

precisely

Change the way you
work with SAP through
automation

Winshuttle is now
part of Precisely,
the leader in data
integrity

The logo for Precisely features the word "precisely" in a white, lowercase, sans-serif font. The letter "p" is stylized with a vertical bar extending downwards. The letter "o" is a large, 3D-rendered ring with a dark purple gradient and a shadow on the ground below it. The background is a solid purple color with a subtle gradient.

The global leader in data integrity software

Our data integrity software, data enrichment products, and strategic services deliver accuracy, consistency, and context to power confident business decisions.

Data leaders partner with us

The background features several abstract 3D-rendered geometric shapes in various shades of purple and blue. These include a large horizontal rectangle at the top left, a sphere to its right, a vertical rectangle on the right side, a sphere below the top-left rectangle, a sphere to the right of the central text, a sphere at the bottom left, and a square at the bottom center. The shapes have soft shadows and highlights, giving them a three-dimensional appearance.

Empowering business teams
to make an impact

Explosion of data

Data is the fuel for decision-making today

\$1.3 trillion spent
on digital transformation
last year

80% of CEOs
accelerating digital
transformation

67% spending
more on technology
than people

64 Zetabytes
of data today,
growing to 180+
zetabytes by 2025

Tackle process and data together

Automate Studio

The right capabilities to get SAP work done faster and improve data quality.

Mass create &
update using Excel

Data
stewardship

Deep SAP
integration

Low-code/no-code
design

What you can do with Automate Studio

Automate any SAP
business process

Streamline data migration
and conversions

Create operational
reports

Dorman speeds through master data changes

Challenge

- Change subset of materials from 'Manufactured' to 'Kitted'
- Update BoMs and Routings
- Change sales order to reflect non-kitted materials

Results

PER 100 MATERIALS

	Hours	Total Cost	Difference
Manual Processes	60	\$4,500	
Using desktop automation	5	\$375	\$4,125 saved

NEW SINCE 1918 3,000 materials converted
Savings = \$123,750

- Minimal business impact
- Improved data quality

Automate Evolve

Streamline complex processes

Dynamic process linking

- Automate complex multi-layered processes
- Streamline data collection across data objects and business units
- Handle centralized and decentralized data in one solution

Use **one solution**
for all your product
launch types

Modular, strategic product launch platform

- Start with the data objects that make sense for your business
- Expand over time
- Meet the needs of any organizational structure type
- Supports high complexity and volume

Automate SAP processes when:

- Errors have costly consequences
- Take too long, impacting business/revenue
- Are complex with many participants
- Contain complex data & can span many objects
- With high volumes of data maintenance requests

CUSTOMER STORY:

Energy Drink Company

CHALLENGE

- Slow, manual processes causing product launch bottlenecks
- Lack of visibility into launch project status

SOLUTION

- Digitized three launch processes
- Reduced product launch cycle times by 50-75%
- Increased visibility and improved governance
- Achieved repeatable, predictable processes

What's next for SAP automation?

Integration into
larger, complex
processes

Incorporation of
AI and machine
learning

Automating Fiori
processes
