

A woman in a blue industrial uniform and hard hat is working on a yellow metal structure. She is wearing safety glasses and gloves, and is looking up at the structure. The background is a blurred industrial setting.

# Learn How Suncor Energy Transformed Its Operations with Cloud ERP

ERP126

Tuesday, May 10th, 2022, 01:30 PM – 01:50 PM

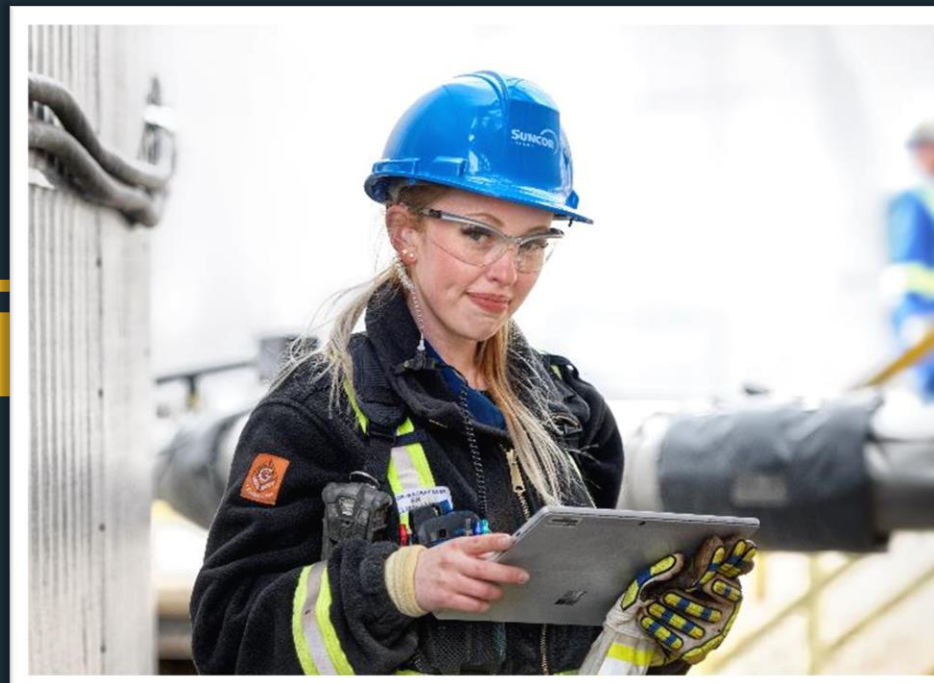

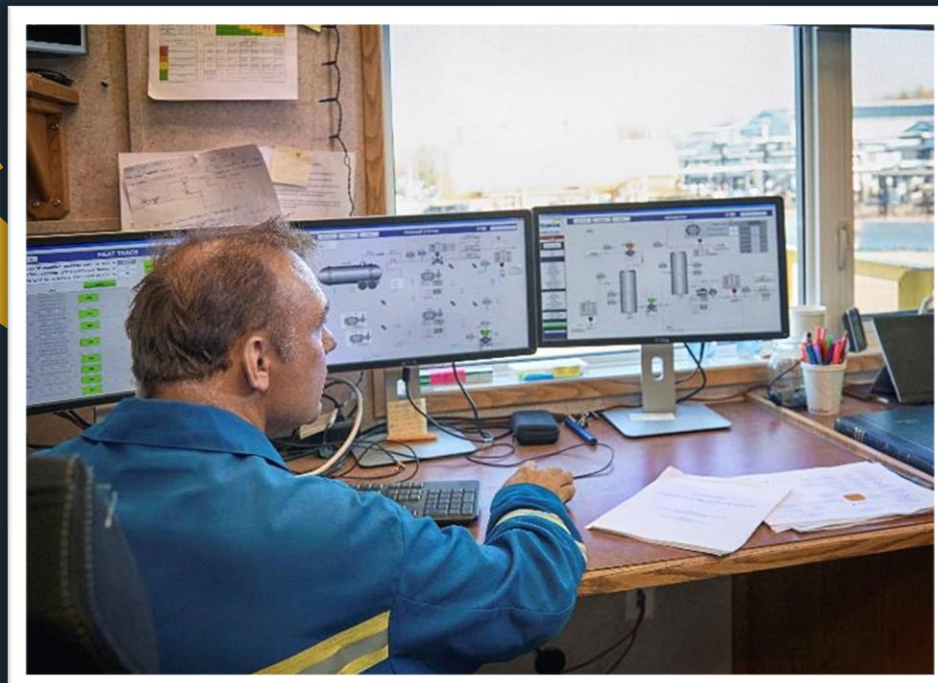

**Angela Butler**

Vice President Process and Data Transformation  
Suncor Energy

# Our journey to Suncor 4.0

Transformational  
priorities  
include ...

