

SAP Experts For Digitalization

Since 1994.

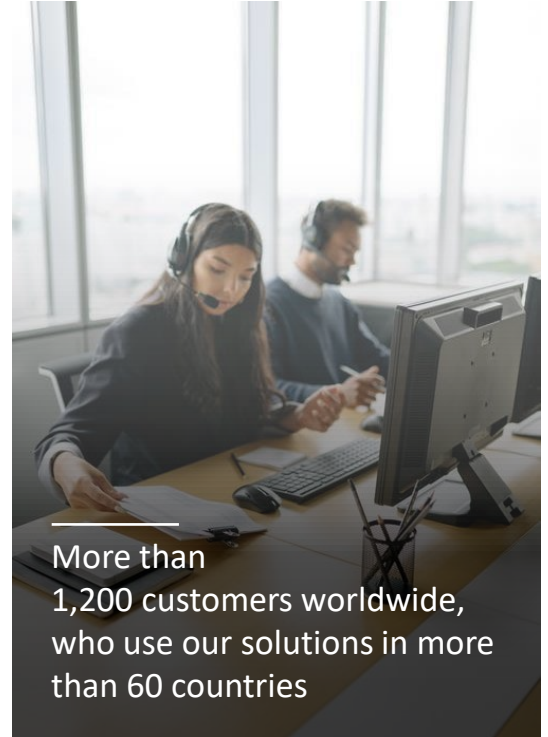

About xSuite

Worldwide 230
employees

8 locations worldwide in
Germany, the U.S., Denmark,
the Netherlands, Slovakia,
Spain, and Singapore

More than
1,200 customers worldwide,
who use our solutions in more
than 60 countries

Certificate

SAP INTEGRATION CERTIFICATION

SAP SE hereby confirms that the ABAP interface software for the product

xSuite 5.2

of the company

WMD Group GmbH

has been certified for integration with SAP NetWeaver 7.40 via the SAP integration scenario *ABAP Add-On Deployment for SAP Enterprise Resource Planning*.

This certificate confirms the technical and syntactical consistency of the Add-On in accordance with SAP certification procedures. SAP only certifies successful integration of the product with SAP solutions. Vendor is responsible for the product itself and its error-free operation.

The certification test is documented in report no. 11110 and expires May 4, 2021.

Vendor Hardware: PC x86-64
 Vendor Operating System: Windows Server 2012
 SAP Test System: SAP NetWeaver 7.40
 Used Integration Tools: SAP Connector 3.0 for Microsoft .NET

This configuration meets the requirements for deploying xSuite 5.2 on the SAP NetWeaver platform.

Certified Functions:

- Assign Software Component with a registered Namespace
- Package Add-On using SAP Add-On Assembly Kit (AAK)
- Deploy using SAP Add-On Installation Tool (SAINT)
- Integration with SAP Enterprise Resource Planning
- Technical Uninstallation Test
- SAP Solution Manager Ready functionality

SAP certified

Certified for SAP ERP 6.0

Certified for SAP S/4HANA

Dole Packaged Foods

- xSuite Cube SAP for invoice processing
- xSuite Cube SAP for customer orders processing
- xSuite Prism Archive for SAP based archiving
- Legacy Data Migration for Archiving
- Global roll-out
- Reduced Net Invoice Processing Time from 23 minutes per invoice down to 7 minutes.

Radiant Global Logistics

- xSuite Invoice Cube for 2.5 Million Invoices
(1 Million EDIs)
- OCR document reading with xSuite Capture
- xSuite Archive for SAP
- 40% more Invoices processed without hiring more AP staff

It's the Network that Delivers®

Dormakaba

- xSuite Invoice for global A/P Automation
- 27 SAP systems world-wide within the Dormakaba-Group
- xSuite Archive for 50 million documents stored in 60 SAP archives.
TCO of the archive reduced by 41.9%
- xFlow Folders for SAP SuccessFactors® (HR File)

xSuite Users

Artificial Intelligence (AI), is a field of computer science that deals with automation of intelligent behaviour and machine learning.

Categories of Artificial Intelligence

Weak AI

- Weak (or narrow) AI is artificial intelligence that implements only a limited part of mind or is focused on one narrow task, on solving a certain, concrete problem.
- All systems available today, belong to this category:
 - Character or text recognition
 - Speech recognition
 - Image recognition

Categories of Artificial Intelligence

Strong AI

- Strong (or general) AI refers to machine intelligence that has capabilities similar to, or even exceeding, those of humans.
- It possesses, among other things, logical reasoning, decision-making ability even in the face of uncertainty, and communication in natural language.
- As of today, strong AI is still science fiction.

Artificial Intelligence

Artificial Intelligence (AI)...
... enables a system or computer to perform tasks that require human intelligence.

Machine Learning (ML)...
... is a subfield within AI. Machine learning enables software applications to recognize patterns and regularities based on existing data sets and algorithms and to predict results more accurately.

Deep Learning...
... is a specialization of machine learning and uses neural networks and big data to optimize itself.

Machine Learning as a General Solution?

Yes,

if the problem is too complex to be programmed

if it involves a large data base.

No,

if the goal can be solved with simple rules

if the data base is too small

if perfect data is needed and the origin must be traceable.
