Drivers for migrating SAP workloads to the cloud

Business drivers

- Reduce costs
- Innovate faster/modernize business processes
- Consolidate systems/support M&A activity
- Become data-driven
- Improve sustainability

Technical drivers

- 2027 End of Support for ECC
- Reduce technical debt
- Improve security and reliability
- Consolidate/eliminate data center footprint
- Increase staff productivity and retention

Thousands of customers across industries and geos trust **AWS for SAP**

SAP makes strategic decision to port SAP HANA Cloud to AWS Graviton

Graviton is:

60% more energy efficient than comparable EC2 instances

Up to 25% better performance compared to Graviton2

- 2x higher floating-point performance
- 2x faster cryptographic workload performance
- 3x better machine learning performance

"AWS investments and innovations on ARM-based AWS Graviton processors and SAP HANA Cloud are a great match with potential to deliver step-wise operation and performance improvement benefits to our enterprise customers, and to SAP's cloud analytics and data management solutions powered by SAP HANA Cloud."

Irfan Khan

President of HANA Database & Analytics, SAP

Gartner recognizes AWS as a Leader for the 12th straight year

Magic Quadrant for Cloud Infrastructure and Platform Services

We believe this report validates AWS's leadership to innovate and set standards for cloud computing. Millions of active customers every month and more than 100,000 Partners from over 150 countries choose AWS to deliver their business goals.

Read the full <u>report</u> to appreciate the details.

ISG recognizes AWS as an SAP HANA Infrastructure Services Leader for the 5th straight year

"AWS has more than a decade of experience in hosting SAP workloads and offers a wide array of choices for customers. It has the most market share and the largest SAP on AWS partner ecosystem in the U.S... AWS offers a robust and secure infrastructure platform for clients to run their most mission-critical SAP workloads."

Accelerate your SAP transformation with AWS

Migrate and modernize any SAP system

Deliver new business insights

Innovate faster and transform your business

Customers have been migrating large, mission-critical SAP systems to AWS since 2012

Moved 100 business applications, including SAP, to AWS in 8 months with zero business downtime

US NAVY

Moved SAP ERP that supports 6 U.S. Navy commands, 72,000 users, \$7B worth of parts and goods to AWS 10 months ahead of schedule

Improved business process performance by 60% while reducing costs by 40% for mission-critical SAP systems

The world's most secure, reliable, and extensive Global Cloud Infrastructure

Secure

AWS is architected to be the most secure cloud computing environment available, and is trusted by the world's most high sensitivity organizations.

Reliable

AWS delivers the highest network availability of any cloud provider. Each region is fully isolated and comprised of multiple AZs.

Extensive

AWS has the world's largest infrastructure footprint and significantly more services than any other cloud provider.

Comprehensive solutions to support your SAP migration and modernization journey

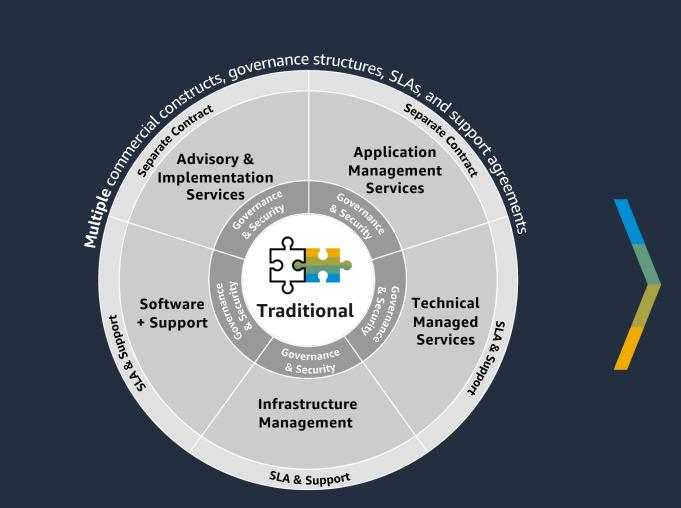

Built from helping thousands of customers migrate and modernize missioncritical SAP workloads since 2012

