SAP Cloud ALM:
A Customer Journey to SAP S/4HANA Cloud

Stephanie Jerch, Jan Musil SAP
May 7, 2019

PUBLIC

Session: 82987

THE BEST RUN **SAP**

# Agenda

SAP S/4HANA Cloud implementation phases

- Customer situation
- SAP Activate methodology
- Implementation Experience

SAP Cloud ALM for the implementation of SAP S/4HANA Cloud

- Role demo based tool journey
- Further Information

Speaker Crew

Stephanie Jerch

Senior Technology Consultant

- Leads the Early Adopter Care Program for SAP Cloud ALM for implementation of SAP S/4HANA Cloud
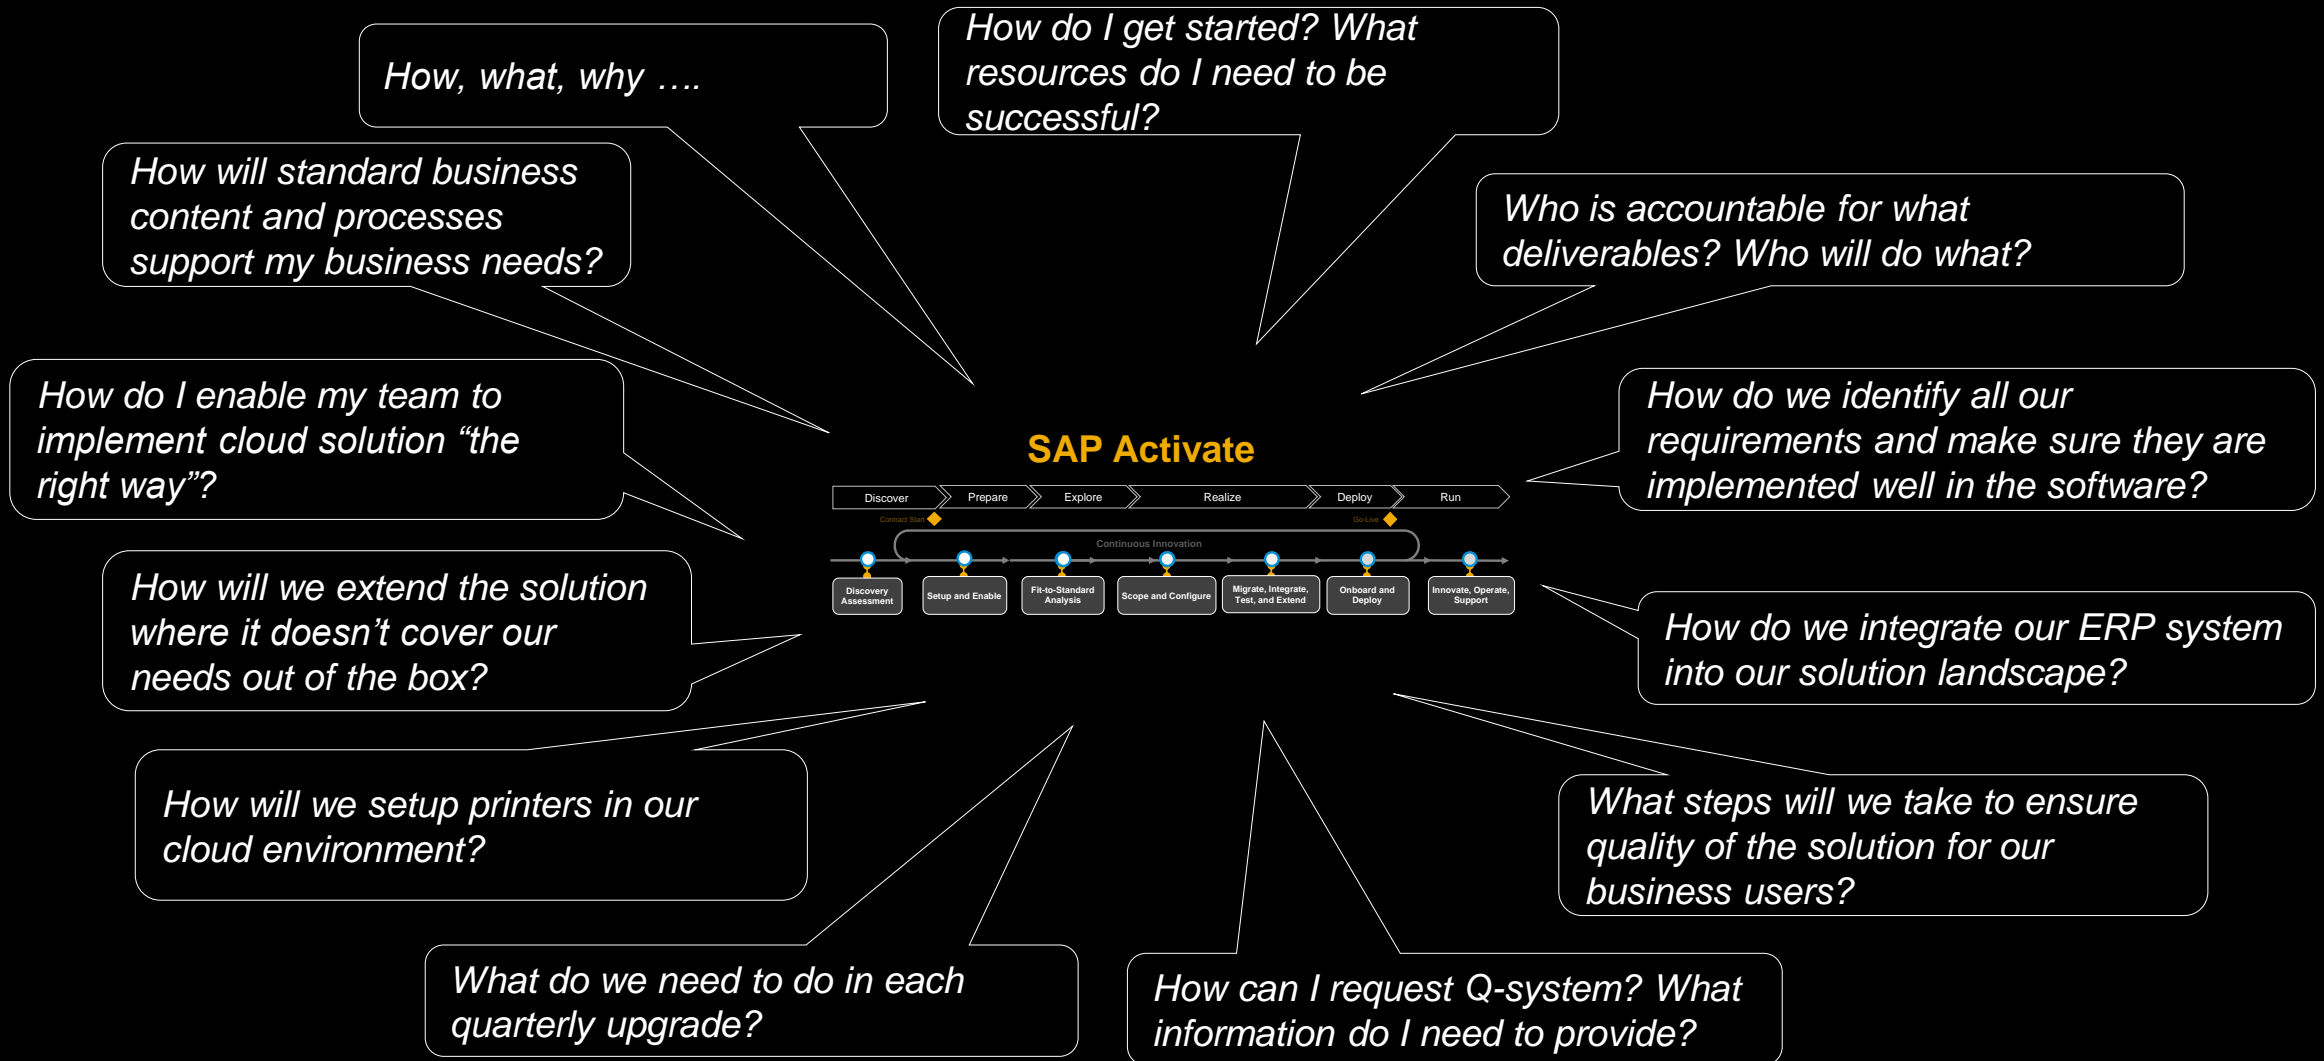

