

Your BTP Mission, Should You Choose to Accept It – SAP Discovery Center approach

Kristen Scheffler, SAP

Public

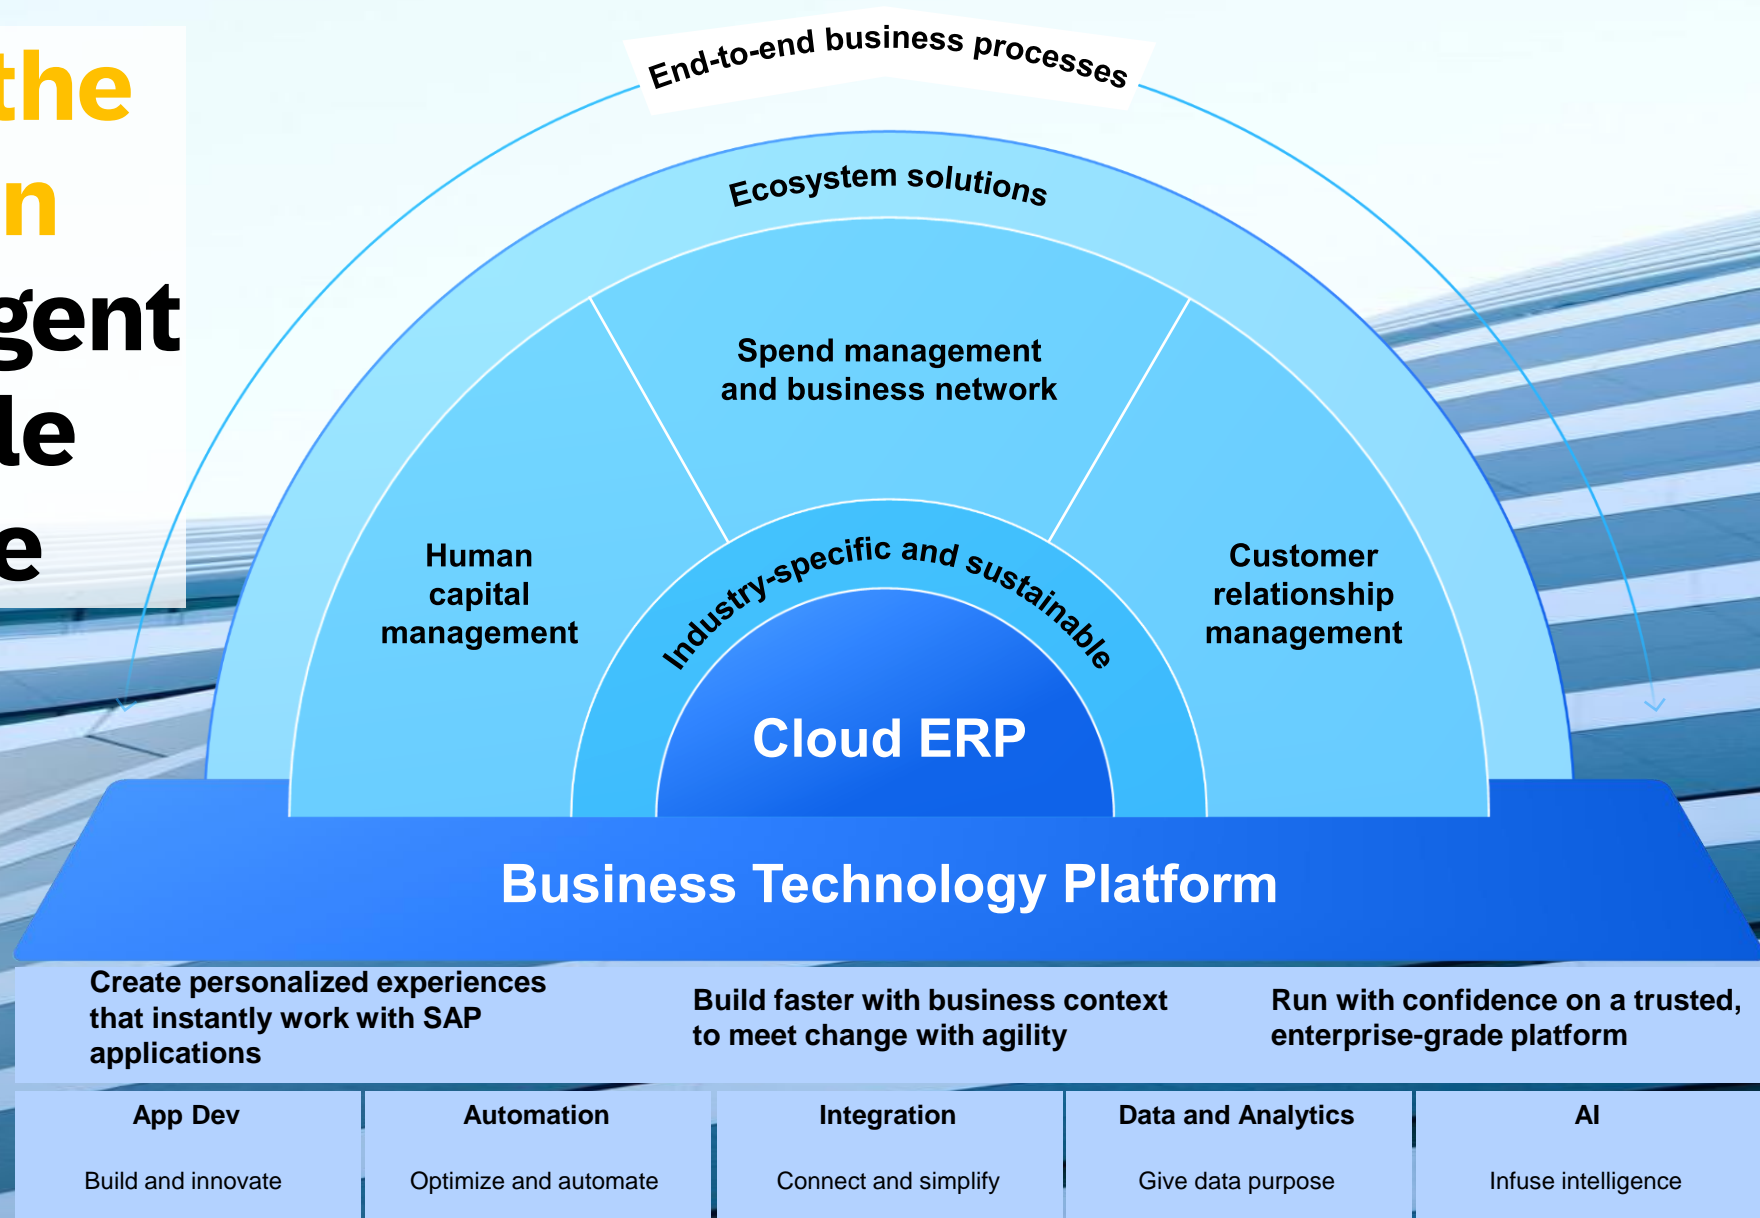

What Is **SAP Business Technology Platform**?

The platform that brings together application development, automation, data management, analytics and planning, integration, and AI capabilities into one unified environment optimized for SAP applications

SAP BTP is the foundation of the Intelligent Sustainable Enterprise

How Can I Learn More About SAP BTP?

The background of the image is a photograph of a modern building's facade. The building features a series of horizontal, curved bands in shades of blue and white, creating a dynamic, architectural pattern. The sky above is a clear, light blue.

Process Discovery for SAP S/4HANA Transformation (evolution of SAP BSR on Spotlight)

Receive tailored insights to build your case for SAP S/4HANA with Process Discovery (the evolution of SAP Business Scenario Recommendations on Spotlight)

Fiori Apps Library

SAP Fiori Apps Reference Library
SAP Fiori Apps Reference Library Tutorial

Define your transition path to SAP S/4HANA Cloud, private edition

Understand the Transition Paths to SAP S/4HANA

Understand the transition paths to SAP S/4HANA with a practical guide for senior IT leadership, to help you to define your roadmap to SAP S/4HANA.

Three key questions customers face considering SAP S/4HANA

Join this session, which covers three typical questions that SAP ECC customers face for the SAP S/4HANA business case.

SAP S/4HANA Discovery – Greenfield vs. Conversion

Get an overview introduction of different SAP S/4HANA transitions options of greenfield, brownfield, and conversion. Get to learn why and how customers decide on the migration approach.

Understand System Conversion to SAP S/4HANA Cloud, private edition

With these learning programs you will get to know how to plan and execute system conversion to SAP S/4HANA Cloud, private edition. You will learn how to prepare for conversion to SAP S/4HANA Finance and how to set-up customer vendor integration for conversion to SAP S/4HANA Cloud, private edition.

