HCM
We help businesses across all industries solve holistic HR needs by leveraging SAP SuccessFactors.

CONSUMER INDUSTRIES
We provide functional and technical consulting services for Retail, Fashion, Wholesale Distribution and Consumer Products (CPG) companies.

EAM
We help asset intensive companies around the world optimize their Asset Management and SAP EAM solutions.

GEOSPATIAL
Our reliable geospatial services focus on delivering successful projects using the latest technologies, proven project methodologies, and innovative approaches.

REAL ESTATE
We deliver a complete end-to-end SAP Intelligent Real Estate and RE-FX solution that aligns with the customers strategic real estate plans.

EHS
We empower businesses with proactive safety measures and enterprise-wide visibility into potential hazards

What we do

We provide end-to-end Services for every stage of a client's transformation journey. Whether they require an iron-clad business case before software investment, re ready for an SAP implementation, or require services and support to transition beyond go-live. Our EAM team is here to help.

BUSINESS CONSULTING

Collaboration

Storyboard

Outage reported and logged in OMS → Order and notification created in SAP EAM → Scheduling decisions made in SAP SAC → Work scheduled and dispatched in SAP FSM → Work executed and closed in SAP SAM

Car pole scenario - Initiation
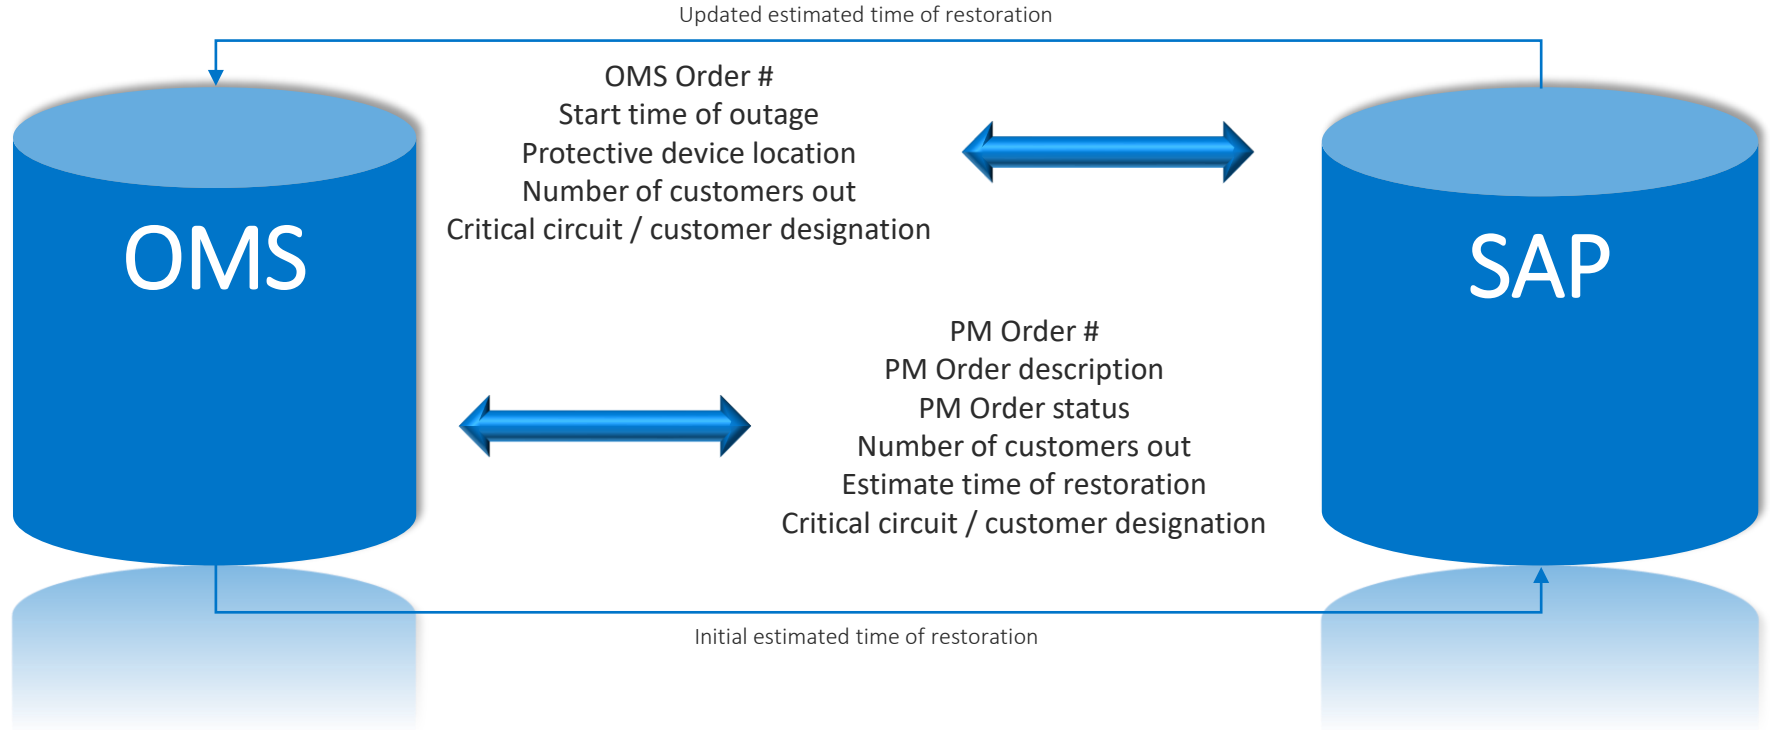

Passerby calls 911, reports wires down

Call made to emergency call center

Outage reported stable

Assign troubleman performing low priority work to emergency order

Order and notification automatically created in SAP

OMS <> SAP Interface

Updated estimated time of restoration

OMS

SAP

OMS Order #
Start time of outage
Protective device location
Number of customers out
Critical circuit / customer designation

PM Order #
PM Order description
PM Order status
Number of customers out
Estimate time of restoration
Critical circuit / customer designation

Initial estimated time of restoration
