# Empowerment

## Gain required knowledge and skills

Through the **SAP Enterprise Support Academy**, we help you **build the digital skills needed to drive continuous success.**

---

- Get empowered by enriched learning and education offerings
- Easily access learning content and services via the SAP Learning Hub platform anytime, anywhere
- Leverage expert content in various delivery formats and levels of detail to build the right digital skills
- Learn how to optimize your software solution to run at peak performance

# Empowerment - SAP Enterprise Support Academy

## Enablement for digital transformation

SAP Enterprise Support Academy empowers you with a wide range of educational content to help you adopt and run your SAP solutions. Gain the skills needed to increase value and business outcomes with self-paced learnings, expert-led live sessions, and guidance.

### High-impact knowledge transfer

Services on integration, deployment, and system operations tailored for you, to improve digital business processes and performance

### Enhanced learning

With expert and social-driven guidance through live and on demand support offerings and a personalized learning plan

### Trusted expertise

From SAP helps to close the skills gap of key users, IT and line-of-business experts to succeed in achieving your business outcomes, while boosting proficiency and fostering continuous innovation

## SAP Enterprise Support Related Services – Embedded Launch Activities

... / SAP Enterprise Support / SAP Enterprise Support Academy

**Embedded Launch Activities** | Solutions | Focus Areas | Additional Resources

### Embedded Launch Activities

**Embedded launch activities** (EmLA) help, enable, and prepare your project team for your cloud deployment. It is a standardized approach which guides you through the initial steps along a successful cloud journey. It provides focused guidance regarding how to best start enablement and learning, allows you to get early insight into the system, and offers touchpoints to track user enablement and solution-specific adoption metrics.

These activities do not include implementation, review, or advisory services related to customer-specific customizations for which you may engage a service partner.

Embedded launch activities (EmLA) are available for selected solutions.

- **Easy** access to latest news and releases
- **Access** to virtual events with leading experts
- **Record** of learning accomplishments

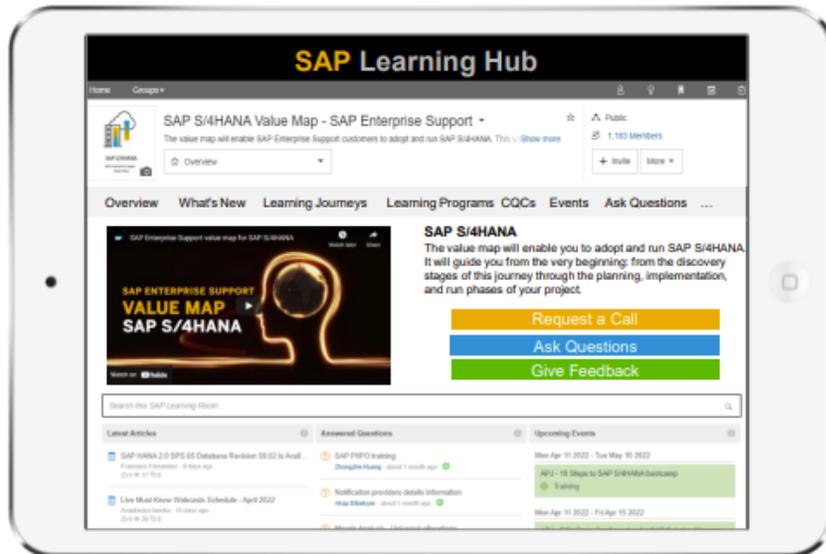

# Collaboration – SAP Enterprise Support Value Maps

Your fast lane to support expertise

## SAP Enterprise Support Value Maps

Explore the value map for SAP S/4HANA

The value map will enable you to adopt and run SAP S/4HANA. It will guide you from the very beginning: from the discovery stages of this journey through the planning, implementation, and run phases of your project.