- Expert in SAP Solution Manager

Jan Musil

Chief Product Owner of SAP Activate Methodology

- Leads the definition of the SAP Activate methodology for SAP products, including SAP S/4HANA Cloud

- Expert in application of Agile methods in SAP environment

Customers have questions about the deployment of SAP S/4HANA Cloud

SAP Activate guides them along their journey

How, what, why ….

How do I get started? What resources do I need to be successful?

How will standard business content and processes support my business needs?

Who is accountable for what deliverables? Who will do what?

How do I enable my team to implement cloud solution "the right way"?

How do we identify all our requirements and make sure they are implemented well in the software?

How will we extend the solution where it doesn't cover our needs out of the box?

How do we integrate our ERP system into our solution landscape?

How will we setup printers in our cloud environment?

What steps will we take to ensure quality of the solution for our business users?

What do we need to do in each quarterly upgrade?

How can I request Q-system? What information do I need to provide?

SAP Activate

| Discover | Prepare | Explore | Realize | Deploy | Run |

SAP Cloud ALM for Implementation of SAP S/4HANA Cloud: Experience

Discover | Prepare | Explore | Realize | Deploy | Run

Continuous Innovation

| Discovery Access | Fit to Standard Analysis | Scope and Configure | Migrate, Integrate, Extend, Test | Onboard and Deploy | Operate, Monitor, Support |

SAP S/4HANA Cloud Trial — Discover Sample Processes

Embedded in SAP Cloud ALM

SAP Best Practices — Evaluate available SAP Best Practices

SAP S/4HANA Cloud Tasks — Manage SAP S/4HANA Project Tasks

Embedded in SAP S/4HANA Cloud

Configure your Solution — Implement Customer Requirements via Guided Configuration

SAP S/4HANA Migration Cockpit — Upload Data with predefined Templates

Test automation tool S/4HANA Cloud — Test Processes based on automated scripts — Regression Test based on automated scripts

This is the current state of planning and may be changed by SAP at any time without notice.

SAP Cloud ALM for Implementation of SAP S/4HANA Cloud
Key capabilities

SAP Cloud ALM for Implementation **of** SAP S/4HANA Cloud

SAP S/4HANA Cloud

- Self-guided and content-driven implementation of SAP S/4HANA Cloud based on SAP Activate

- Instantaneously available – no setup or configuration

- Fast onboarding of project Teams

- Manage Implementation Tasks – automatically generated and adapted to customer scope

- Convenient visualization of Business Models and related Process Descriptions

- Supports Fit-to-Standard workshops with access to SAP S/4HANA systems and efficient solution scoping

- Progress Monitoring of implementation activities

"Journey **Milestones**"

