

### IOM UN - planning with SAP Analytics Cloud rollout in 170 countries-case study Ondřej Klouček, Solution Architect, Mibcon NDC Session ID #82842

May 7 – 9, 2019

# About the Speakers

### Ondřej Klouček

- Solution Architect
- Solution expert for SAP Analytics Cloud, leader of many SAC implementations, creator of SAP training concept for SAP Analytics Cloud
- Our family (and I) have been hunters since last 5 centuries

# Key Outcomes/Objectives

- 1. Introduce IOM process
- 2. Describe the solution and project approach
- 3. Share the experiences from rollout

# Agenda

- IOM and Mibcon NDC intro
- IOM process
- Solution architecture
- Project delivery
- Live demo

### About the International Organization for Migration

- Established in 1951, IOM is the leading inter-governmental organization in the field of migration and works closely with governmental, intergovernmental and nongovernmental partners. With 172 member states and 8 states holding observer status IOM works
- 1. To help ensure the orderly and humane management of migration,
- 2. To promote international cooperation on migration issues, to assist in the search for practical solutions to migration problems
- 3. To provide humanitarian assistance to migrants in need, including refugees and internally displaced people.

### **IOM's** Facts and Figures

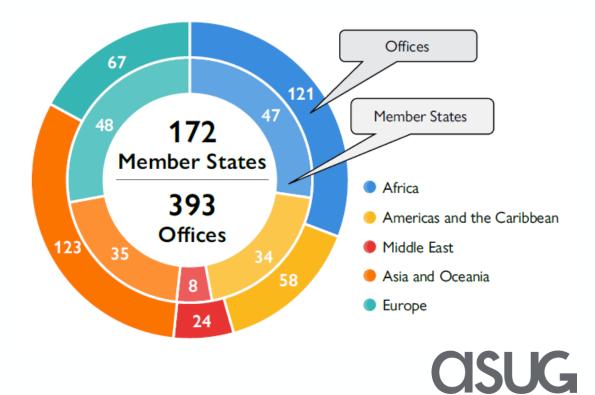

- Highly decentralized organization
- Global footprint
- 11,000 staff, 97% in field operations
- 393 field offices
- Presence in over 170 countries
- 2,300 active projects "in every moment"

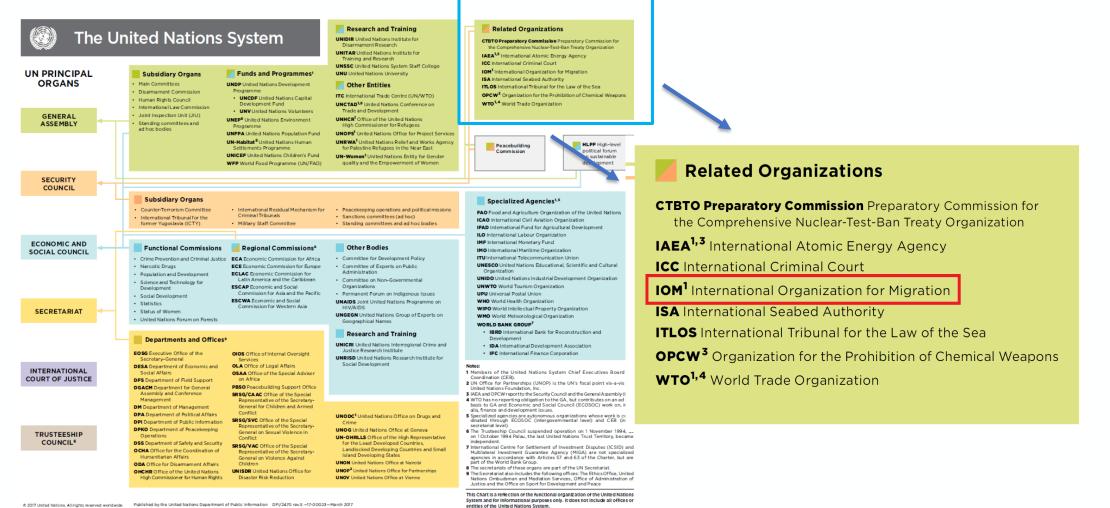

International Organization for Migration (IOM)

### About Mibcon NDC

Name: MIBCON NDC s.r.o. ID: 05432898 VAT ID: CZ05432898

**MIBCON New Dimension Consulting** has unique experience building Enterprise Performance Management solutions in SAP environment in both on-premise and cloud, covering planning, simulation, reporting, financial consolidation and sales optimization topics.

