- Need for SAC Planning
- Life Before SAC
- From Idea to Implementation
- The Solution
- Planning for Future Success and Growth
- Key Takeaways
- Key Wins

## Need for SAC Planning

Financial planning and analysis (FP&A), specifically **workforce planning**, is one of the most powerful processes for Professional Services companies to effectively manage and execute **strategic steps** to drive significant **business results** in an increasingly competitive market.

## Life Before SAC

- More than 15 people forecasting in separate Spreadsheets
- 5 users working solely to consolidate data
- Difficulties to create analysis and visualization scenarios
- No real-time integration or connectivity with the ERP

## Action Plan

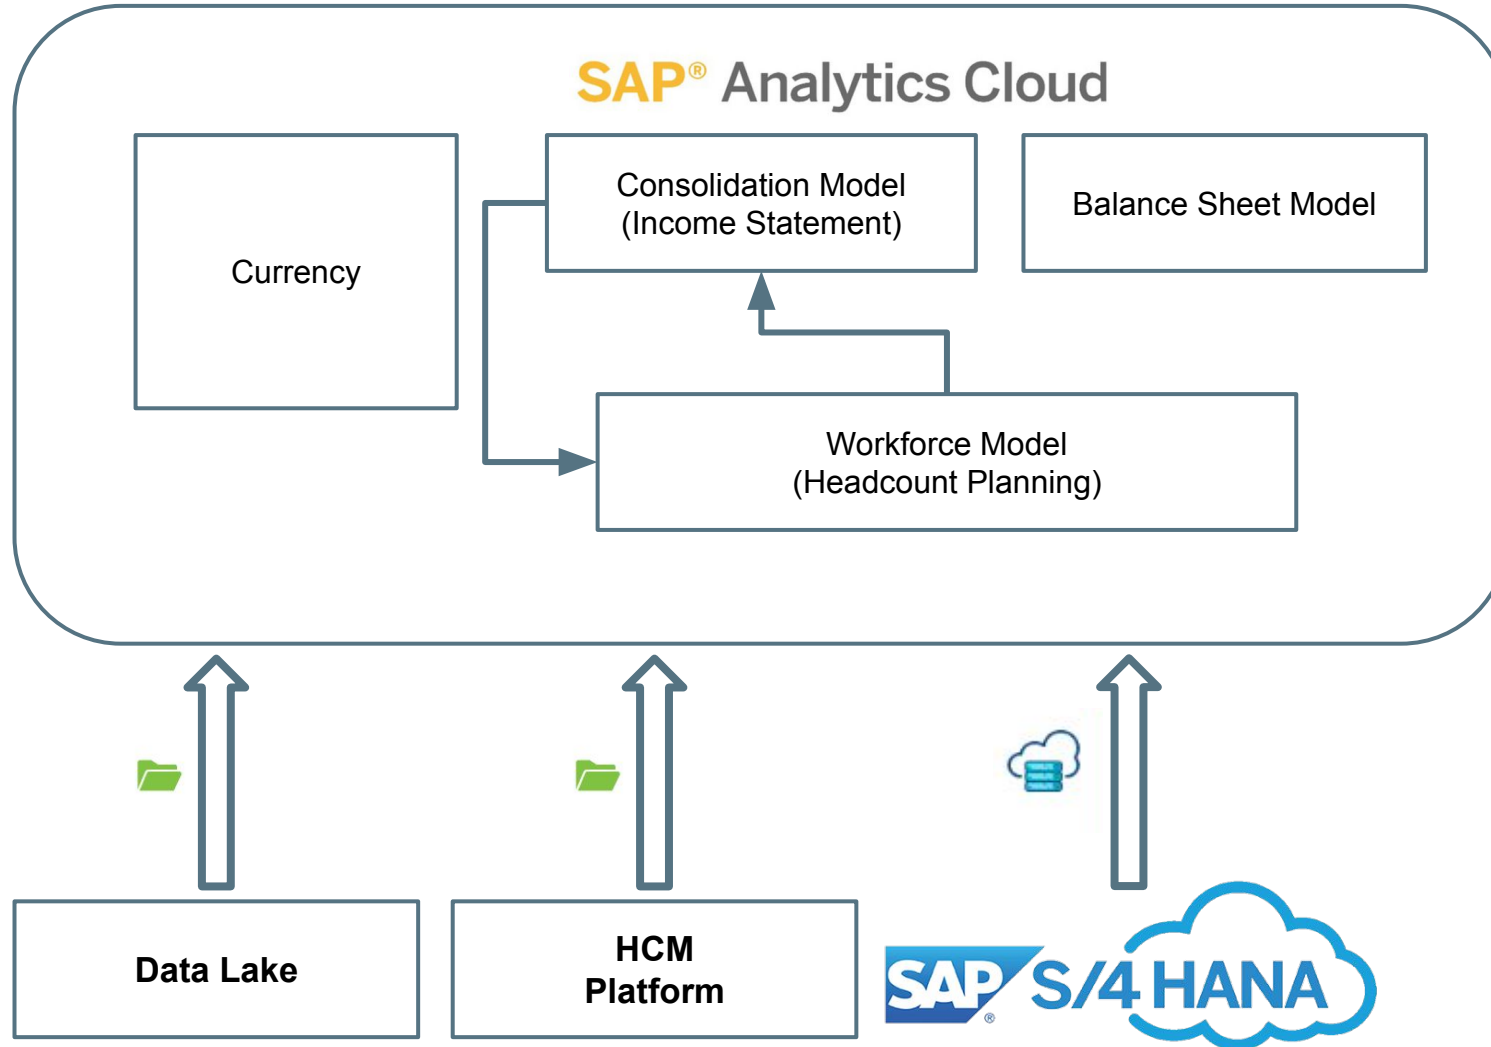

- Found a great partner team – SAP & NIMBL
- Performed an in depth analysis in Phase 1 to discover the improvement opportunities
- “Sustainable” design approach

# From Idea to Implementation

- **The Workforce Planning Solution** was designed
- Real-time SAP S/4HANA Cloud ERP Integration
- Customized workforce planning models and dashboards
- Data management leveraging SAP Best Practices
- KPIs Enablement

# Solution Architecture

## The Solution

- Decentralized inputs with centralized data
- Flexible forecasting with integrated actuals from S/4HANA
- ***Real-time analytics***

## Planning for Future Success and Growth

- Decreased Forecasting Time
- Efficient FP&A Process
- Scalable Design to adopt future requirements

## Key Takeaways

- Understanding how SAP BTP can seamlessly integrate with other data platforms
- Iterative development is key
- This use case applies **beyond professional services**
- An Intelligent Planning Solution can be realized in as little as **4 months**
- Unbounded potential for integrations between SAP BTP and other platforms

## Key Wins

- **Financial forecasting and workforce planning timeline**  
Decreased from 7 to 4 days a month
- **Headcount Updates**  
Takes five minutes instead of more than one hour
- **User Adoption**  
SAC's Excel add-on allow users to build reports easily in (fewer sheets using) Excel
- **SAP S/4HANA Integration**  
Enable real-time actual data to be analyzed into SAC

**Thank you!**