Project Start

Invitation

Onboarding

Scoping

Fit to Standard

Content driven task management

Demo
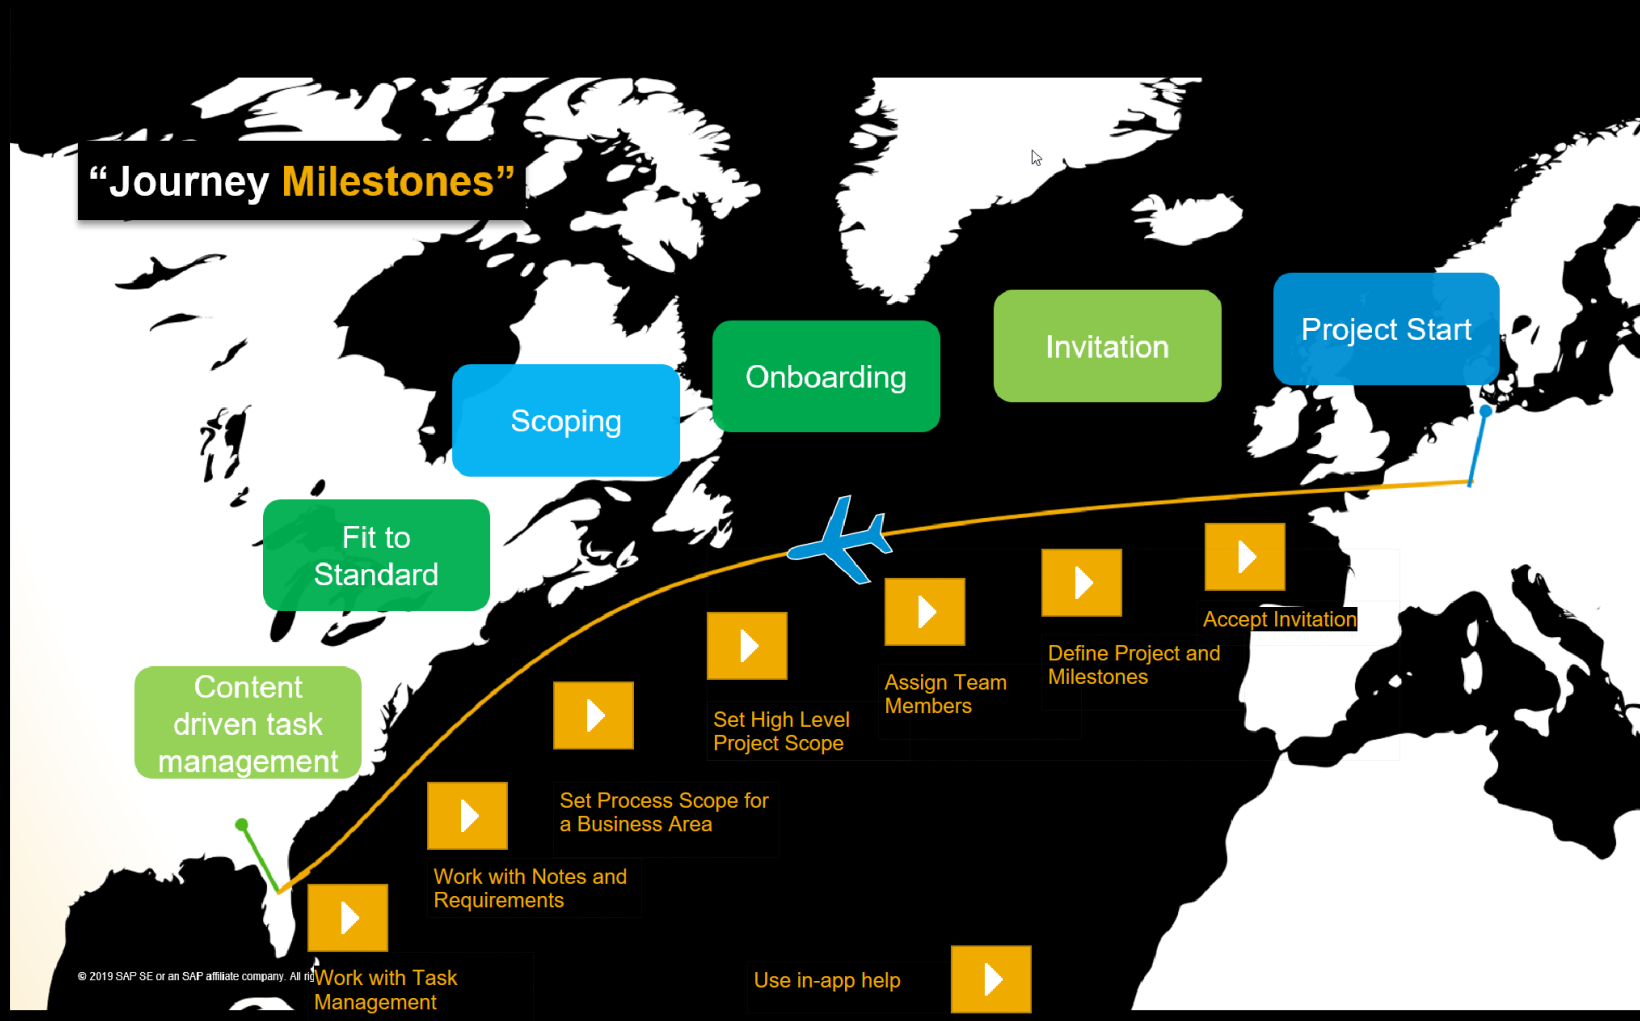