- ✓ Creating value from data
- ✓ Securing our future through digital technology
- ✓ Creating an engaging and productive workplace

**SUNCOR 4.0**

# Benefits to be realized

A holistic view to our hydrocarbon inventory

Benchmarking

Drive out costs

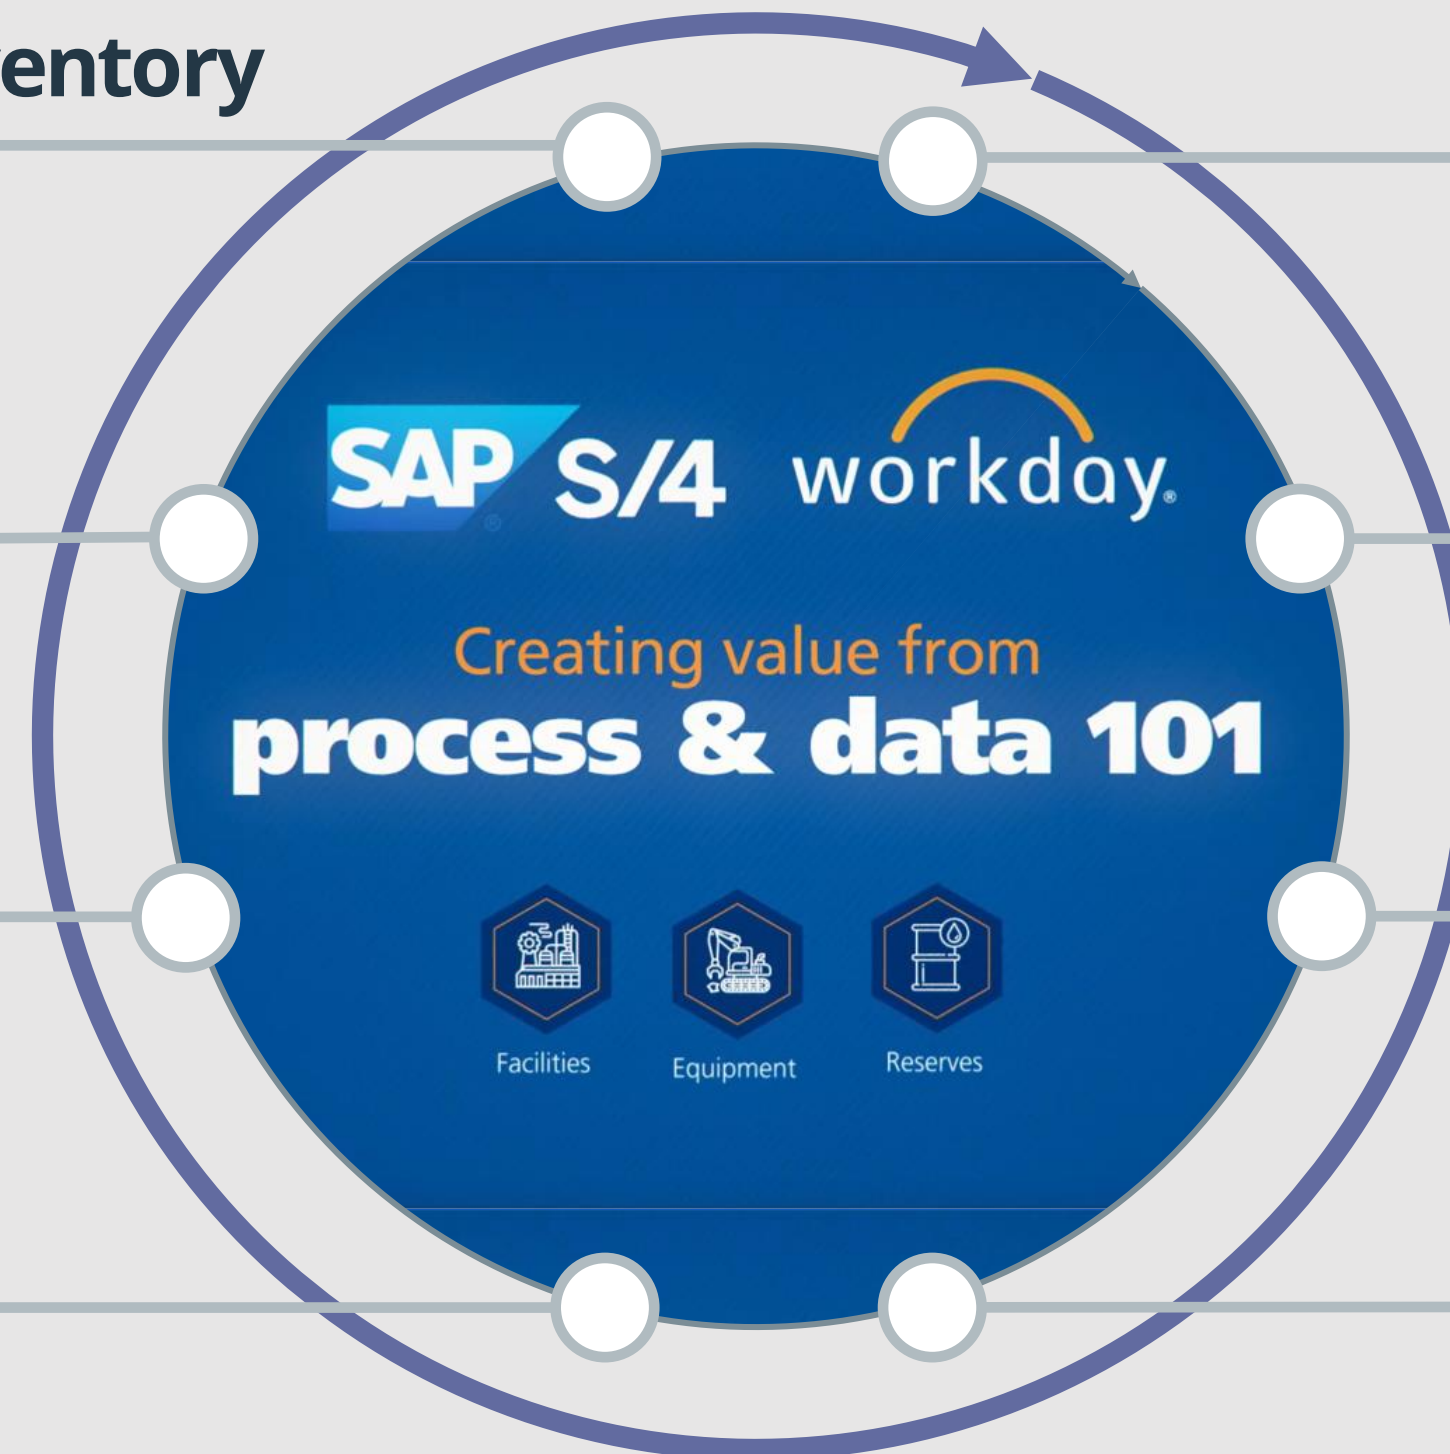

