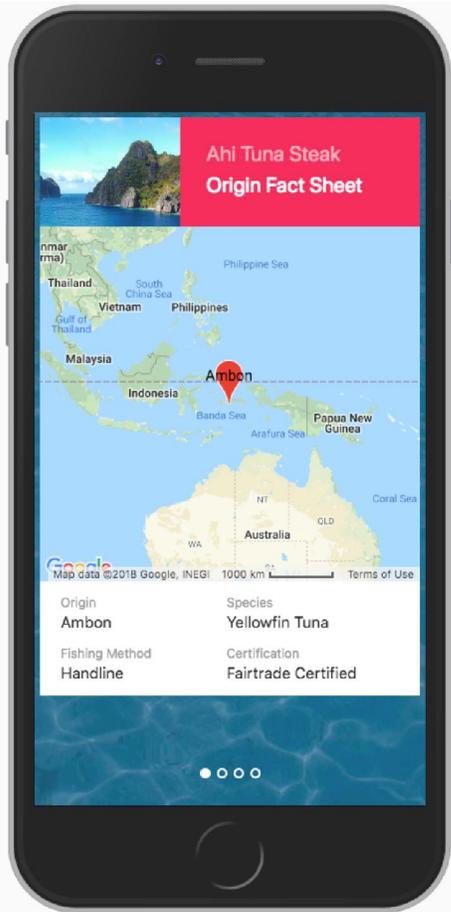

- § Evaluated several vendors and selected SAP as our strategic partner
- § Implemented SAP Blockchain Platform and SAP Cloud Analytics
- § Kick-off > Sept 2018; Pilot > Dec 2018; Production > Feb 2019

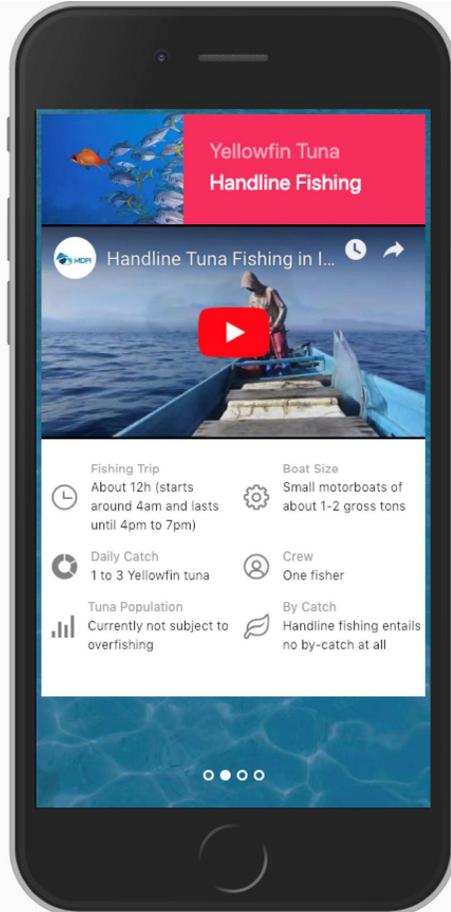

Blockchain Traceability Project Solution

- § QR Code on our Fair Trade Natural Blue Anova yellowfin tuna from Indonesia
- § Consumer mobile app to display traceability, sustainability, Fair Trade information, and recipes
- § Supplier dashboard in pilot on SAP Cloud Analytics
- § Lab Results reference information on the blockchain

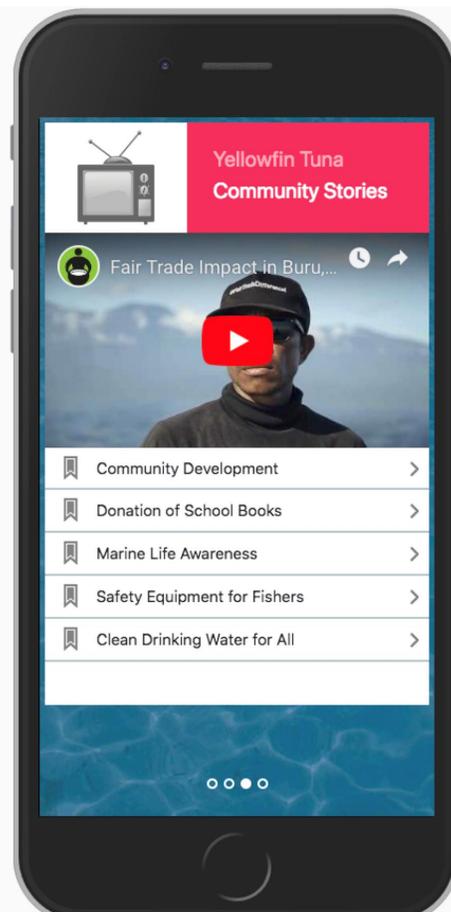

Where the tuna was caught?
 What was the fishing method?
 What was the species?
 Was it fair-trade?