SAP Cloud ALM for implementation of SAP S/4HANA Cloud
Content driven implementation project
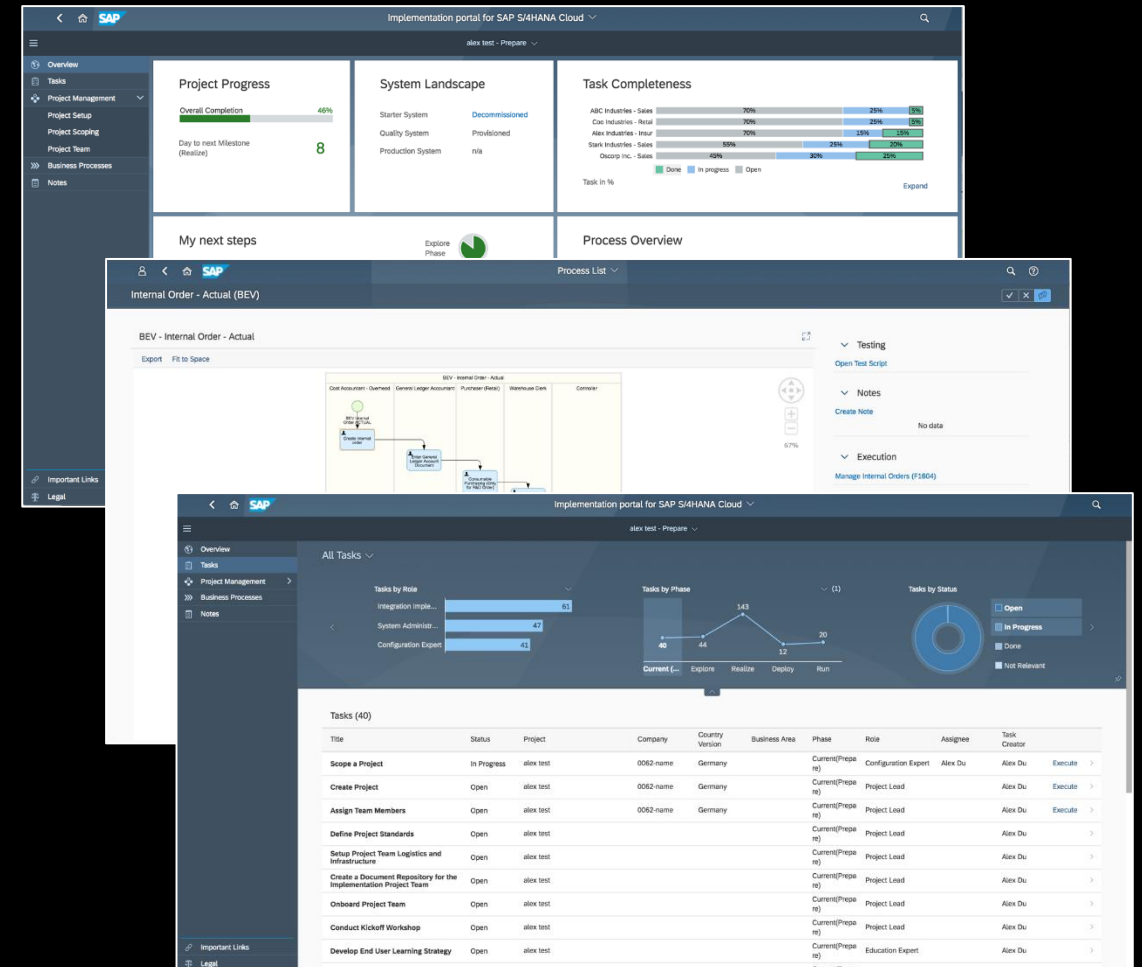