Simplify and automate

Better supplier management

A better employee experience

Improved planning

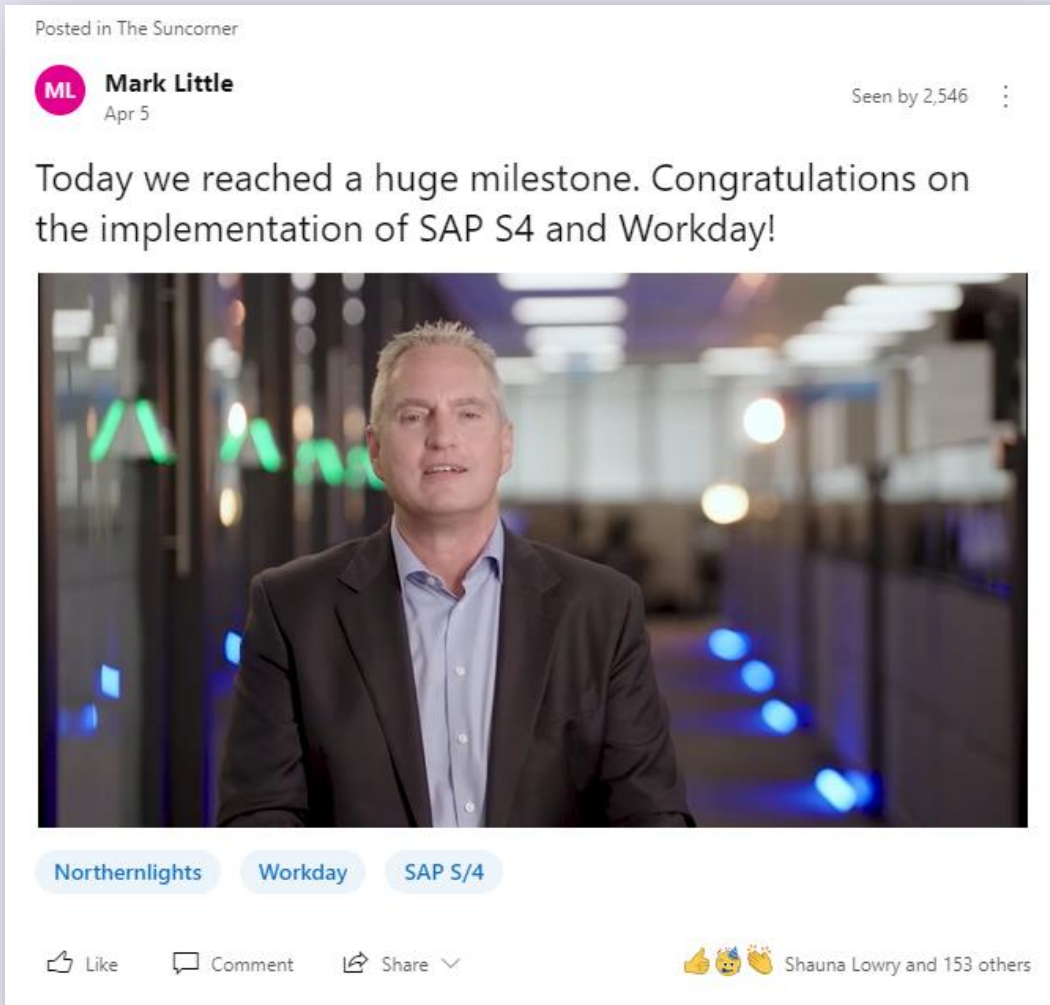

Great data

*And more...*

# What's necessary for success?

Executive support

It's more than technology

"Why can't standard work for us?"

