# **Community Conversations**

**Enterprise Architecture Domains:  
Building a Connected View of  
Transformation**

# ASUG

## *Today's Agenda*

- Welcome
- Speaker Introduction
- Presentation
- Community Q&A
- Opportunities to Connect

## Guest Speakers:

Vedavyas Cuntheepuram

**Enterprise Architect,  
Leprino Foods**

Martin Mysyk

**Lead Enterprise  
Architect, Utilities  
Architect Advisory  
SAP America**

Liliana Pons

**Principal Enterprise  
Architect, Global  
Enterprise Architect &  
Advisory  
SAP**

# Enterprise Architecture Domains

*Enterprise Architecture domains help organizations connect strategy, systems, and execution. When these domains work together, architects can create a shared view of transformation.*

The logo for ASUG (Association of Software Users Groups) is displayed in white text on a purple rectangular background. The letters 'A', 'S', and 'U' are lowercase, while 'G' is uppercase. The 'A' and 'S' are connected, and the 'U' and 'G' are connected.

## **Business Architecture**

Defines the business capabilities, value streams, and outcomes that guide transformation priorities.

## **Data Architecture**

Establishes how data is structured, governed, and shared to enable trusted insights, analytics, and AI.

## **Application Architecture**

Maps the enterprise application landscape and governs how systems support business capabilities and integrate across the ecosystem.

## **Technology Architecture**

Provides the infrastructure, platforms, and technical standards that support scalable and resilient systems.

## **Security & Risk Architecture**

Ensures security, compliance, and risk considerations are embedded into architecture decisions across the enterprise.

**ASUG**

*Enterprise Architecture Domains: Building  
a Connected View of Transformation*

**Roundtable Discussion**

# EA Domains Roundtable

*Domain: **Business Architecture***

*Question for the Community:*

**How mature is your business architecture practice?**

*Roundtable Discussion:*

**How can you maintain a shared, actionable view of business capabilities and value streams when priorities shift?**

**ASUG**

# EA Domains Roundtable

*Domain: **Application Architecture***

*Question for the Community:*

**What is your biggest challenge today with application architecture?**

*Roundtable Discussion:*

**What are some strategies for governing application decisions across SAP and non-SAP landscapes while balancing clean core, innovation, and speed?**

**ASUG**

# EA Domains Roundtable

*Domain: **Data Architecture***

*Question for the Community:*

**What is the biggest barrier to AI readiness in your data landscape?**

*Roundtable Discussion:*

**What are some best practices to govern data ownership and integration across systems in the context of advanced analytics and AI?**

**ASUG**

# EA Domains Roundtable

*Domain: **Technology/Platform Architecture***

*Question for the Community:*

**What's been the biggest barrier to standardization within your organization?**

*Roundtable Discussion:*

**How can customers define and govern target platforms in a cloud-first SAP landscape and continue managing technical debt?**

**ASUG**

# EA Domains Roundtable

*Domain: Security/Risk Architecture*

*Question for the Community:*

**What is currently your most pressing risk area?**

*Roundtable Discussion:*

**How can customers embed security and risk into architecture decisions without slowing transformation?**