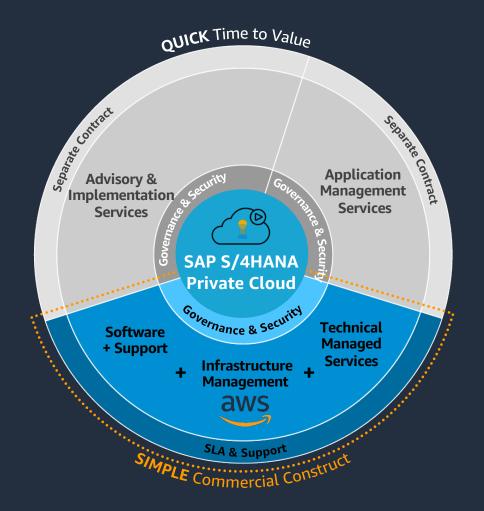

Why RISE with SAP on AWS?

BECOME AN INTELLIGENT, SUSTAINABLE ENTERPRISE IN THE CLOUD WITH AWS FOR SAP

Source: SAP

15

Klimasan changes everything with AWS for RISE with SAP

CHALLENGE

Turkish commercial refrigerator manufacturer Klimasan sells over half a million units a year in 79 countries. Previous IT systems struggled to produce accurate data and would not support growth and innovation plans.

SOLUTION

Klimasan implemented RISE with SAP to streamline processes and chose AWS Cloud for its performance, resilience, and ability to support mission-critical operations.

OUTCOME

- ✓ Streamlined processes across functions
- ✓ Provided users with data-driven insights
- ✓ Reduced IT focus on infrastructure

