Why Premier Foods choose Pyramid Analytics

The Pyramid Decision Intelligence Platform is much faster and has broader capabilities than SAC or Tableau on both SAP BW and AWS Redshift." – Neil Hitchcock, SAP BI/BO Solution Architect, Premier Foods

PREMIER FOODS

Premier Foods is one of Britain's biggest manufacturers non-perishable goods, employing over 4,000 people across 15 manufacturing sites across the UK.

Use Cases

Pyramid started with one use case (daily sales) and quickly expanded: procurement, stock, customer care, packaging use, Smart Factories (energy consumption), new product development, ESG, master data reporting, forecasting

Pyramid Differentiators

- Ability to run direct query against SAP BW and Redshift
- Performance
- Better support for hybrid deployments
- Custom calculations and the ability to work with hierarchies from a variety of sources

Outcomes & Next steps

- **Saved 100 days** of effort a year through automation
- Execs and sales teams get **faster insights**
- **Single source** of truth now across departments
