RunMyJobs

Enterprise job scheduling purpose-built for your SAP mission-critical business processes

Redwood

SAP Platinum Partner

"We saved 84 man-hours - that's 10.5 days a quarter - when our specialist can work on other projects. Redwood is business critical. I really wonder how other enterprise businesses can manage without it."
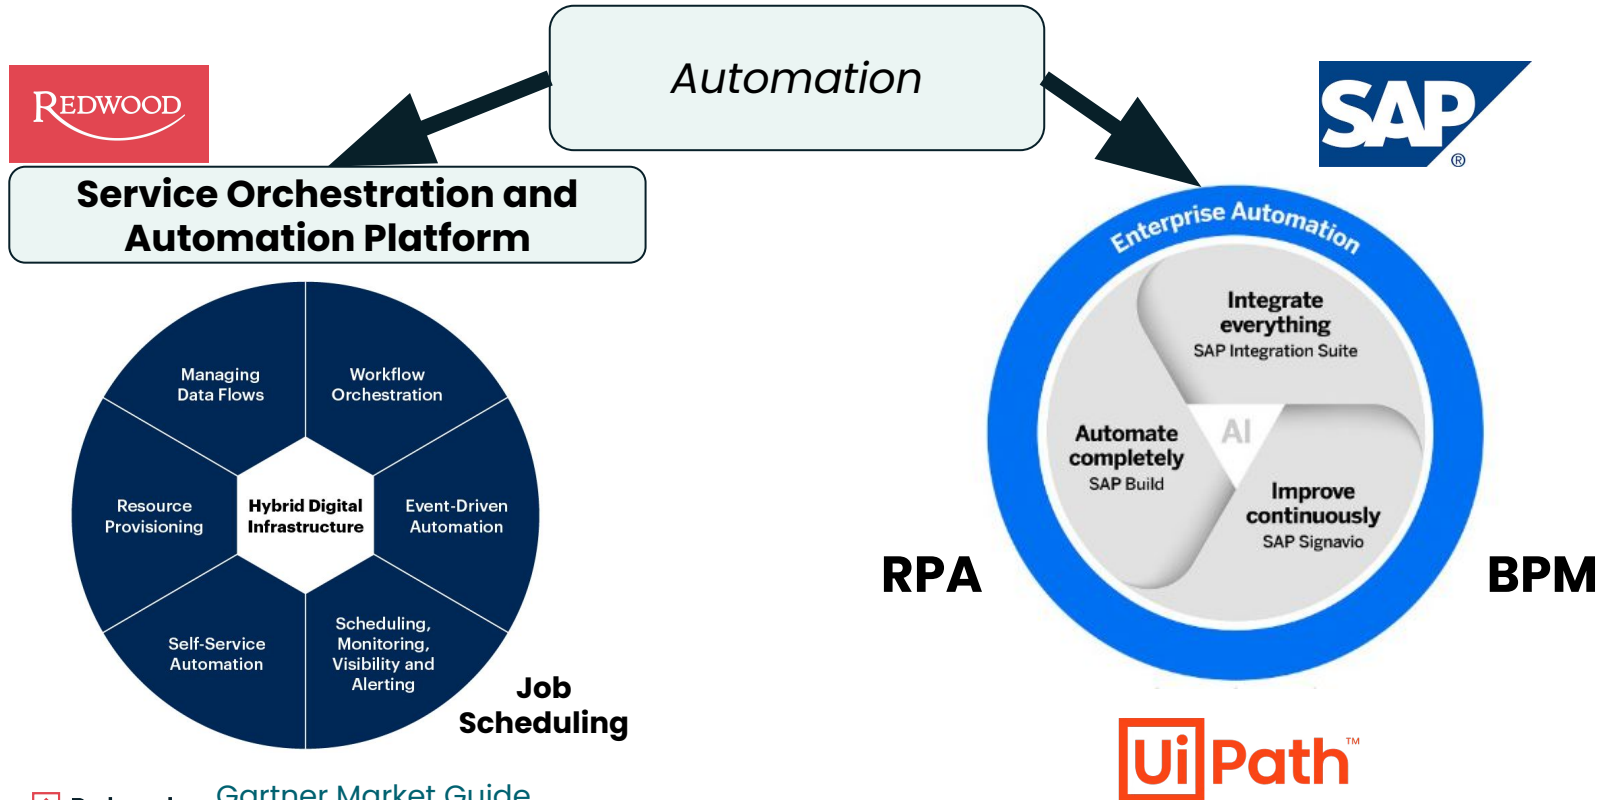

Hans Jansen, Senior SAP Basis Specialist, Epson

Redwood

> As the UK's leading hotel company, operating more than 700 hotels, our business never stops. We quickly migrated from CA AutoSys and SAP® RemoteWare job schedulers to Redwood, automating 1.3 million business-critical file transfers a month. We never miss a single transaction.

Rob Smith, Project Manager, Whitbread

RunMyJobs: Outstanding Customer experiences with full stack automation

The strategic choice for job scheduling and orchestration in SAP solutions and beyond

Trusted by SAP for Two Decades

Confidently & continually manage critical business processes with full stack automations & scale with less effort from your team

Recommended Job Scheduler for SAP Customers

Enabling you to automate and control any end-to-end process under a single pane of glass

Confidently Scale and Get More out of RISE with SAP

Secures your business operations at all times during the transition by connecting both: the existing as well as the future SAP portfolio

#1
Recommended Job Scheduler for SAP customers

Full stack automation with out of the box SAP integrations

- ✓ Unlimited connectors across all IT infrastructure, middleware and applications
- ✓ Run processes across modern SAP SaaS solutions and existing legacy systems, on-premise to private cloud
- ✓ Prebuilt Connectors for S4HANA, BTP and other SAP solutions

Keep a clean core by avoiding customization

- ✓ Integrate with S4/HANA and other SAP platforms without special software or infrastructure
- ✓ Intelligent processing rules remove the need for ABAP coding
- ✓ 1000+ out-of-the-box SAP wizards and templates
- ✓ Low code process design allows to configure process flows visually

Have full control over your processes

- ✓ Monitor lead to cash, design to operate, data management, financial close and other processes from a single pane of glass
- ✓ See and manage all processes and dependencies in real time
- ✓ Proactively avoid risks with predictive SLA and alerts

Redwood

RunMyJobs has the most SAP Certifications

S/4-BC-XBP

Job Scheduling for S/4 HANA

Background processing that enables the software to schedule, start, and monitor jobs outside of the S/4HANA system and to integrate with with existing SAP administration tools.

Works with RISE

Integrates with S4/HANA

Verified to integrate with SAP RISE solutions, including S4/HANA, and have reduced deployment and implementation times

## BW4-SCH

BW/4HANA Job Scheduling

Provides access to and allows for the handling of process chains externally

SM-SE

Solution Manager Enabler

Allows for jobs to be scheduled, run and monitored external to SAP (e.g NetWeaver)