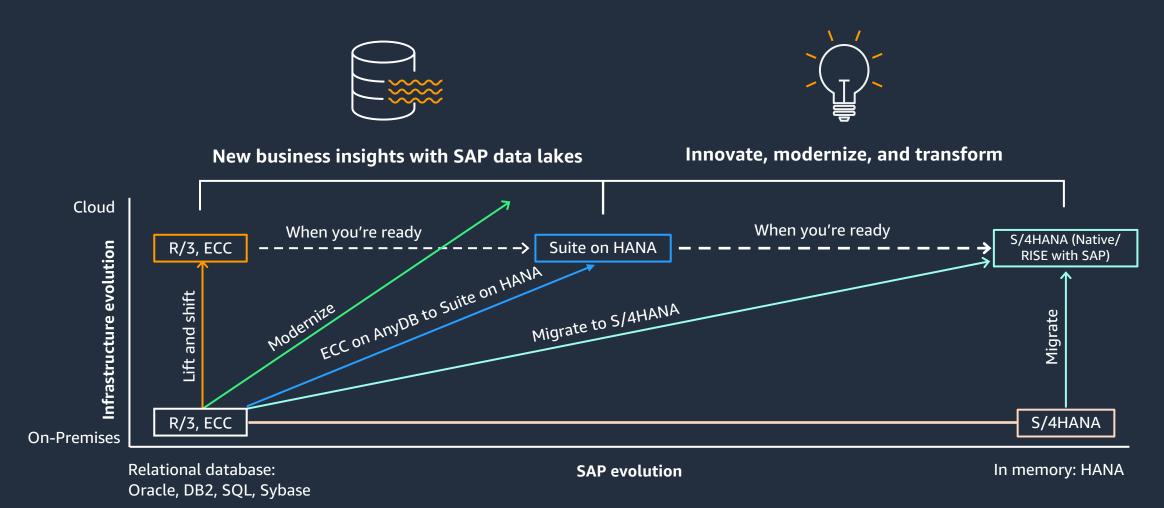

Migration paths for any SAP workload

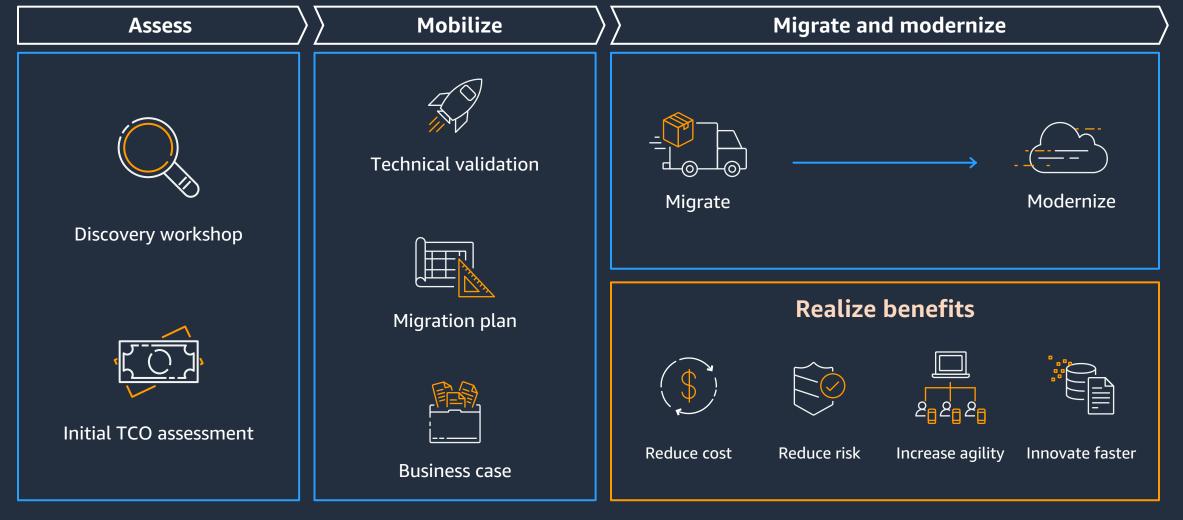

Proven model for SAP migration and

modernization

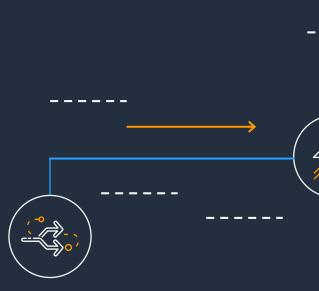

Purpose-built tooling to reduce risk and accelerate time to value

Automate your migration with proven templates and workflows

- AWS Migration Hub Orchestrator for SAP
- Partner migration tools
- SAP migration tools

Deploy production-ready SAP systems in hours vs months

• AWS Launch Wizard for SAP

Manage and operate more efficiently

- AWS Systems Manager for SAP
- AWS Backup/ AWS Backint Agent for SAP HANA
- Amazon CloudWatch Application Insights for SAP

Drive business insights and innovate faster

- Amazon AppFlow SAP Connector
- AWS SDK for SAP ABAP

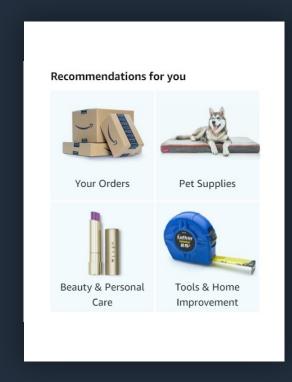

Data, analytics, and AI drive Amazon's innovation

4,000 products per minute sold on Amazon.com

1.6M packages shipped every day **Billions of Alexa** interactions each week

Offering Just Walk **Out shopping since January 2018**

Customers are unlocking the value of their data with SAP + AWS

AWS data lake unifies 95% of enterprise data sources including SAP ECC, increasing analytics productivity by >80%

Maintains a 360° view of customers by combing S/4HANA, BW/4HANA, and AWS analytics services, achieving 99.999% availability

zalando

Automates invoice processing through image recognition, automates customer response to improve customer satisfaction and ship 245M orders/ year, at 30% lower cost of insight.

