# THE DIGITAL ENTERPRISE

A Manufacturer's SAP Innovation Journey

ASUG Carolinas | October 13, 2023

Bernd Baier
SAP Business Development Manager
CNT Management Consulting Inc

asug

Session Highlights

- An SAP Story about how a Manufacturing Company is running completely on the latest SAP Solutions

- Show an end-to-end business process across multiple SAP Solutions, including:

  1. **Quote-2-Plan** (SAP CX/ Sales Cloud, CPQ, ...)
  2. **Source-2-Order** (SAP MM, Ariba, ..)
  3. **Plan-2-Manufacture** (SAP PP/DS, DMC, ...)
  4. **Incident-2-Service** (SAP CX/ Service Cloud, FSM, ...)
  5. Running a **Sustainable Enterprise**

The Digital Enterprise Showcase is also available as Live Demonstration

Integrated Digital Supply Chain with and around SAP S/4HANA

With the Digital Supply Chain, SAP integrates multiple solutions, including S/4HANA, Ariba, DMC, IBP, EWM, and the three business networks DSN, IAN, and BNL.

With the Digital Enterprise, CNT expanded the Digital Supply Chain to add more SAP components and add Quote-2-Plan for Sales, and Incident-2-Service for Services.

The Digital Enterprise Processes

ECNT Management Consulting

Quote-2-plan ·····················► **Source-2-Order**

Customer Inquiry, Lead Management	Opportunity Configuration, Quote	Customer Sales Order	Demand Planning
Sales Cloud	Sales Cloud · CPQ	SD · MRP	PP/DS

Plan-2-Manufacture

Production Planning	Capacity Planning	Purchase Order, Goods Received	RFP, Vendor Quotes, Procurement
PP	PP/DS	MM	Ariba · DSN

Incident-2-Service

Manufacturing Execution, Packaging	Serialize & Register Product/ Equipment	Equipment Monitoring Incident Management	Equipment Field Service/ Repair
DMC	Service Cloud	IAM · Service Cloud	FSM

Plus: Running a Digital Sustainable Enterprise

ASUG

End-To-End Process Perspective Benefits

E2E Business Processes Perspective

Set of processes allowing companies to **look at the value chain from beginning to end**. The E2E process covers various functional and integrated areas.

Benefits

- **Prioritize Business Values** – Starting with a big picture allows focusing on the processes with the most value for the organization.

- **Eliminate Functional Siloes** – Create a shared purpose to work and facilitate collaboration to enable smoother operation.

- **Big Picture Perspective** – Holistic approach allows understanding of how changes to one function can influence the other.

- **Transparency and Outside Perspective** – Enables stakeholders to think about the business from a customer perspective

- **Clear KPIs for the ERP implementation** – Functional discussions are a breeze with the E2E process in mind.

Record-2-Report	Finance	SAP S/4HANA Finance, Central Finance, etc.
☐ = Covered with CNT Industries   ☐ = Planned for later

Model Company "CNT Industries"

ECNT
Management Consulting

Model Company: CNT Industries

- Manufacturer of solutions for **intra-company logistics**
- Portfolio includes **warehouse robots** and storage bays
- Driven by fully digitalized integrated processes

Runs completely on SAP

Model Customer: Local Brewery

- Startup beer brewery and client of CNT Industries
- Uses new brewing techniques to improve quality
- Requires products agitated/ moved during fermentation

Seeks new warehouse robots to move products continuously and extend high-bay storage

SAP Cloud Integration (BTP)