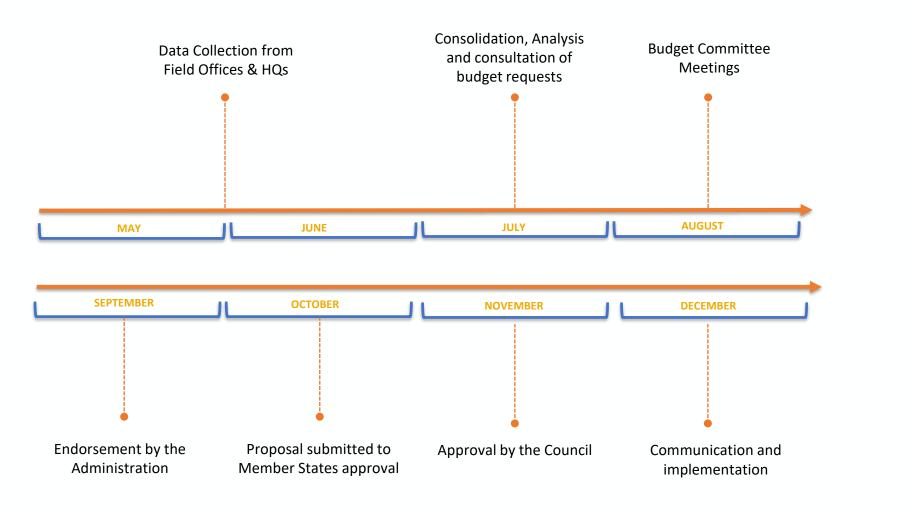

Number of employees MIBCON group (status October 2017): 157 Revenues MIBCON group (Fiscal Year 2016): 12,5 mil. EUR Operating in countries: CZ, SK, DE, AT, UK, SL, PL, SW, SAR, UAE, OM, SLO, PHL

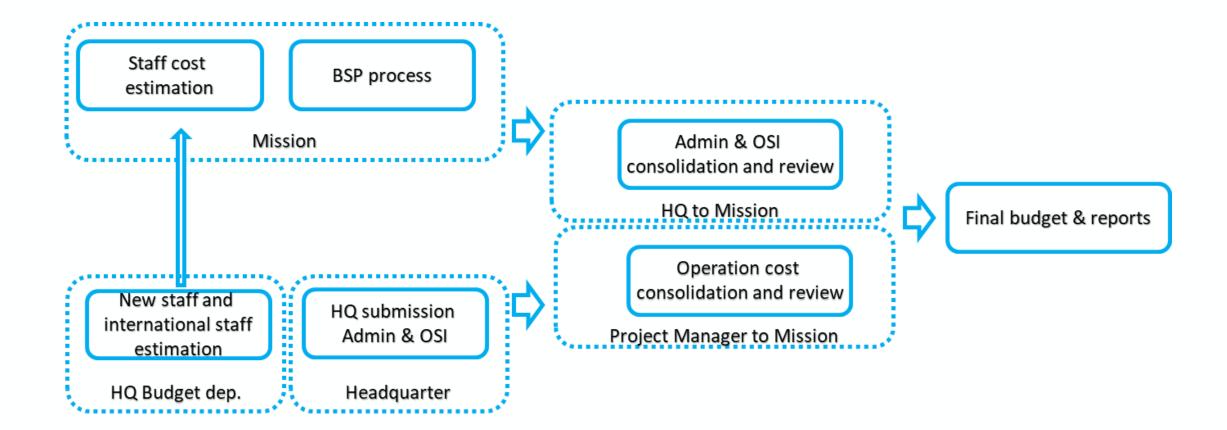

### **IOM Program and Budget's Preparation** Main Phases

### **Budget submission process**

### **IOM Project approach**

BEACON - Budget Estimation Analysis and CONsolidation tool

- Sales process: Spring 2017
- Project Kickoff: July 2017
- Project Go-live: May 2018
- Delivery
  - Solution to collect budget from 170 individual countries (238 planning offices)
  - Consolidation and Approval process of budgets from offices
  - List of real-time reports based on budget requests and budget cycle/process status
  - Fully Cloud based solution with zero local installation required
  - Remote training and video training
  - Single authentication to cloud system
  - Track full changes with the author and time detail
  - Enable plan versioning and monitoring
  - Integration with the current IOM (non-cloud) infrastructure SAP ERP / SAP BW / SQL / CSVs...
    - Master data (Projects, Employees, Business areas, Positions, Costing sheets...and more)
    - Transactional data (Project Actuals, Migration statistics...and more)

### **Technical Solution Architecture**

SAP<sup>®</sup> Analytics Cloud

### **Delivered benefits**

#### Ability to execute

- Budget created in detail of each project based on cost-drivers for each type of cost.
- Plan and monitor admin, osi and projects cost linked to budget and actuals from ERP PRISM.
- Track each change of budget as separate version, monitor changes created by each person entering budget data.
- Enabled on-line monitoring of current budget spend.

#### Identify improper spending

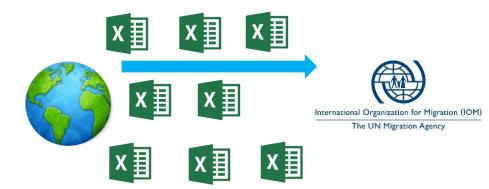

- Identify remaining not-spent based on actuals and predicted cost in comparison with budgeted cost.
- Assure that all cost will be covered by funding sources including voluntary funding.
- Save time spent on manual tasks for budget creation.