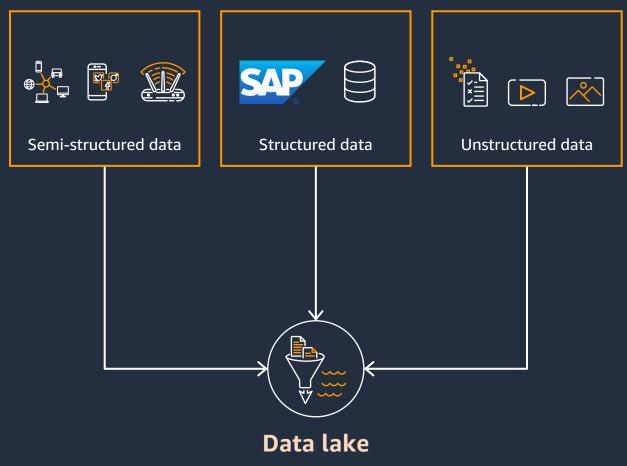

The benefits of data lakes for SAP

200,000+ DATA LAKES ALREADY RUN ON AWS

Reduce storage /data management costs by 71%

Improve query runtime by 70% or more

Decouple storage from compute

Choice of analytical and ML engines

Process data in place

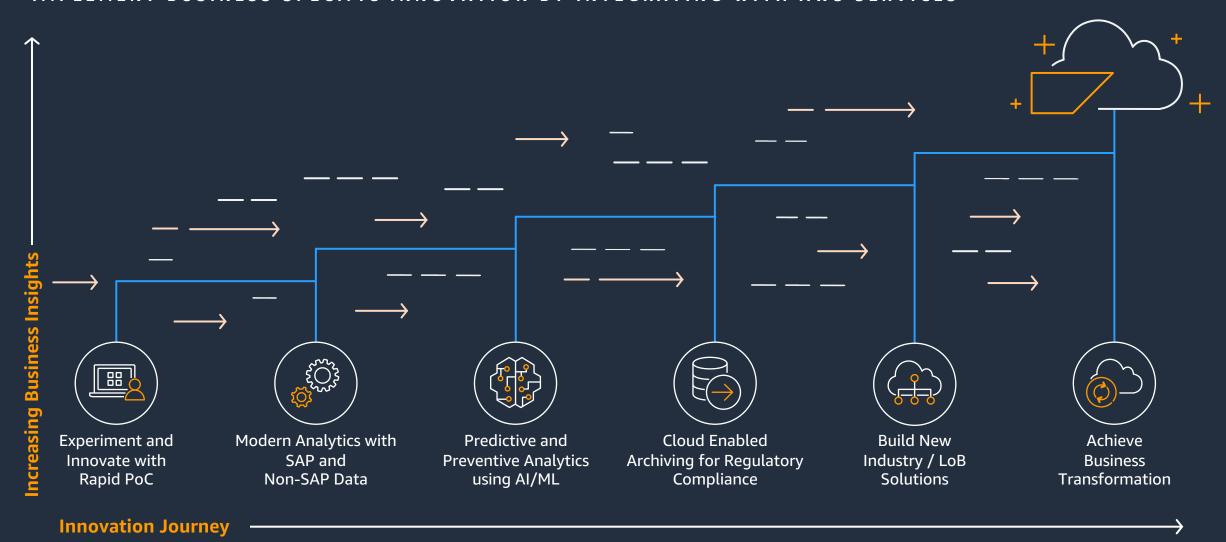

Business insights on-ramps for SAP on AWS

IMPLEMENT BUSINESS SPECIFIC INNOVATION BY INTEGRATING WITH AWS SERVICES

23

How customers are transforming their businesses with SAP on AWS

moderna

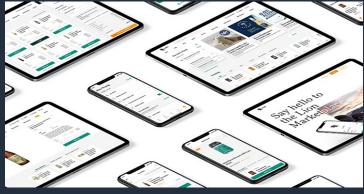

Used AWS AI/ML to sequence and release the first batch of their COVID-19 vaccine in just 27 days. Scaled S/4HANA system using infrastructure as code to support global distribution of 300M+ doses.

Uses AWS AI/ML to conduct visual inspection to reduce defects, employ predictive maintenance to reduce downtime.

SAP ERP data powers fullyautomated restocking, driving \$300M in operational value.

Used AWS services to enhance its customer beverage ordering experience with a mobile app and portal through SAP on AWS serving 25,000 retailers, restaurants, and vendors.