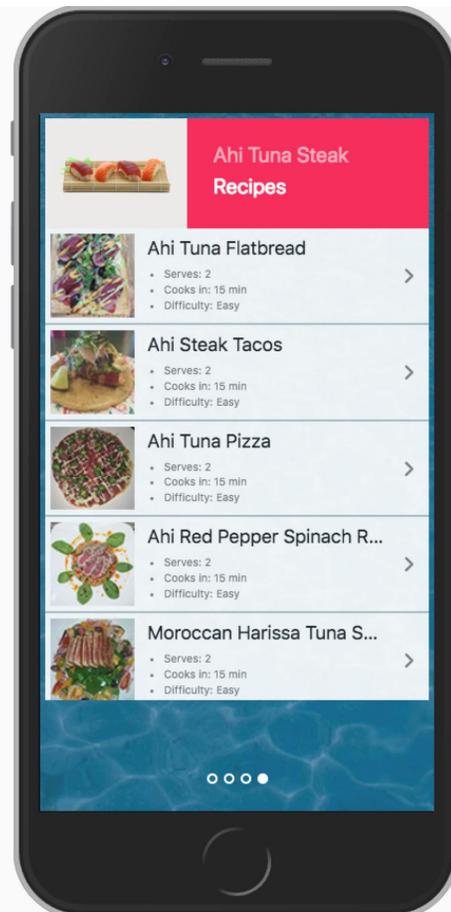

Details about the trip to show that the tuna was caught in a sustainable way (e.g. no overfishing, small boats, handline fishing which entails no bycatch)

Community stories and benefits from fair-trade:

- Story 2: donation for school books: so children can go to school and do not have to work
- Story 4: safety equipment for fishers e.g. gloves for handline fishing

Recipes

Catch Data Analysis of the Supplier -FRANS, KOMANG HATAWANO, KOMANG NAMSINA, KOMANG NANALI, KURNIA

527.10 Kgs
Average Catch per site

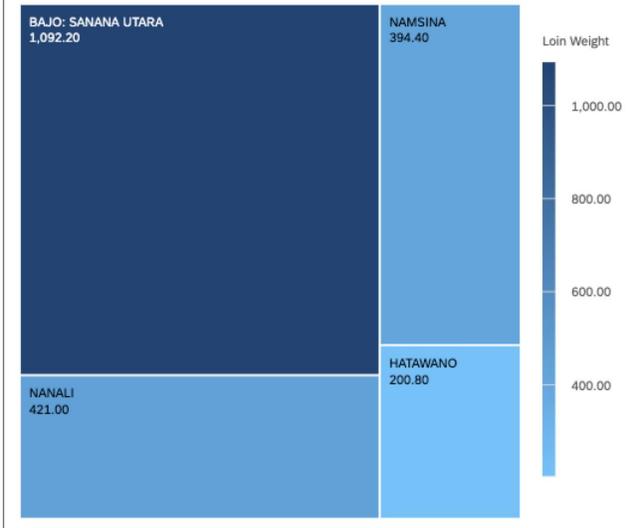

2,108.40 Kgs
Loin Weight

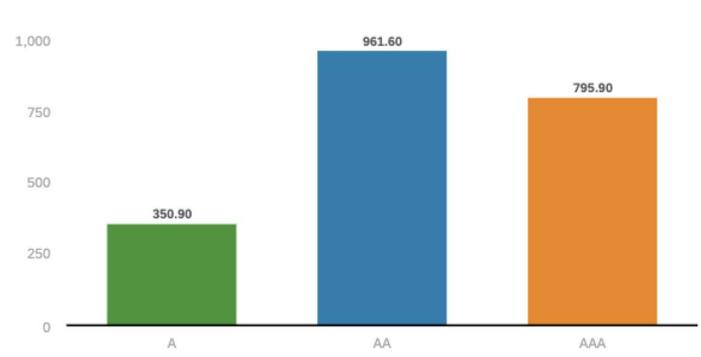

Catch Distribution of Fishers

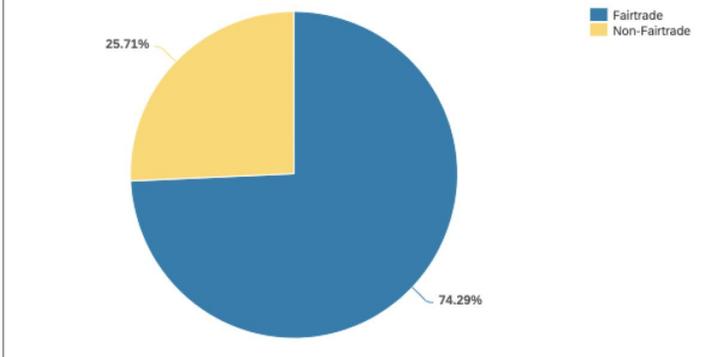

Catch Distribution over Landing Sites

Grade of the Fish Caught

How much of the catch was Fairtrade

Blockchain Traceability Project Outlook

- § Onboard new Indonesian fish supplier on SAP Blockchain
- § Deploy SAP Cloud Analytics supplier dashboard
- § Pilot Lab Results documents via SAP blockchain technology with several strategic retailers
- § Continue evaluation of IoT technologies and applicability
- § Implement other Bumble Bee brands on SAP Blockchain
- § SAP Ocean to Table product solution

