Oil Sands

Refining

Pipelines and Terminals

Power

Chemical

Mining and Metals

Water and Wastewater

Pulp and Paper

Serving all Process Industries across Western Canada

# Integrated Solutions and Services

Operations Management

Process Control

Field Devices

Packaging

# Problem Statement

## Challenge

- 150 Field techs working on paper
- Scheduling using Outlook
- Often working in remote areas with no connectivity
- Delays in invoicing
- Non-productive time entering data after the event

## Solution

- FSM integrated into S/4 CS module
- Liked to Equipment Records
- Scheduling based on required skills & availability
- Mobile app with offline capability
- Inventory from truck available to be consumed
- Final report created and signed-off prior to leaving site

## Value

- Offline capability
- Mobile sign-off
- Increased efficiency - 10%
- Higher quality data recorded
- Integration into CS module