- Learn how to create your own product map, build your own business case based on your own system data, and plan your own digital transformation journey with SAP tools, products, and services
- Discover the business value of SAP HANA and SAP S/4HANA and learn about new innovations
- Understand how to leverage SAP Activate framework and SAP Best Practices to implement a successful SAP S/4HANA project
- Understand how to perform an SAP S/4HANA migration by New Implementation, System Conversion, or Landscape Transformation
- Have a comprehensive overview of the required prerequisites for the system conversion, the potential risks, and main effort drivers.
- Prepare your SAP S/4HANA implementation by preparing business processes and custom code, and by managing data volume
- Support the migration of your database to SAP HANA
- Learn how to operate and monitor your SAP HANA database
- Learn about SAP Fiori implementation
- Leverage Continuous Quality Check services to ensure a smooth Go-live

# Collaboration – SAP Enterprise Support Value Maps

## Your fast lane to support expertise

### Start with an overview

Are you new to a topic or solution? Here you will find content that helps you gain a general understanding of the topic.

SAP Analytics Cloud - Overview and Strategy

#### Introducing SAP Analytics Cloud

Overview of SAP Analytics Cloud: All Analytics on One Platform

#### Strategy and Documentation

There are links here to the SAP Analytics BI: Statement of Direction, Product Plan, Roadmap, Update Releases, SAP Help Portal Documentation, SAP Community Blogs

[^ Hide content](#)

### Become competent

Are you looking for in-depth knowledge on the topic? In the content in this scenario you will find guidance on what it takes and how it fits your company's need.

Getting Started with SAP Analytics Cloud

#### Expert Guided Implementation

Expert-guided implementation (EGI) is a multi-day virtual classroom. An SAP expert explains the execution of the target activity step-by-step. Participants then execute the demonstrated steps within their own SAP environment

#### Getting Started for Creators and Analyst

This learning journey will introduce you to the different parts of SAP Analytics Cloud, including many demonstrations and useful resources.

#### SAP Analytics Cloud - Business Intelligence

This series of tutorials demonstrates how to work with Business Intelligence capabilities in SAP Analytics Cloud

# Additional Enablement Resources

# SAP Community

Open to ALL

[SAP Community](#) is a free resource that's open to everyone. That means all visitors can search the community for the information they require. But beyond serving as a valuable source of information about SAP offerings and related topics, by joining SAP Community and becoming active in it, you can:

- Build your personal brand by sharing your knowledge with other members
- Establish yourself as a reputable expert capable of educating peers
- Expand your understanding of SAP products and technology
- Grow your professional network by connecting with other members
- Become a trusted advisor who helps influence the development of SAP software

# OpenSAP

Lifelong free online learning

## What is openSAP?

OpenSAP delivers innovative learning for everyone with expert-led content, made for you by SAP. Learning is lifelong, and with our free online learning available globally, you can upskill wherever and whenever you need it.

OpenSAP Massive Open Online Courses (MOOCs) leverage tried and trusted classroom concepts, with digital enhancements including gamification and discussion forums, to interact with other learners and experts in an online delivery format.

With openSAP Microlearning, you can watch self-contained videos to complement your knowledge. Whether you're an expert or just getting started, you can choose the videos that appeal most to your individual learning goals. All videos are prepared and brought to you by SAP experts.

OpenSAP Podcasts provide knowledge from members of the SAP ecosystem, including SAP employees, partners, and customers. Choose topics relevant for your business or personal interests. Stream or download episodes with Apple Podcasts, Spotify, TuneIn, or directly from openSAP.

# Product Support Accreditation

Self-enablement program for customers and partners for Product Support

**Product Support Accreditation** program enables you to make the best out of SAP's product support tools and Real-Time Support offerings

## Overview

- Easy to consume interactive program
- Available to all SAP customers at no additional cost. It can be accessed via S-User login
- It consists of 3 modules and a final assessment
- The modules cover incident prevention offerings, real-time interactions and digital support experience
- Watch the [video](#)

