Community Conversations

**Help Shape 2026: Enterprise
Architecture, Business Transformation
Management and Cloud ERP
Community Kickoff**

Today's Agenda

- Welcome
- 2026 EA, BTM and Cloud ERP Programming
- 2026 Announcements and SAP Insights
- Community Discussion
- What's Next?

Guest Speakers:

Martin Mysyk

**Lead Enterprise Architect,
Utilities
Architect Advisory
SAP America**

Wassilios Lolas

**Global VP,
Strategic Solution
Advisory, Business
Transformation
Management, SAP**

Anurag Barua

**Transformation Leader,
SAP America**

ASUG

Built with the Community:

Community topics that matter most

Enterprise Architect Community

Guiding Themes for EA Community Content

ASUG

EA Practice

Establishing the EA operating model, governance, and strategic alignment with business transformation

Tools for the SAP EA

Leveraging SAP's EA and transformation tools to support planning, analysis, and execution

SAP Portfolio Awareness

Understanding SAP's solution landscape and how capabilities align to business and technology strategy

EA Competency Development

Building skills, roles, and career paths for architects across business, solution, and enterprise domains

Join the Community

Business Transformation Management Community

Guiding Themes for BTM Community Content

ASUG

Process Excellence & Standardization

Designing and harmonizing end-to-end business processes to drive efficiency and scalability

Data Readiness & Governance

Ensuring high-quality, trusted data to support transformation, analytics, and AI

Transformation Governance & Execution

Managing programs, portfolios, and change to deliver outcomes and control risk

Integrated Toolchain

Connecting Signavio, LeanIX, Cloud ALM, and WalkMe across the transformation lifecycle

Value Realization

Measuring, tracking, and communicating business value across lines of business

Join the Community

Cloud ERP Community

Guiding Themes for Cloud ERP Community Content

ASUG

Migration

Transition to SAP S/4HANA and cloud-enabled processes with a clean core and future-ready architecture

Operation

Stabilizing, running, and optimizing Cloud ERP for performance, security, and continuous improvement

Innovation

Extending and enhancing Cloud ERP with new capabilities such as AI, automation, analytics, and industry solutions

*Help Shape 2026: EA, BTM, and Cloud ERP
Community Kickoff*

**2026 Announcements and SAP
Insights**

Enterprise Architecture Themes From an SAP Perspective:

EA Practice

Tools for the SAP EA

SAP Portfolio Awareness

**EA Competency
Development**

It starts with Community Conversations... and Continues Through:

Conferences:

- Next Gen EA Learning Forum
- SAP Sapphire/ASUG Annual Conference
- SAP4Utilities
- ASUG Tech Connect 2026

Chapters:

