Keep Your Data in SAP

With Pyramid's high performance PYRANA direct query engine, you can query and analyze SAP BW, BW/4HANA, and HANA data while keeping it in your governed SAP data estate, whether on premise or in the cloud.
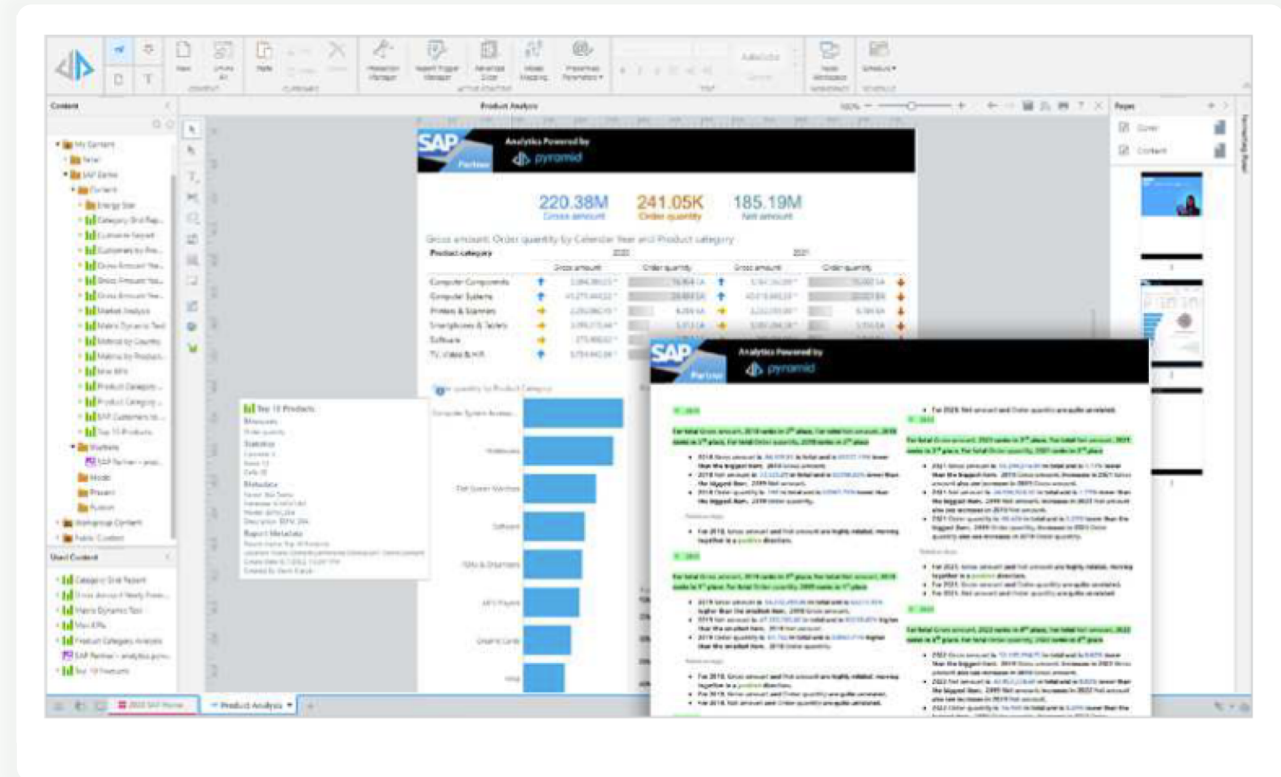

Why Pyramid Is Better for SAP

With the Pyramid platform, SAP customers can eliminate or reduce the costs of modernizing analytics by:

- Preserving SAP business logic and hierarchies

- Maintaining your SAP security

- Eliminating the need for retraining your SAP developers and analysts

- Accelerating the time to business insights

pyramid

Pyramid Analytics Rises with SAP

- Pyramid is an SAP® PartnerEdge® Build partner and is available on the SAP Store.

- Our SAP certified integrations ensure a seamless analytics experience working with SAP data.

Customer Benefits of Pyramid + SAP

- **Speed up insights** – Deliver insights faster without rebuilding hierarchies and business logic outside your SAP system

- **Lower TCO** by preserving and maximizing your SAP investments, reduce time and effort to retrain your developers and businesspeople on a new system of record

- **Bridge legacy migrations** – Continue to get consistent analytics experience while upgrading your SAP systems

- **Faster Analytics** from SAP BW, BW/4HANA, and HANA with no data extraction

- **Cross analytics** that blend SAP and non-SAP data

- **Empower all users** from the boardroom to the frontline

pyramid

Why SAP customers choose the Pyramid Decision Intelligence Platform

PREMIER FOODS

Premier Foods is one of Britain's biggest manufacturers non-perishable goods, employing over 4,000 people across 15 manufacturing sites across the UK.

pyramid

SAP BW

Amazon RedShift

Use Cases

Pyramid started with one use case (daily sales) and quickly expanded: procurement, stock, customer care, packaging use, Smart Factories (energy consumption), new product development, ESG, master data reporting, forecasting

Pyramid Differentiators

- Ability to run direct query against SAP BW and Redshift
- Performance
- Better support for hybrid deployments
- Custom calculations and the ability to work with hierarchies from a variety of sources

Outcomes & Next steps

- **Saved 100 days** of effort a year through automation
- Execs and sales teams get **faster insights**
- **Single source** of truth now across departments

pyramid

Why SAP customers choose the Pyramid Decision Intelligence Platform

PnP Foods is one of Africa's biggest listed food companies, employing over 150,000 people across the continent.

Use Cases

Deliver self-service spend analytics for procurement, internal audit requirements, customer service, new product releases, and energy consumption

Pyramid Differentiators

- Leverage investments in SAP/BW and support the existing data level security deployed in SAP/BW, no data duplication
- Operates on Snowflake directly as well
- One platform for analytics and data science integration

Outcomes & Next steps

- **6,000 Pyramid users** across **4000** stores including store managers, merchandizers, supply chain analysts, business analysts and data scientists.
- Maximized SAP investments and enabled access live data from Redshift and SQL Server

Why SAP customers choose the Pyramid Decision Intelligence Platform

TFG

Global retail group with a portfolio of 29 leading fashion retail brands across lifestyle and merchandise categories and manages 4,000 outlets in 32 countries.

pyramid

SAP HANA   SAP BW   Oracle   Microsoft

Use Cases

Enable **boardroom cockpit operational reporting:**

- Merchandising
- Logistics
- Sales
- Finance
- HR
- ECommerce
- Manufacturing

Pyramid Differentiators

- Multi-source direct access to data
- Dashboards with deeper insights
- Governed self-service for diverse teams with minimum training
- **3.5 days to minutes** for operational reporting

Outcomes & Next steps

- Reduced data processing **from weeks to less than a day.**
- **C-level to store managers**, got **real-time sales performance data** from **SAP BW/HANA** from **3200** stores.
- Enabled **more sales and promotional activities** even during **Black Friday peak;** expanding to more regions.

pyramid

Why Pyramid for SAP – It Just Works!

- The Pyramid platform natively supports BW and HANA with deep functional integration and multi-source direct access for non-SAP data

- Pyramid lowers TCO and reduces risk

- Proven market traction of Pyramid's Decision Intelligence Platform on SAP
