Our purpose is to turn houses into homes

Versuni

# Exuviate

Since the cuticle of the lobster typically forms a largely inelastic exoskeleton, it is shed during growth and a new, better fitting covering is formed
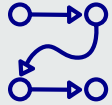

**SPEED** - Carve-out in 1.5 years

**AMBITION** - Digitally mature and insights-led

**STANDARDIZATION**
**SIMPLIFICATION** — Fit-for-purpose landscape

A once in a lifetime transformation!