αSUG
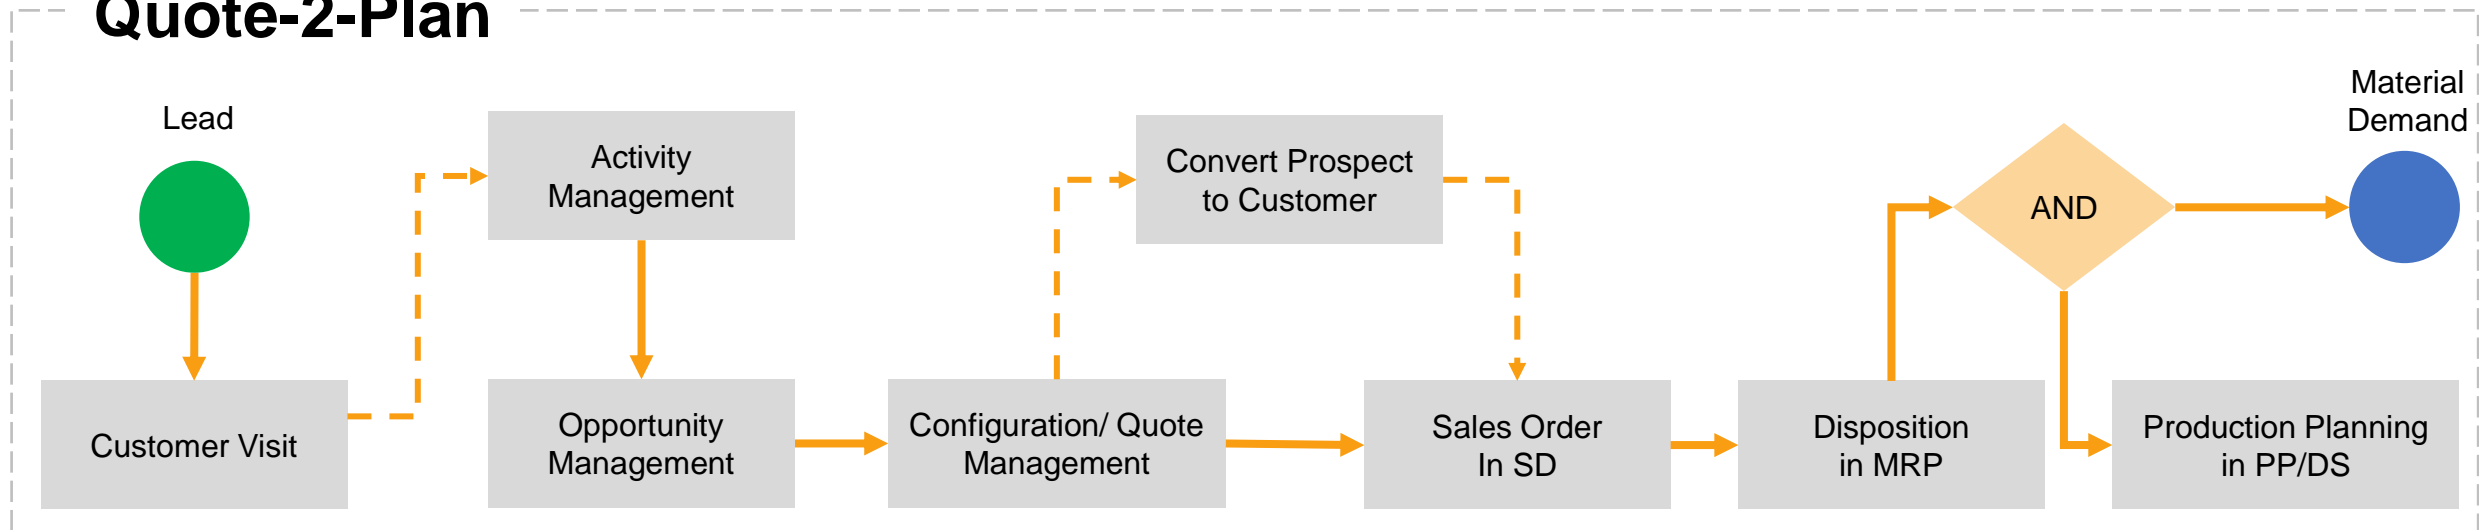

The Sales Story – Components

1 SAP CX – SAP Sales Cloud

- Cloud-based CRM Solution
- End-to-End Customer Experience solution
- Integrated with SAP Service Cloud
- **Integrated into SAP S/4HANA**

2 SAP CPQ – Configure Price Quote

- Cloud-based SAP Configuration Solution
- Formerly Callidus Software
- Falls between Sales and Sales Order
- **Integrated into SAP Sales Cloud and S/4HANA**

3 S/4HANA SD – Sales Distribution

- Core functional module in S/4HANA
- Covers all selling, shipping, and billing

4 S/4HANA MRP – Material Requirement Planning

- Core functional module in S/4HANA
- Plan material supply based on requirements

5 S/HANA PP/DS – Planning/Detailed Scheduling

- Core functional module in S/4HANA
- Functionality previously in APO
- Covers finite production planning

6 SAP Cloud Integration

- Connect cloud and on-premise applications with other SAP and non-SAP cloud and on-premise applications

SAP CPQ – Key Functions

- Configure and create complex customer quotes
- Guided Selling
- Margin Protection
- Integrated with SAP CX and SAP S/4HANA

SAP Sales Cloud

With product data from the S/4HANA backend

The Sustainable Enterprise with SAP – Key Components

≡CNT Management Consulting

1 SAP Sustainability Footprint Management

- Carbon Emission Management Solution
- Carbon Footprint and LifeCycle Assessments
- Track L1/L2/L3 Emissions Values on BOM Level
- Connect to S/4HANA to pull data
- SaaS based solution; available since 2021

2 SAP Green Ledger

- Announced at SAPPHIRE 2023
- Transaction-based carbon accounting
- Parallel Carbon Ledger driven by SAP Finance Team
- GA 2024 for first carbon reports in 2025

3 Ariba Risk Management

- Supplier Sustainability Reporting

4 SAP Sustainability Control Tower

- Central Sustainability Data Warehouse
- Analyze and report sustainability business data
- Business-Unit level data on sustainability goals

aSUG

Agenda

- Introduction

- The Digital Enterprise Story

  - The Sales Story from **Quote to Plan**
  - The Procurement Story from **Source to Order**
  - The Manufacturing Story from **Plan to Manufacture**
  - The Service Story from **Incident to Service Fulfilment**

- **Takeaways, Q&A**

Takeaways

- **Completeness** – SAP systematically expanded to the most complete ever ERP portfolio through improvements and new developments (S/4HANA, SAP CX, EWM, IBP, DMC, etc.) or acquisitions (e.g., Ariba, CPQ, FSM).

- **UX Suite quality** – unified user interface using **modern FIORI UI**.

- **Cloud** – All new solutions are cloud-based, with all benefits of SaaS solutions.

- **End-to-end View** – eliminates silos and enables a value-chain perspective

- **Business Value** – Getting passed ECC to S/4 migration allows for more exciting SAP projects.

- **Choice of SI –** Choose an SAP system integration partner that understands the full SAP spectrum, is focused on quality, and is committed to delivering.

Action Items

- Finalize your SAP S/4HANA Roadmap with RISE considerations

- Use Paradigm Shift with S/4HANA and RISE for an SAP Manufacturing Focused Assessment

- Start with a Sustainability Discovery Assessment sooner rather than later

Questions?

For questions after this session, contact us at