Agenda

Introduction to Blockchain

SAP Cloud Platform Blockchain

Blockchain for Supply Chain

Bumble Bee Foods – Ocean to Table Traceability with Blockchain

Wrap Up

In Summary

1. Blockchain enables real-time view of the end-to-end supply chain improving **transparency and visibility**
2. By automating end-to-end, cross-company processes, blockchain increases **supply chain efficiencies** and reduces **costs**
3. Blockchain ensures product **safety**, verifies **authenticity**, and promotes **sustainability**

Blockchain for Supply Chain Sessions

Session#	Date/Time of Activity	Location	Session Title	Session Type	Presenter
ASUG82553	Tuesday, May 7 12:00 - 12:40	330A	Creating Digital Trust with Blockchain in Multiparty Collaboration	ASUG Presentation	Ganesh Wadawadigi SAP; Tony Costa Bumble Bee Foods LLC
DS86376	Tuesday, May 7 03:00 - 03:20	Digital Supply Chain DS120	Support a Counterfeit-Free Pharmaceutical Supply Chain with Blockchain	Demo Session	Carol Mackenzie, SAP
PL86054	Tuesday, May 7 03:00 - 03:20	Platform and Intelligent Technologies PL846	Use Your Company's Data to Enable the Intelligent Enterprise	Ask the Expert	Christian Schuerings SAP; Christian Schuerings SAP
ASUG83946	Wednesday, May 8 11:00 – 11:40	Roundtable 3 (220E)	How Blockchain Can Help Take Chemical Companies to the Next Level	ASUG Roundtable	Stefan Guertzgen SAP
CU86057	Wednesday, May 8 11:00 – 11:20	Platform and Intelligent Technologies PL854	Enhance Transparency by Unlocking the Business Potential of Blockchain	Small Theater Presentation	Carol Ebels SAP
PL86313	Wednesday, May 8 01:00 – 01:20	Digital Supply Chain DS122	Accelerate Innovation by Disrupting Manufacturing with the Industrial IoT	Small Theater Presentation	Kevin Hunter SAP
ASUG84432	Wednesday, May 8 04:00 – 04:40	TBD1	The Power of Blockchain: Solving Complex Business Problems	ASUG Presentation	Nitin Singh SAP; Pravin Lewis SAP
NE89591	Wednesday, May 8 05:30 – 05:50	Network and Spend Management NE511	Streamline Intergroup Credit Management with Blockchain Technology	Demo Session	Dr. Sathya Narasimhan SAP
DS89590	Thursday, May 9 11:30 – 11:50	Digital Supply Chain DS122	Add Blockchain Trust to International Trade	Demo Session	Ganesh Wadawadigi SAP
PL91513	Thursday, May 9 12:00 – 12:20	Platform and Intelligent Technologies PL846	Enhance Transparency by Unlocking the Business Potential of Blockchain	Ask the Expert	Carol Ebels, SAP
ASUG84342	Thursday, May 9 02:00 - 02:40	310B	Blockchain Services and Use Cases: SAP Cloud Platform	ASUG Presentation	Sathya Narasimhan, SAP; Nagesh Caparthy, SAP
DS89589	Thursday, May 9 02:30 – 02:50	Digital Supply Chain DS121	Bring Trust and Transparency into the Food Supply Chain with Blockchain	Demo Session	Eric Somitsch SAP
ASUG83211	Thursday, May 9 03:00 – 03:40	310F	SAP Leonardo Industry Innovation Kits: Innovation Made Just for You	ASUG Presentation	Merlijn Ekkel SAP
PE89594	Thursday, May 9 03:00 – 03:40	People Engagement PE403	Kindle New Business Models with Blockchain Technology	Interactive Session	Artiona Bogo SAP
DS86397	Thursday, May 9 04:30 – 04:50	Digital Supply Chain DS120	Safeguard Your Manufacturing Value Chain with Blockchain	Demo Session	Helena Chong SAP

Take the Session Survey.

We want to hear from you!
Be sure to complete the session evaluation on the SAPPHIRE NOW and ASUG Annual Conference mobile app.