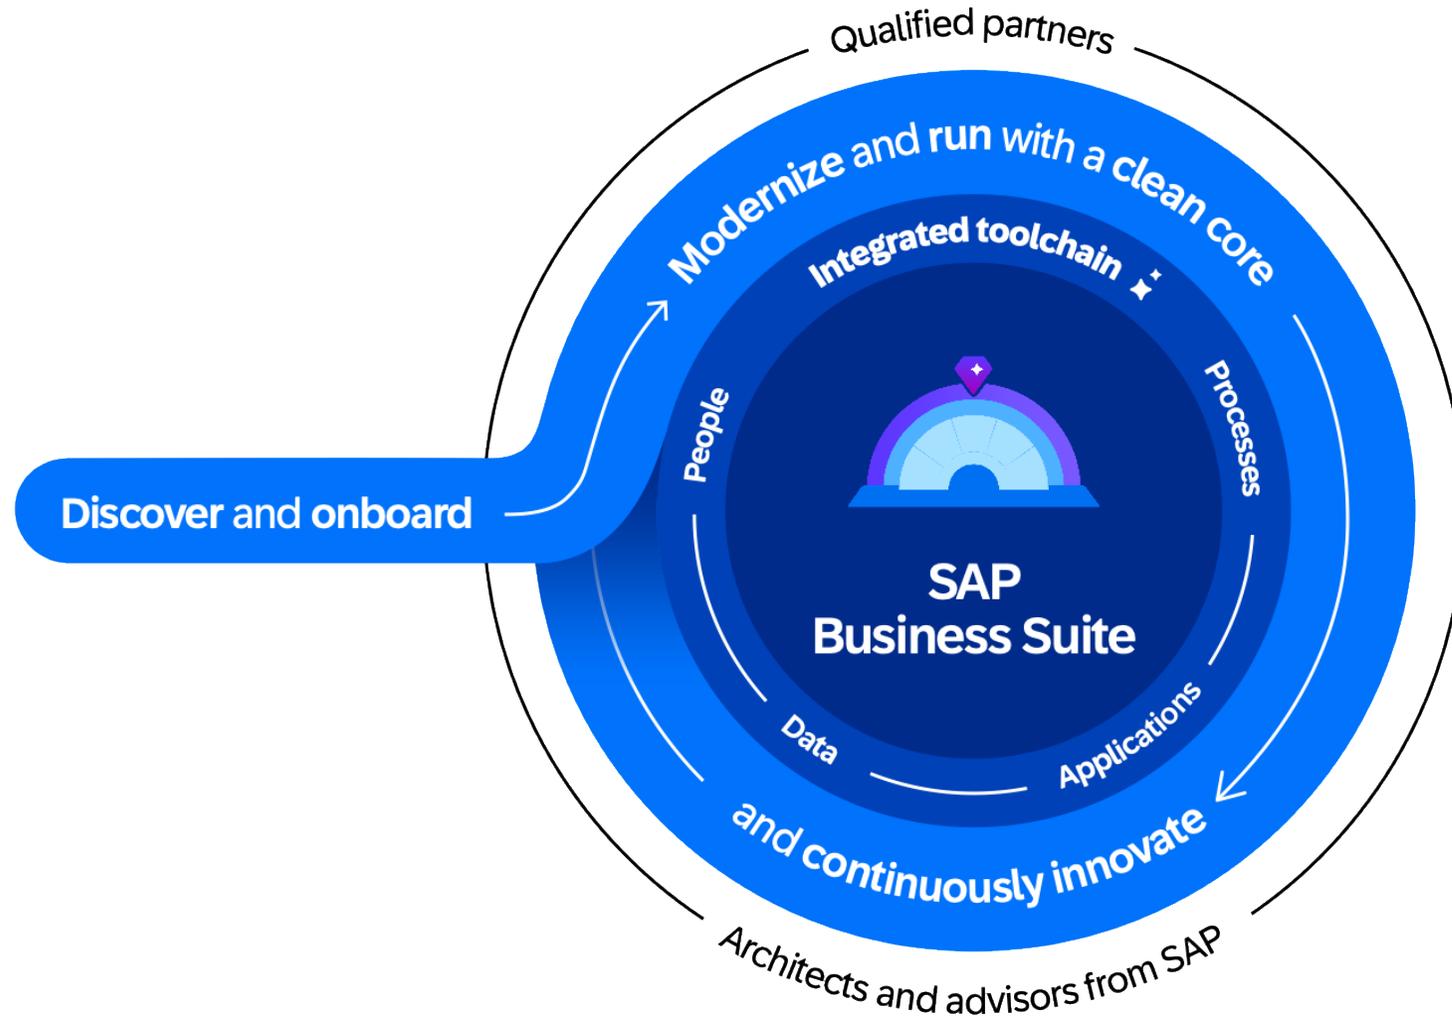

- EA Topic Content for Chapter meetings

ASUG Content Collections – Insights and Research