Involve the business, early

Focus on the data

Working hand-in-glove

Plan for sustainment

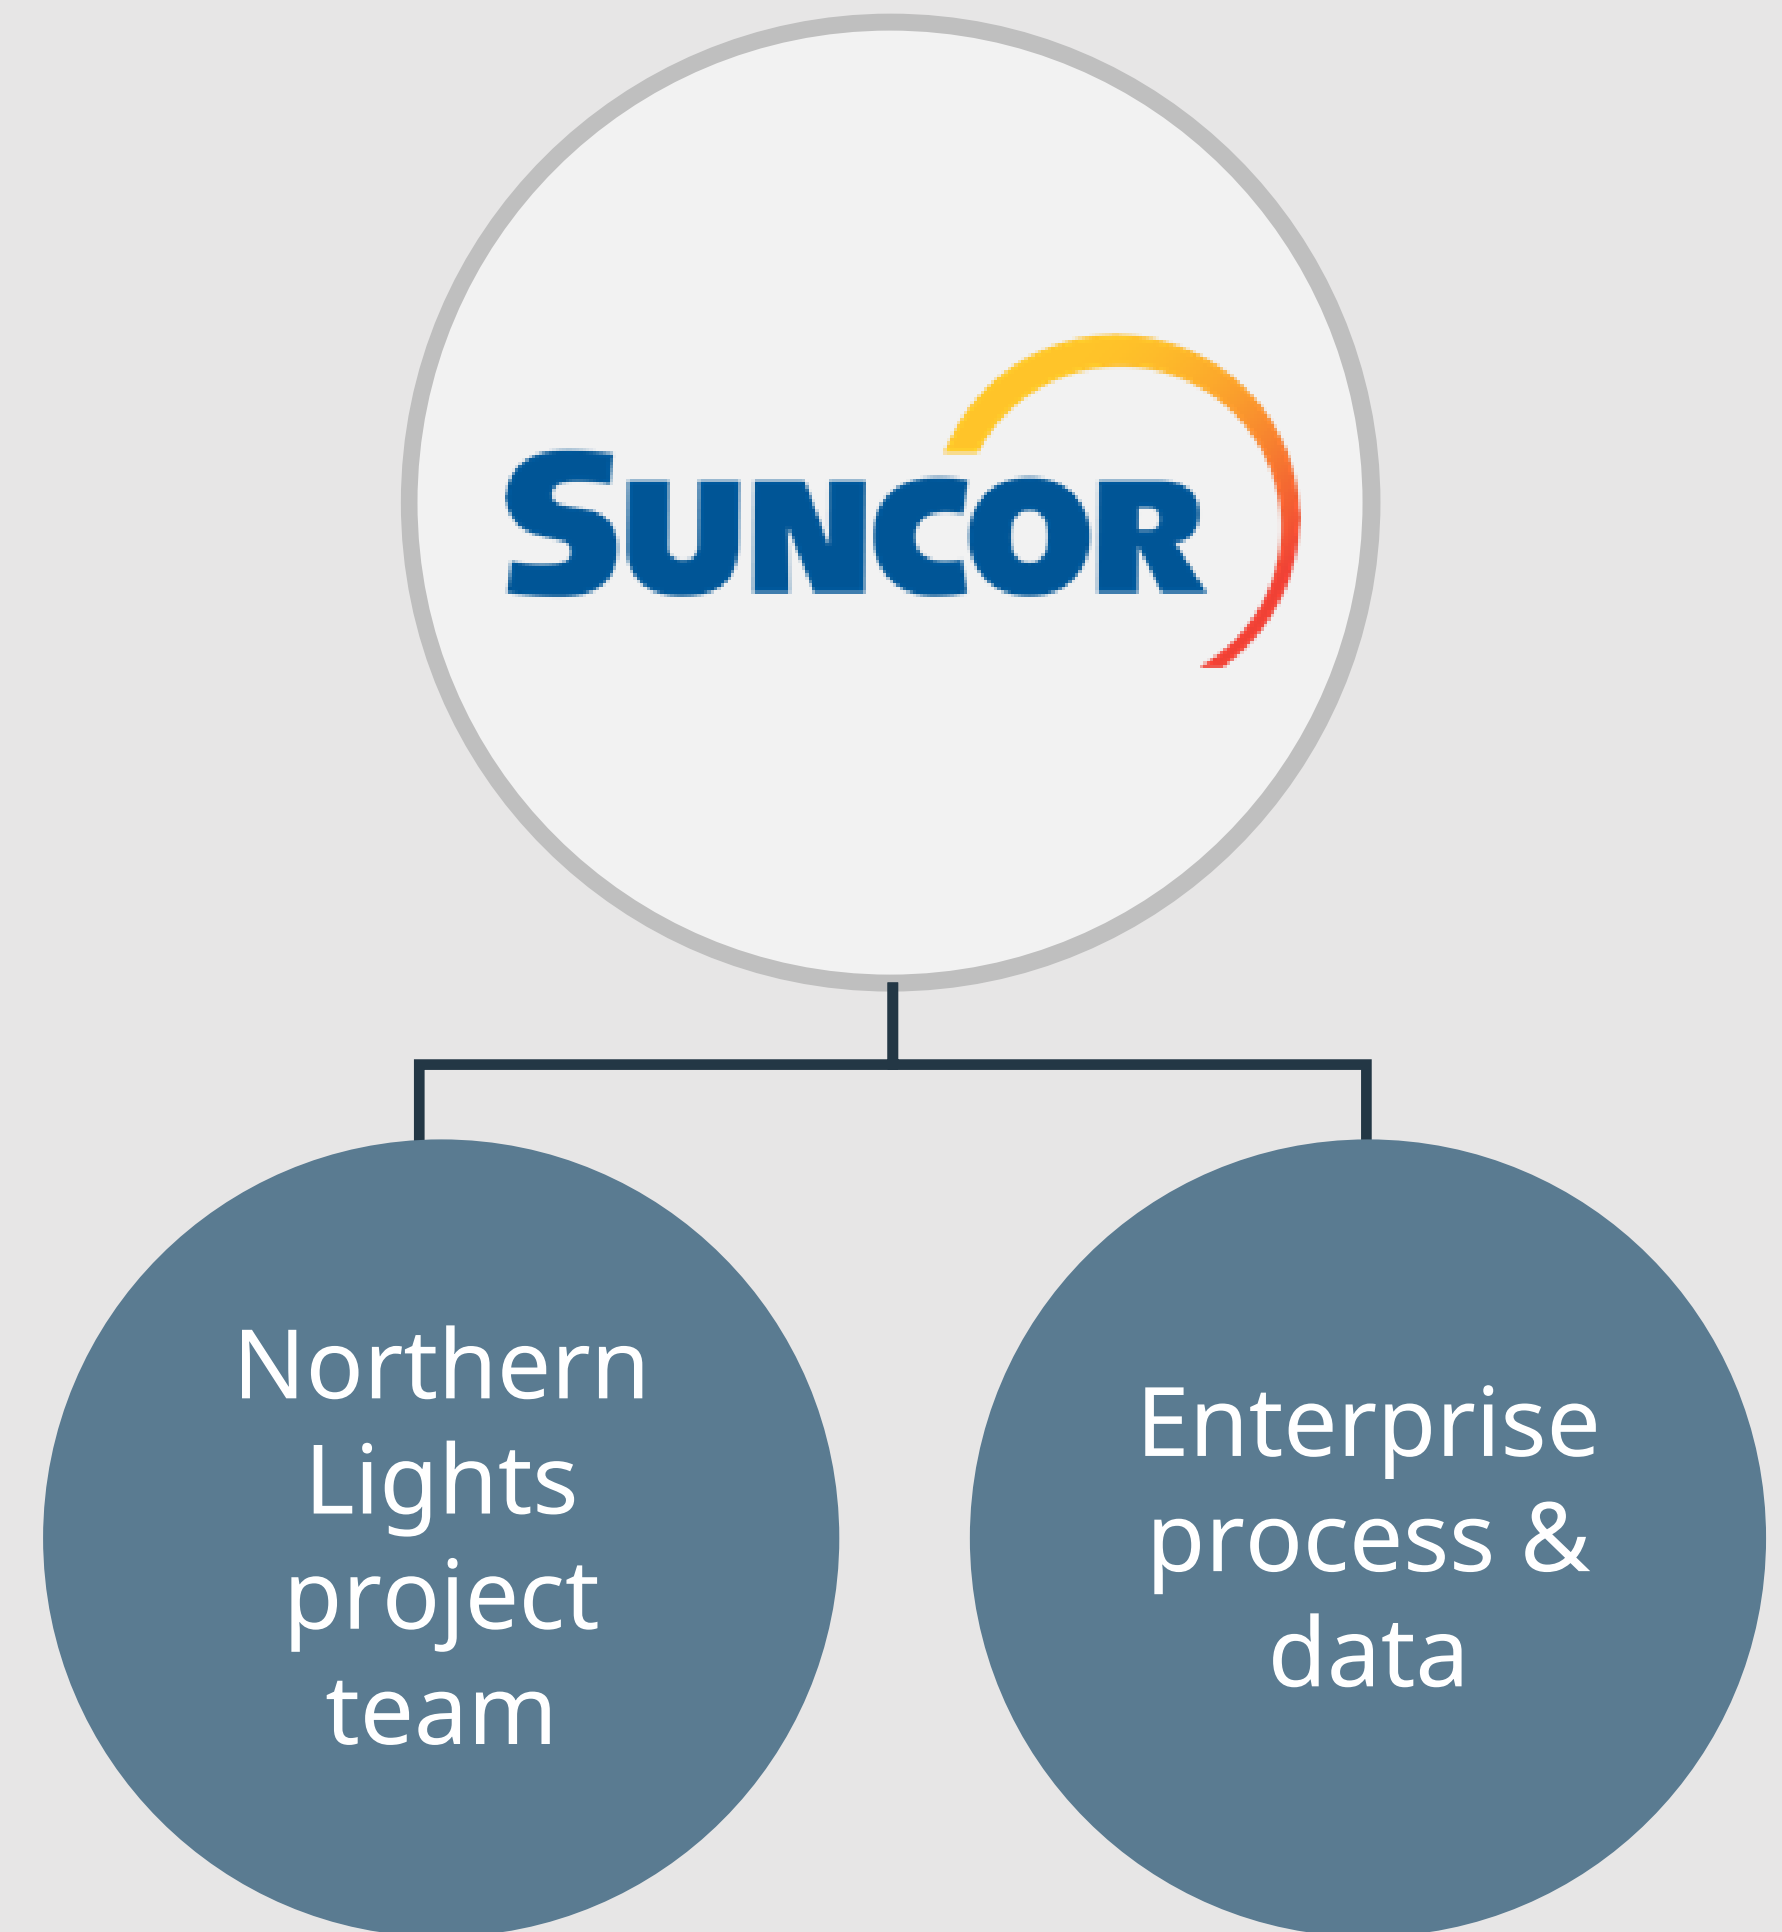

## KEY TEAMS

# The transformation is ongoing

- 🔄 It's not "one and done"
- 💡 Requires good governance
- 🔗 Keep the business involved

Thank you
