

**CAPEX**

## CAPEX - SAP Fiori- ASUG

Leverage SAP Fiori to Optimize your Capital Project Portfolio and Achieve Strategic Objectives

**Optimizing your Capital Portfolio  
to achieve expected outcomes.**

# Delivering Capital Projects is Challenging

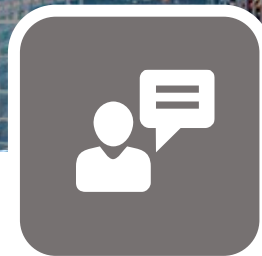

Over Time &  
Over Budget

Project  
Abandoned

Didn't deliver  
promises

Could have  
been done  
better.

Didn't align  
to strategy  
(ESG Net Zero)

Were never  
initiated

# Inflation impacts Costs & Returns

An aerial photograph of a busy port. In the foreground, a long pier extends into the water, with several large cargo ships docked. A breakwater curves around the pier, and waves are crashing against it. In the background, a long line of cargo ships is visible in the open sea, waiting to be loaded or unloaded. The sky is clear and blue.

Supply chain bottlenecks  
are delaying projects

Energy Costs are impacting  
key technology decisions

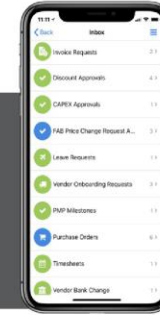

# Labour shortages are impacting projects

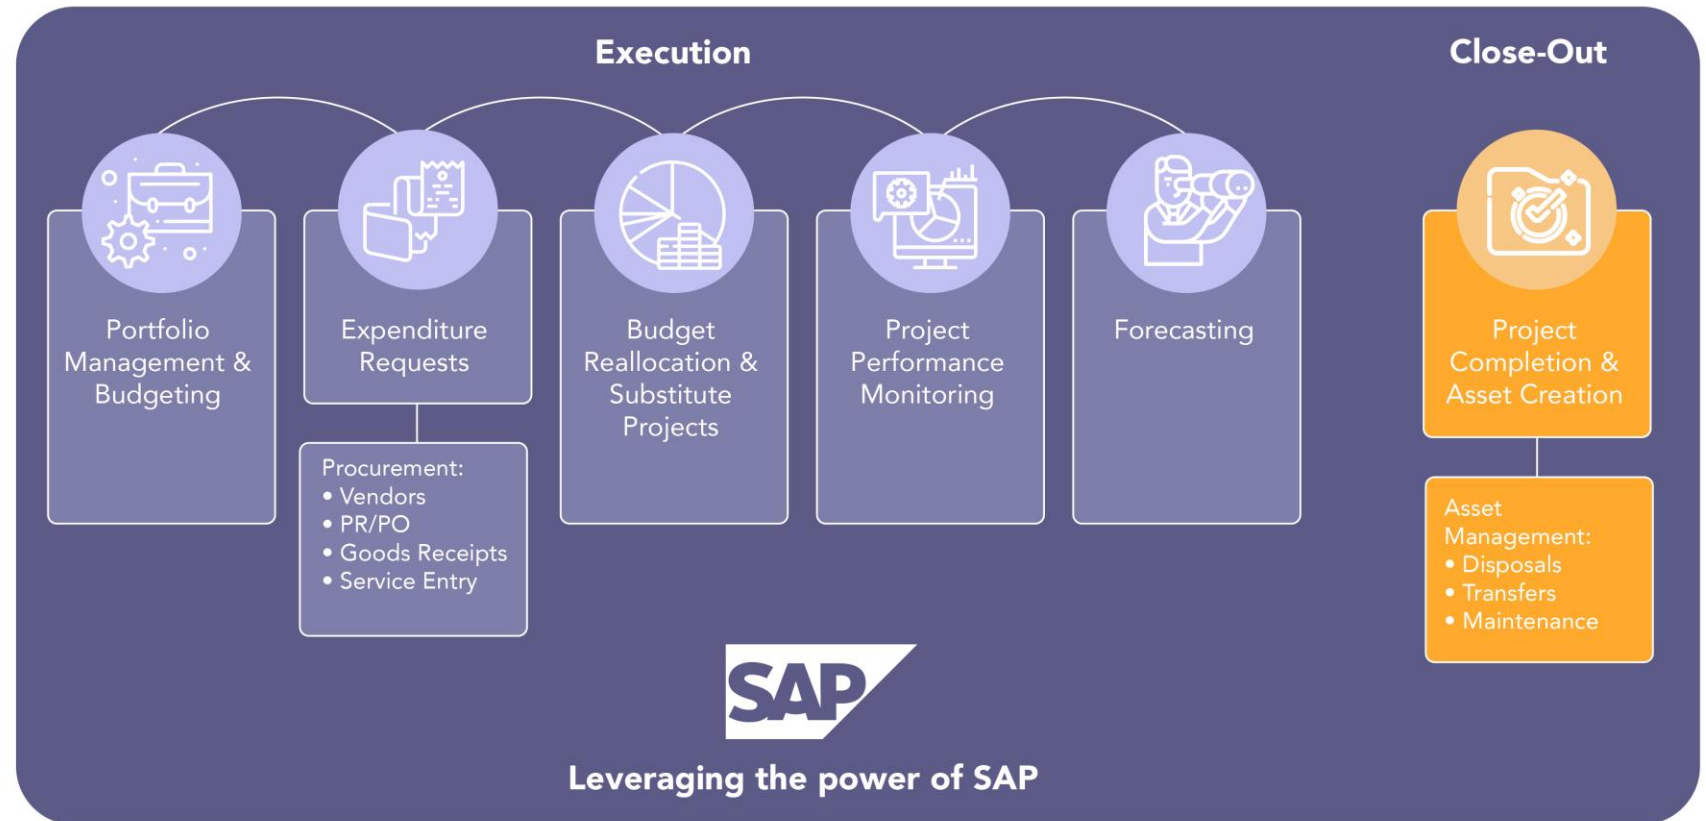

# Seamless Idea-to-Asset Process Management

## Mobile Executive Decision Making

Solution Name: OneList

Prioritizing

CAPEX

# Benefits of SAP Fiori Solution

Leverage existing SAP  
Investment /  
Architecture

Single source of data  
from Idea to Asset

Uses existing SAP  
security authorizations

Validates data directly  
against SAP

Automates the creation  
of SAP Objects

Flexible workflow  
configuration for all  
scenarios

The image features a grayscale background of a city skyline, likely San Francisco, with several prominent skyscrapers. Overlaid on this are the dark silhouettes of five individuals in a professional setting. On the left, two people are shown in profile, facing each other. In the center, a man is seen from the chest up, looking towards the right. To his right, another man is shown in profile, looking towards the center. On the far right, a woman is shown in profile, looking towards the center. The overall composition suggests a collaborative business meeting or a Q&A session.