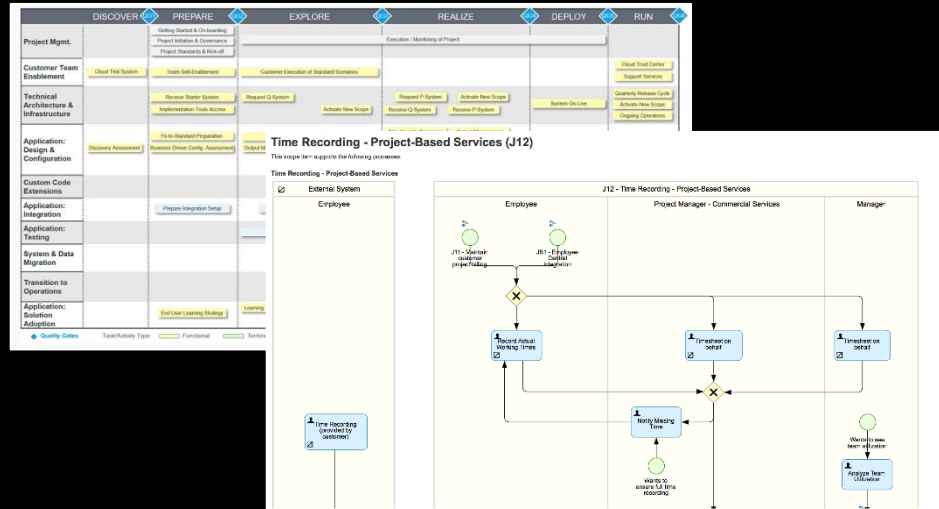

Company
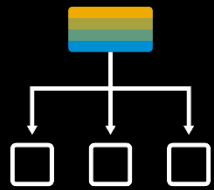

Business Area

Team

Implementation of SAP S/4HANA Cloud
Project Lead
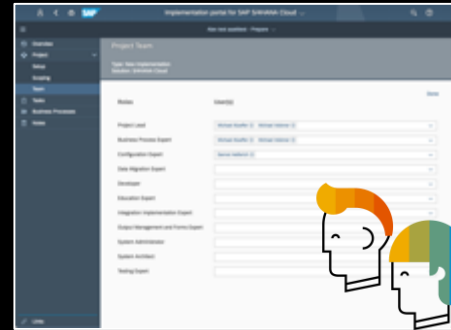

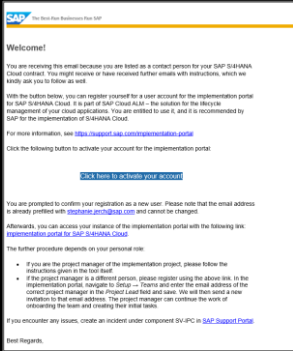

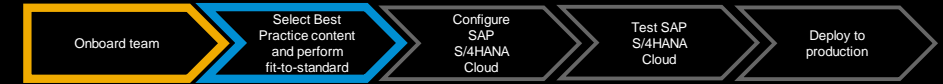

Invitation Mail

Receives an invitation mail and gets instantaneous access to the Implementation Portal

