

The Microsoft Journey

Digital Commerce Transformation and Modern Customer Experience with Microsoft Azure
and Billing Solutions with SAP Customer Experience

Matt Forrest (Principal Software Engineering Manager) &
Cassandra Wong (Principal Program Manager)
Nishant Vats (Technical Quality Manager)

Session ID: ASUG83722

About the Speakers

Matt Forrest

- Principal Software Engineering Manager
- Core Services Engineering, Microsoft

Cassandra Wong

- Principal Program Manager
- Core Services Engineering, Microsoft

Nishant Vats

- Technical Quality Manager, SAP

Agenda

- Microsoft – history & background with SAP
- Microsoft Online Commerce
- Business Case for BRIM at Microsoft
- Architecture & Process Monitoring

Key Outcomes/Objectives

1. Understanding of E2E business process
2. Technical architecture leveraging BRIM on Azure
3. Understand how we're leveraging Azure tools to get the best out of BRIM

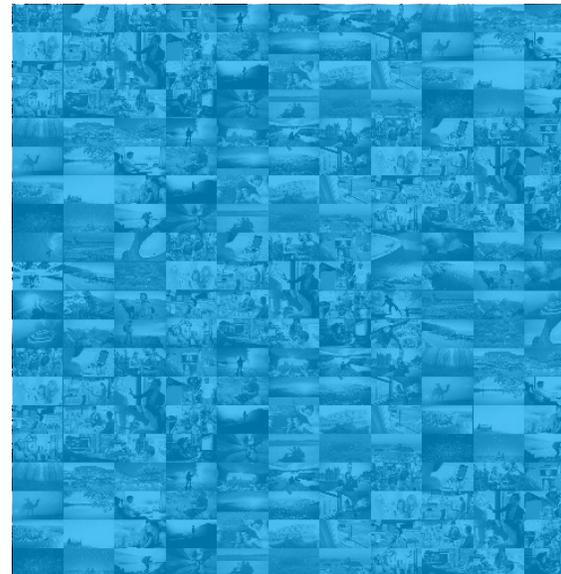

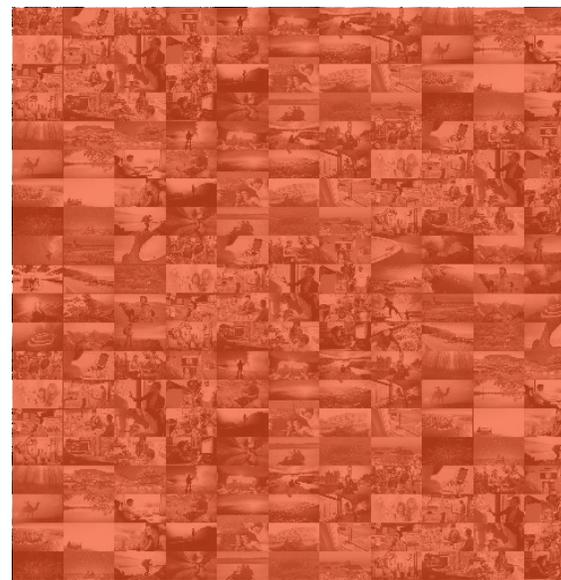

About Microsoft

Mission: Empower every person and every organization on the planet to achieve more

Headcount: 134,944
Microsoft annual revenue: \$110.36B (2018)

Key Events:

1975: Microsoft founded

MICROSOFT ONLINE COMMERCE

Online Commerce @ Microsoft

<2011 – Separate Commerce Systems by Line of Business

2011 – Organizational convergence with separate streams

> 2016 – Platform Convergence for Online Commerce

Increased processing volumes, transaction level detail, & accounting precision

BUSINESS CASE FOR BRIM

SAP BRIM (Billing & Revenue Innovation Management) Business Value

Move A/R control to SAP BRIM

- Detailed end customer transactions (purchase + payment) are sent to SAP and posted against a Contract Account representing Microsoft's agreement with the end customer.
- A/R balances are managed in SAP BRIM

Move A/R clearing to SAP BRIM

- Payment Processor A/R is booked when an end customer payment document is posted in SAP BRIM.
- Payment Processor, sends a Payment Advice to MS accompanying the deposit. SAP BRIM processes the payment advice, reconciling against processor A/R, booking a cash clearing entry to be processed against the cash deposit.

SAP BRIM is the Financial backbone for Microsoft Commerce Modern Platform