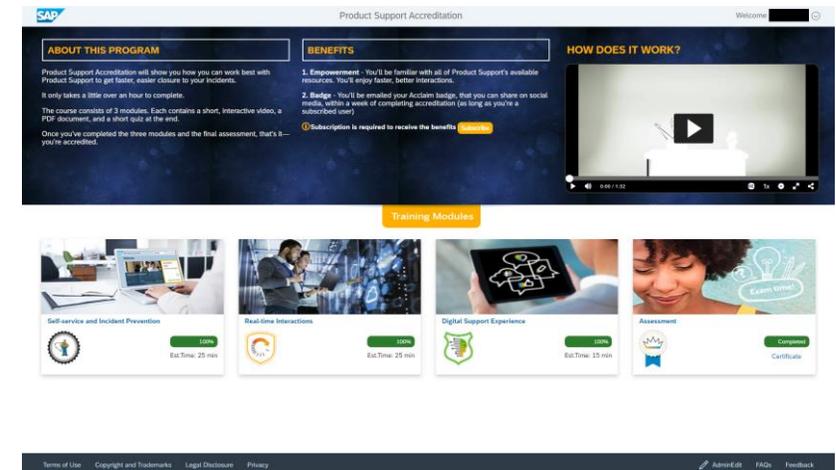

## Benefits

- **Informative:** Gain empowerment and awareness to all the available resources from Product Support.
- **Efficient:** The easy to consume enablement with SAP's Product Support Accreditation program helps users to increase their efficiency in working with Real-Time Support tools by selecting the best channel.
- **Rewarding:** A Product Support Accreditation badge is awarded once the final assessment is completed. This badge can be shared in social media.

## Access

- **Easy to access:** simply use your S-User via SAP ONE Support Launchpad to enroll for program.
- **Easy to consume:** The accreditation modules can be taken at your own pace and time. Easy to consume content will be provided on demand.
- **Interactive:** Learnings can easily be validated in interactive quizzes supporting the user in their progress.
- Click [here](#) to access the accreditation and [here](#) to learn more.

## Preview

# Product Support Accreditation

Self-enablement program for customers and partners for Product Support - Preview

## ABOUT THIS PROGRAM

Product Support Accreditation will show you how you can work best with Product Support to get faster, easier closure to your incidents.

It only takes a little over an hour to complete.

The course consists of 3 modules. Each contains a short, interactive video, a PDF document, and a short quiz at the end.

Once you've completed the three modules and the final assessment, that's it—you're accredited.

## BENEFITS

**1. Empowerment** - You'll be familiar with all of Product Support's available resources. You'll enjoy faster, better interactions.

**2. Badge** - You'll be emailed your Acclaim badge, that you can share on social media, within a week of completing accreditation (as long as you're a subscribed user)

📌 **Subscription is required to receive the benefits** [Subscribe](#)

No part of this publication may be reproduced or transmitted in any form or for any purpose without the express permission of SAP SE or an SAP affiliate company.

The information contained herein may be changed without prior notice. Some software products marketed by SAP SE and its distributors contain proprietary software components of other software vendors. National product specifications may vary.

These materials are provided by SAP SE or an SAP affiliate company for informational purposes only, without representation or warranty of any kind, and SAP or its affiliated companies shall not be liable for errors or omissions with respect to the materials. The only warranties for SAP or SAP affiliate company products and services are those that are set forth in the express warranty statements accompanying such products and services, if any. Nothing herein should be construed as constituting an additional warranty.

In particular, SAP SE or its affiliated companies have no obligation to pursue any course of business outlined in this document or any related presentation, or to develop or release any functionality mentioned therein. This document, or any related presentation, and SAP SE's or its affiliated companies' strategy and possible future developments, products, and/or platforms, directions, and functionality are all subject to change and may be changed by SAP SE or its affiliated companies at any time for any reason without notice. The information in this document is not a commitment, promise, or legal obligation to deliver any material, code, or functionality. All forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. Readers are cautioned not to place undue reliance on these forward-looking statements, and they should not be relied upon in making purchasing decisions.

SAP and other SAP products and services mentioned herein as well as their respective logos are trademarks or registered trademarks of SAP SE (or an SAP affiliate company) in Germany and other countries. All other product and service names mentioned are the trademarks of their respective companies.

See [www.sap.com/trademark](http://www.sap.com/trademark) for additional trademark information and notices.