Understand SAP Readiness Check for SAP S/4HANA

SAP Readiness Check for SAP S/4HANA provides an overview of the most important aspects for an SAP ERP 6.0 system conversion to SAP S/4HANA Cloud, private edition or SAP S/4HANA. This learning program helps you learn what is SAP Readiness Check for SAP S/4HANA, how to execute the tool and how to read the result.

Step 1
Request access to SAP Learning Hub, edition for SAP Enterprise Support. Watch [the video](#) and refer to our [tutorial](#) to learn how to sign up and use the hub. If you are already registered you should use 'Access Value Maps' button.

[Sign Up](#)

Step 2

The screenshot shows the 'Missions' page in the SAP Discovery Center. At the top, there is a navigation bar with 'Home' and 'Missions'. Below the header, a search bar and 'Show Filters' link are visible. The main content area is titled 'Showing 15 Missions' and is sorted by 'Relevance'. A left-hand navigation menu lists various categories such as 'Platform Missions', 'Partner Missions', and 'SAP Enterprise Support'. The main area displays a grid of mission cards. Each card includes a title, a brief description, and the number of companies that have started the mission. For example, one card is titled 'Model an Approval Process for Capital Expenditures' and indicates that 33 companies have started.

The screenshot shows the 'Services' page in the SAP Discovery Center. It features a navigation bar with 'Home' and 'Services'. Below the header, there is a search bar and 'Show Filters' link. The main content area is titled 'Showing 17 services' and is sorted by 'A - Z'. A left-hand navigation menu lists categories like 'By Suite' and 'By Capability'. The main area displays a grid of service cards. Each card includes a title, a brief description, and a 'BUSINESS SERVICE' tag. For example, one card is titled 'Automation Pilot' and describes simplifying operational effort behind any cloud solution in the SAP BTP.