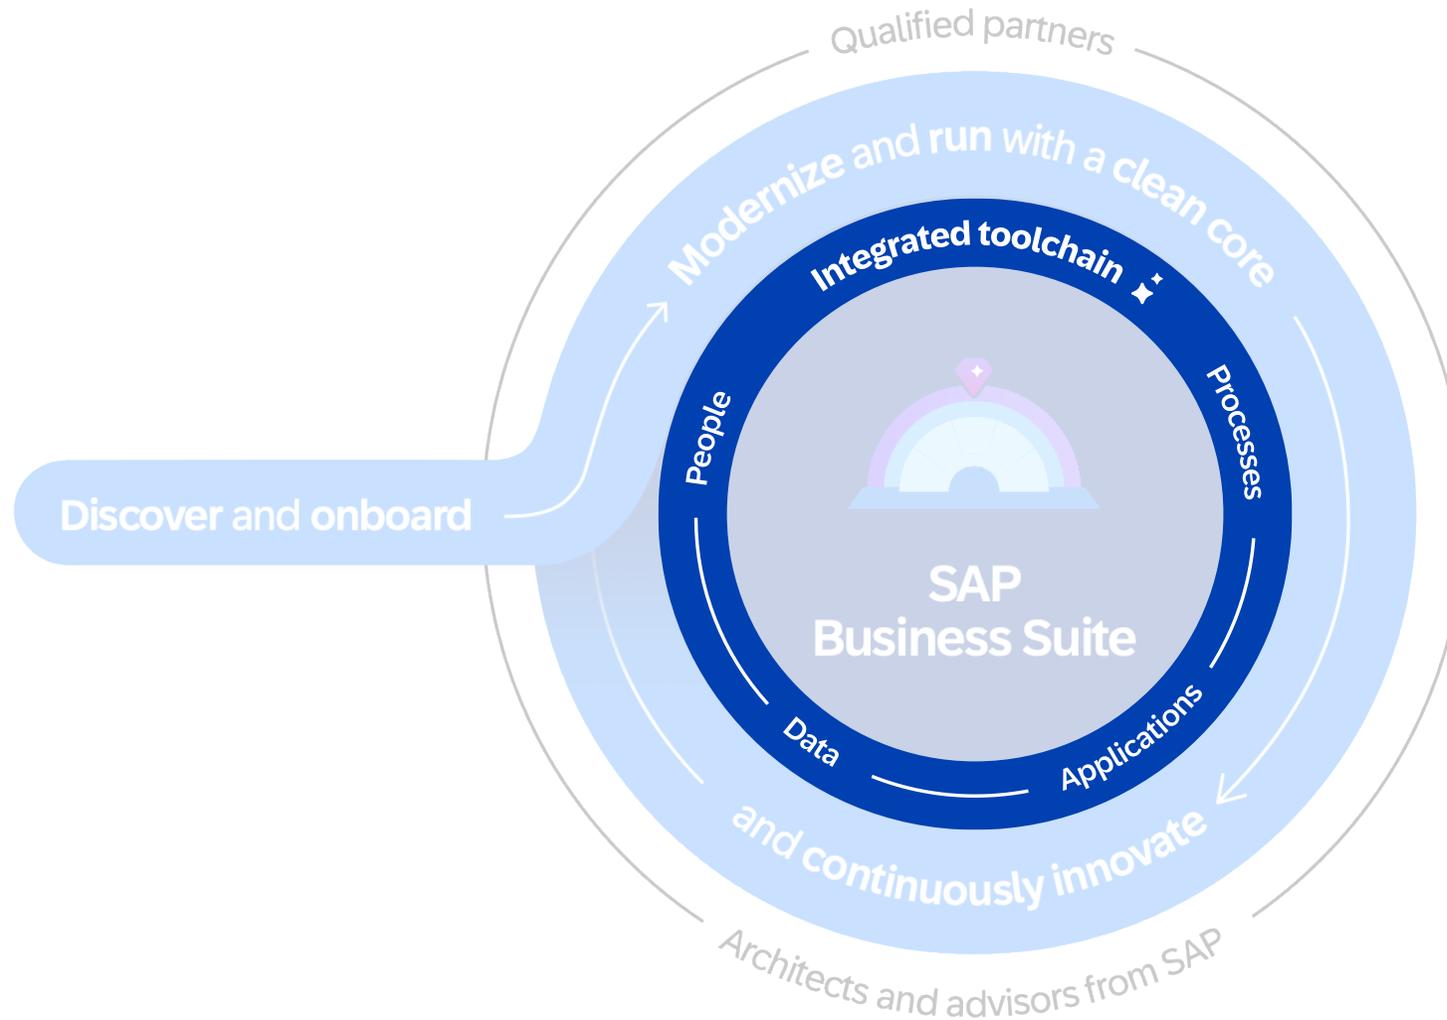

SAP's integrated toolchain

Transform ERP intelligently with unified, all-encompassing insights.

