Process Solutions

What is Net Zero and Why is it Important?

***NET ZERO
2050***

How to Achieve Net Zero?

How is Net-Zero related to Capital Projects?

**Optimizing your Capital Portfolio
to achieve expected outcomes.**

Delivering Capital Projects is Challenging

Over Time &
Over Budget

Project
Abandoned

Didn't deliver
promises

Could have
been done
better.

Didn't align
to strategy
(ESG Net Zero)

Were never
initiated

Why do Capital Projects Under-deliver or Fail?

- Weak Business Case
- No Risk Assessment
- Not Objectively Evaluated
- Strategy Misalignment
- ...

- External Spreadsheets
- Poor Process & Approval Management
- Poor Resource Planning
- No Real-Time Data
- ...

- No Benefits Realization Analysis
- No auto Asset Creation
- Poor Budget Return
- Poor Process Improvement
- ...

To Optimize CAPEX Investment Outcomes, a holistic approach must be taken.

Objectively
Score and Rank

Investment /
Architecture

Single source of data
from Idea to Asset

Uses existing SAP
security authorizations

Validates data directly
against SAP

Automates the creation
of SAP Objects

Flexible workflow
configuration for all
scenarios

CAPEX

The image features a grayscale background. In the foreground, the silhouettes of five people are shown from the chest up, arranged in a semi-circle as if in a meeting. They are looking towards the center. Behind them is a detailed, high-angle view of a city skyline, with numerous skyscrapers and buildings. The overall tone is professional and collaborative.
