COMPANY HISTORY

- Radiant Global Logistics was launched in October of 2005 to build a global transportation and supply chain management company through organic growth and the strategic acquisition of best-of-breed, non-asset based transportation and logistics providers.
- Radiant's network brands and associated strategic operating partners have storied legacies embodying decades of experience and service in the transportation and logistics industry.
- Radiant leverages our status as a public company to provide network participants with a framework to share in the value that they help create.

RADIANT GLOBAL LOGISTICS

What makes A/P at Radiant special

Radiant's A/P team is a shared service center for all Radiant companies with 40 full-time employees and is responsible for over 2,500,000 invoices per year.

Typical of the logistics industry, our incoming invoices are highly complex and always tied to a chain of many pieces of information. Our employees need to understand complex relationships and should not spend time with data entry.

RADIANT. GLOBAL LOGISTICS

Why Automation is important

Automation is important for Radiant to be able to continue to innovate in the highly competitive logistics market. With the goal of growth, Radiant must be able to grow flexibly without being dependent on hiring new staff. Lean processes and intelligent software are essential for this.

RADIANT. GLOBAL LOGISTICS

Vendor Selection Process

The first choice was another vendor close to SAP®. After the blueprinting phase, we realized that we needed a different partner and a different tool!

We needed a partner willing to become a logistics A/P expert to understand our challenge and a tool flexible enough to forget the standard SAP® FI billing concept

RADIANT. GLOBAL LOGISTICS

From Inbound to Storage

Image Capture	Data Capture	Validation	Business Process Workflow	Archive
Scan	Conversion	Validation	Structure	Retrieval
Office	Data Capture	Correction	Approval	Storing
Mail	Analyze	Training	Release	Digital Record
XML	Check	Parking	Reports	Compliance

RADIANT. GLOBAL LOGISTICS

Project Summary

1. Since we implemented A/P automation, we have been faster and more accurate in data entry. Instead of using more people, we are now scaling via the technology.
2. Our processes are definitely better in terms of transparency and security. We always know where our invoices are and have everything digitally available.

Radiant is truly digital in A/P now

SAP® Certified

Certificate
SAP INTEGRATION CERTIFICATION

SAP SE hereby confirms that the ABAP interface software
for the product

xSuite 5.2

of the company

WMD Group GmbH

has been certified for integration with SAP NetWeaver 7.40 via the
SAP integration scenario *ABAP Add-On Deployment for SAP Enterprise Resource Planning*.

This certificate confirms the technical and syntactical consistency of the Add-On in accordance with SAP certification procedures.
SAP only certifies successful integration of the product with SAP solutions. Vendor is responsible for the product itself and its error-free operation.

The certification test is documented in report no. 11110
and expires May 4, 2021.
- Vendor Hardware: PC x86-64
- Vendor Operating System: Windows Server 2012
- SAP Test System: SAP NetWeaver 7.40
- Used Integration Tools: SAP Connector 3.0 for Microsoft .NET

This configuration meets the requirements for deploying xSuite 5.2 on the SAP NetWeaver platform.

Certified Functions:
- Assign Software Component with a registered Namespace
- Package Add-On using SAP Add-On Assembly Kit (AAK)
- Deploy using SAP Add-On Installation Tool (SAINT)
- Integration with SAP Enterprise Resource Planning
- Technical Uninstallation Test
- SAP Solution Manager Ready functionality