#### Quality increase

- Focus on largest sources of volatility (main influencing factors), quickly identify main differences.
- Time saved on data processing can be focused on business data analysis.
- Decrease of error rate caused by manual processing (introduction of automated checks).
- More flexibility allowing scenario and ad hoc what-if analyses.

### From theory to the real use case...before the BEACON

- Off-line master data
- Dozens of XLS versions
- Manual set-up of the budgeting cycle
- Enormous effort spent on budget requests consolidation
- Missing trace of changes and version management

SAP<sup>®</sup> Analytics Cloud

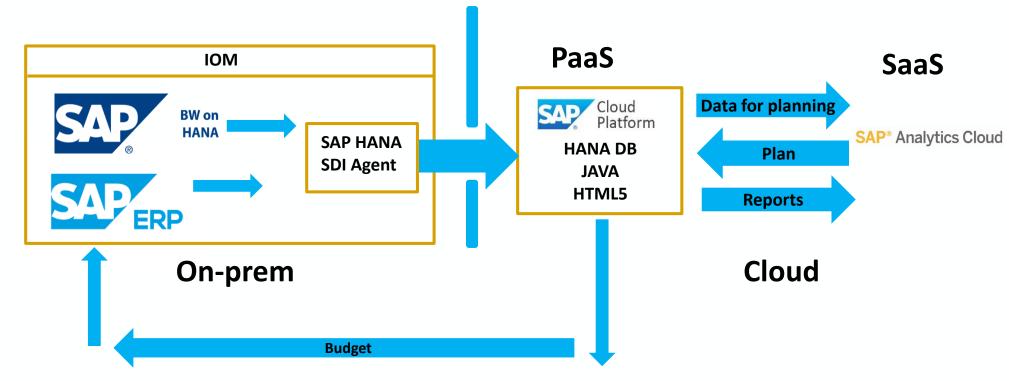

### **Go-live challenges**

- From on-prem to cloud transformation
- Minimization of change for the field
- Fixed DDL
- Internet connection
- Training End users
  - Step by step guidance materials
  - Supported by videos
- Training Admins
  - On site sessions in Manila

### **Data flows**

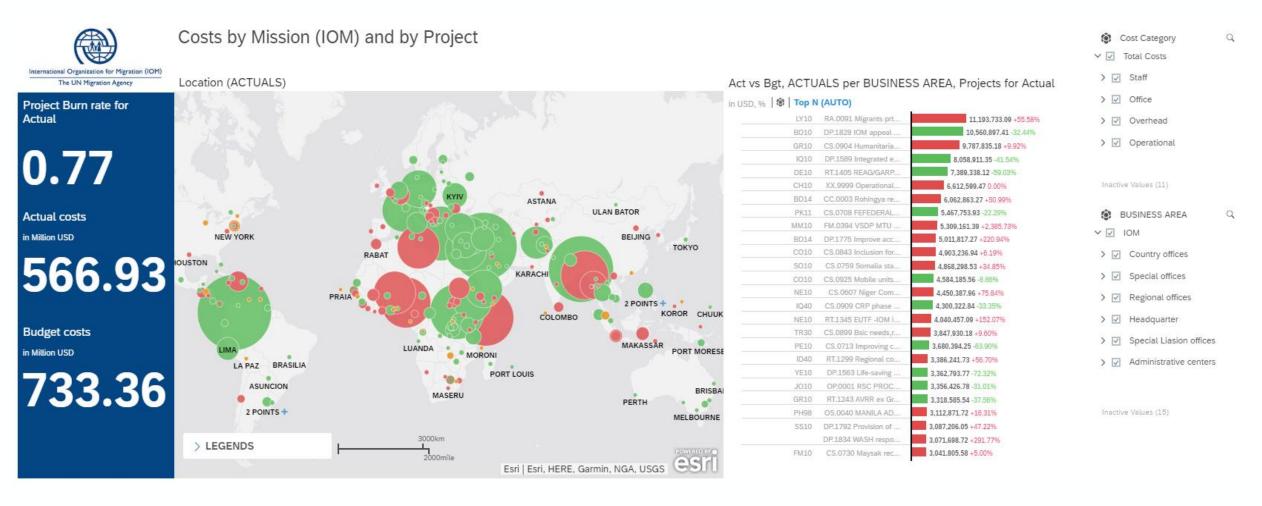

**CISUG** 

#### Security

- User accounts provisioning
- End user have SAC, SCP, HANA account...
- Dynamic user creation
- SAML based SSO supported by IdP (SAP Cloud Identity Provider)

### User experience – live demo

# Take the Session Survey.

We want to hear from you! Be sure to complete the session evaluation on the SAPPHIRE NOW and ASUG Annual Conference mobile app.