Scoping

Defines scope for implementation project, e.g. Companies, Business Areas and Timelines

Onboarding

Performs fast and convenient onboarding of implementation team members and assignment to roles

Progress Monitor

Monitors the progress of implementation task execution

Powered by SAP Cloud ALM

Implementation of SAP S/4HANA Cloud
Configuration Expert, Business Process Expert
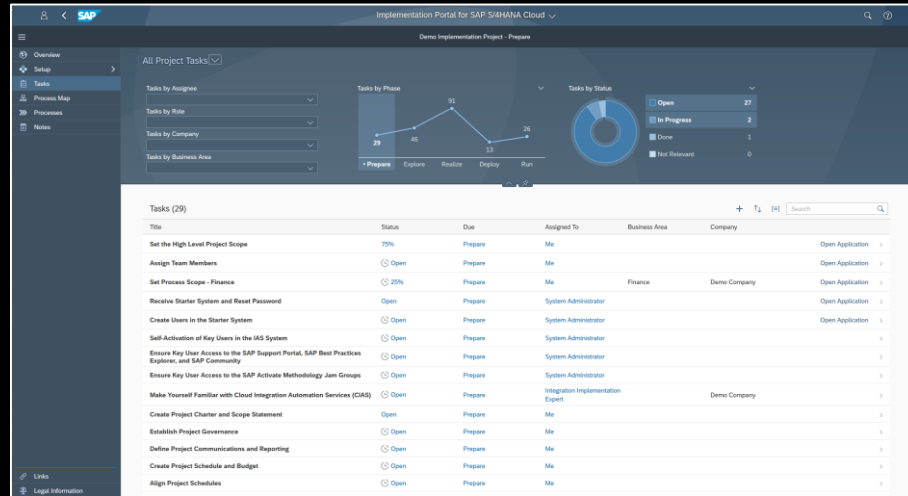

Content-driven implementation

Tasks automatically assigned to implementation team members – specific to their roles

Tasks created from **Notes**
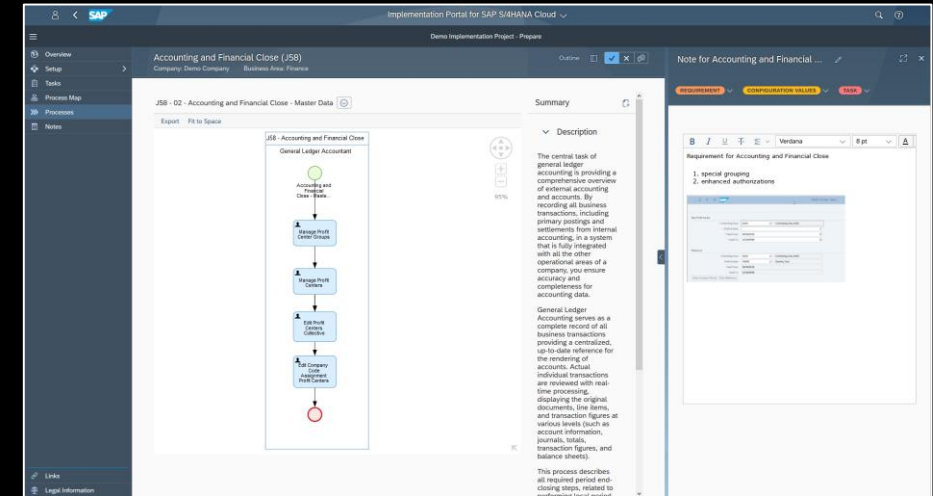

Fit to Standard workshops

View Best Practice **Processes** and related **Process Descriptions** with 1-click access to S/4HANA Cloud systems

Record **Notes** for comments, documentation and requirements