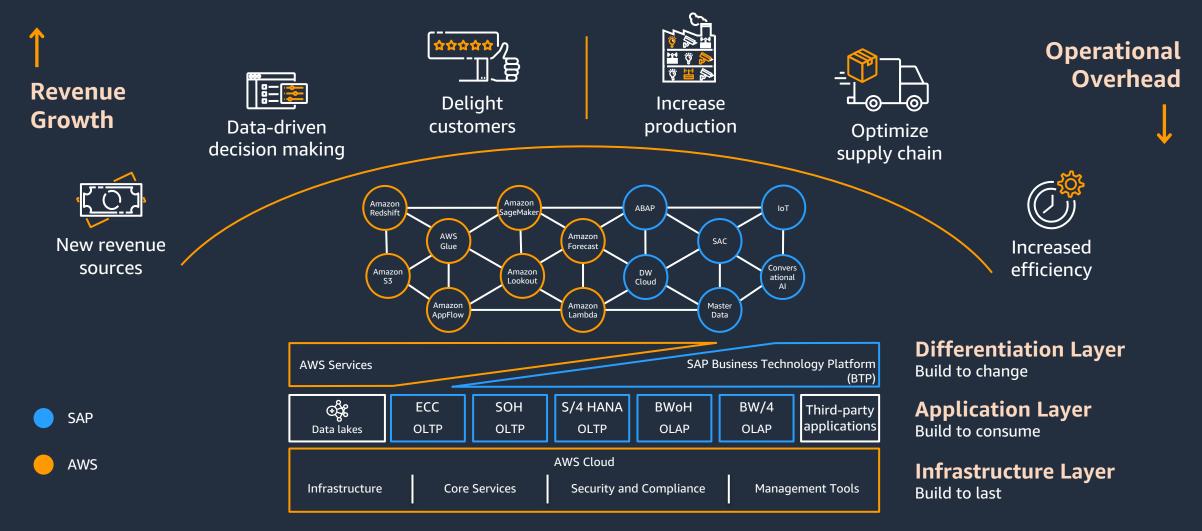

Clean core + AWS = Innovation

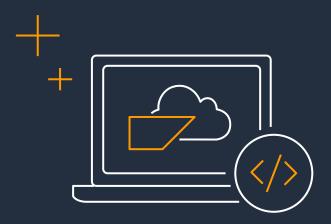

Innovate faster with the AWS SDK for SAP ABAP

Makes it easy for ABAP developers to extend and transform SAP-based business processes by harnessing the power of AWS services natively using the SAP ABAP language.

Accelerate business process innovation

by giving ABAP developers native access to all 200+ AWS services

Reduce architectural complexity

by eliminating the need to manually create complex integrations between SAP and AWS services

Maintain a strong security posture

by encrypting all payloads with HTTPS and enforcing SAP-level permissions

Upskill ABAP development teams

by making it easy to for them to build cloud-based solutions

Simplify demand planning with AWS Supply Chain

ML-powered demand forecasts

Demand sensing, actionable insights

View, override, and publish forecasts

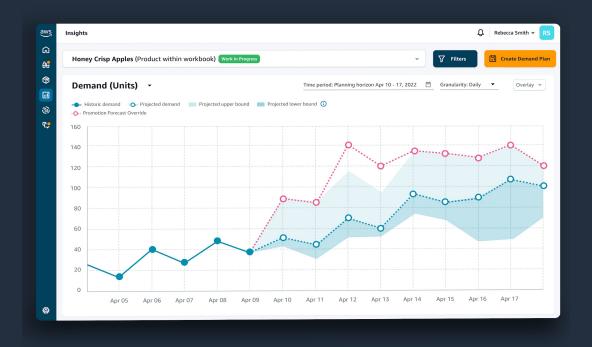

Forecast explainability

Automatic accuracy metrics

All integrated with your ECC or S/4HANA system

More SAP BTP services run on AWS than any other CSP

INCREASE PERFORMANCE. MEET DATA SOVEREIGNTY REQUIREMENTS, AND REDUCE COMPLEXITY

24

BTP services powered only by AWS¹

100%

New BTP Services launched on AWS in 2022 (vs 33% for next CSP)¹