The integrated toolchain

a core pillar of RISE with SAP methodology

Faster time to business value

Reduced cost of transformation

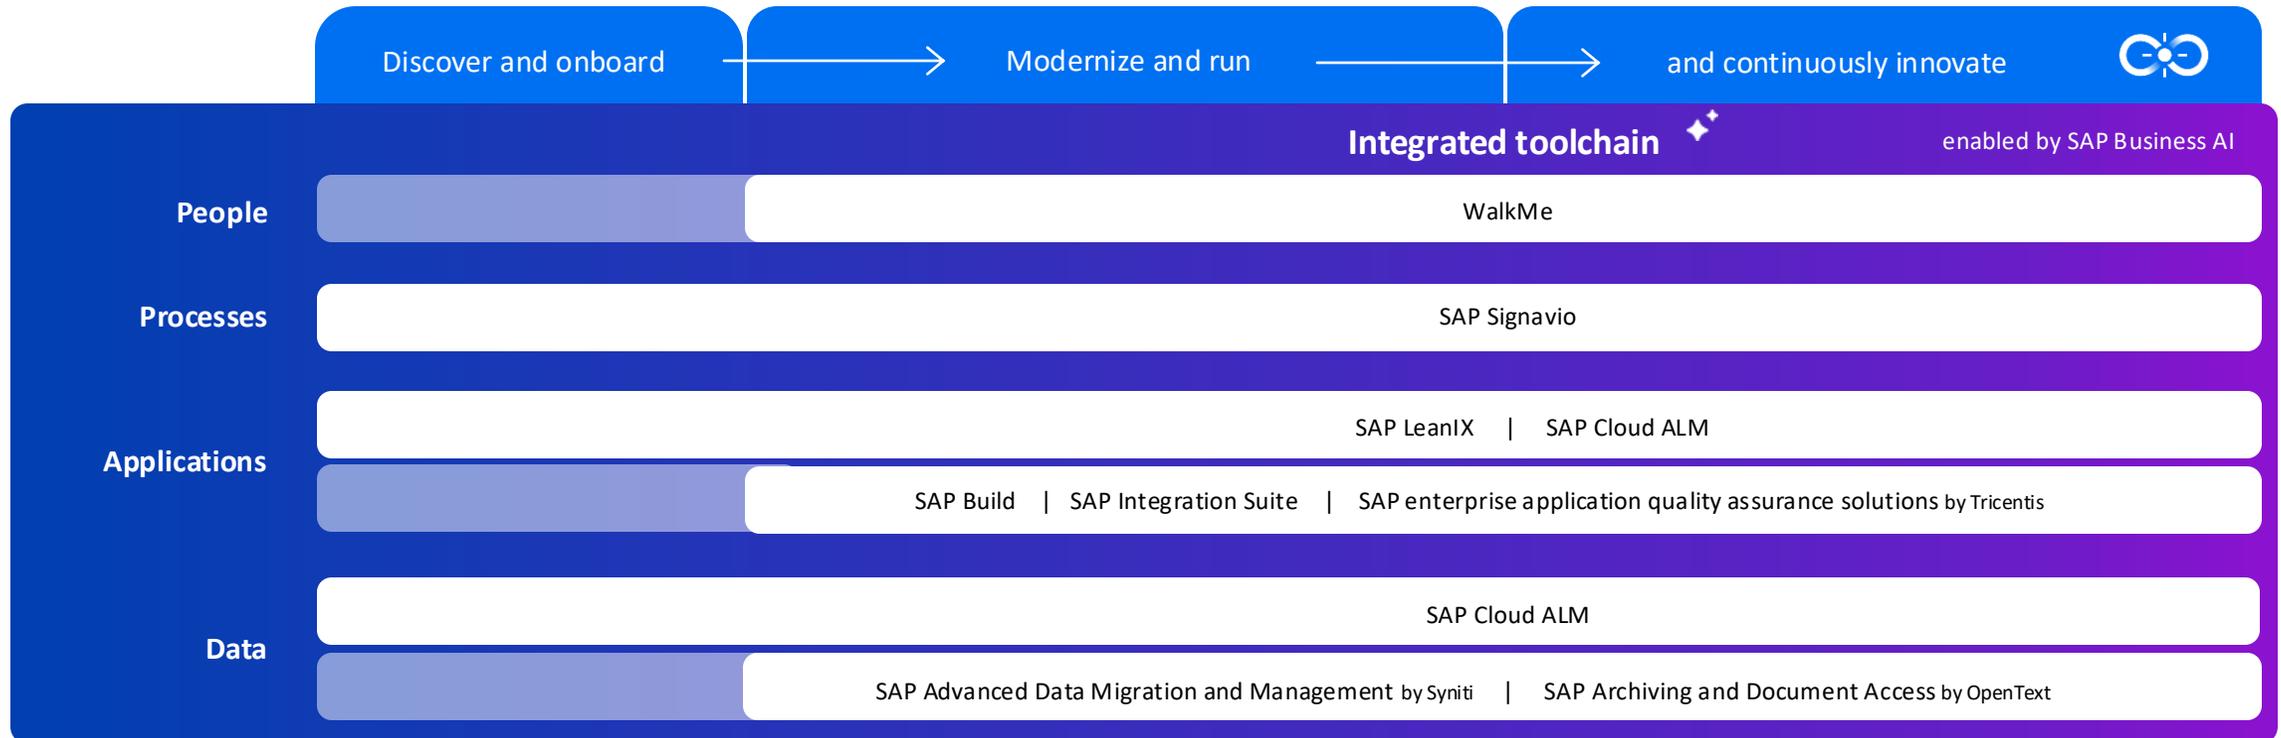

Increased business agility

Lowered risk of change

Faster continuous innovation

The integrated toolchain in detail

Innovation and value realization begins when modernization happens

Content priorities | Business Transformation Management Track '26

1

From AI agent experimentation to enterprise-wide impact

Discover how to govern and manage the AI agent lifecycle at scale without slowing innovation—aligned to strategy and delivering real enterprise value.

3

Unlock the strategic power of enterprise architecture with SAP LeanIX

Learn how LeanIX helps navigate transformation complexity and risk to become AI-native, automate IT visibility, and maximize tech ROI.

2

Modernize your ERP with confidence and drive continuous innovation with the integrated toolchain

See how to use the integrated toolchain as part of the RISE with SAP methodology to navigate change across people, processes, apps & data.

4

Unleash process excellence with SAP Signavio

Bring direction to ERP transformation, process and AI excellence with SAP Signavio. Link strategy to value, prioritize actions and deliver real impact.

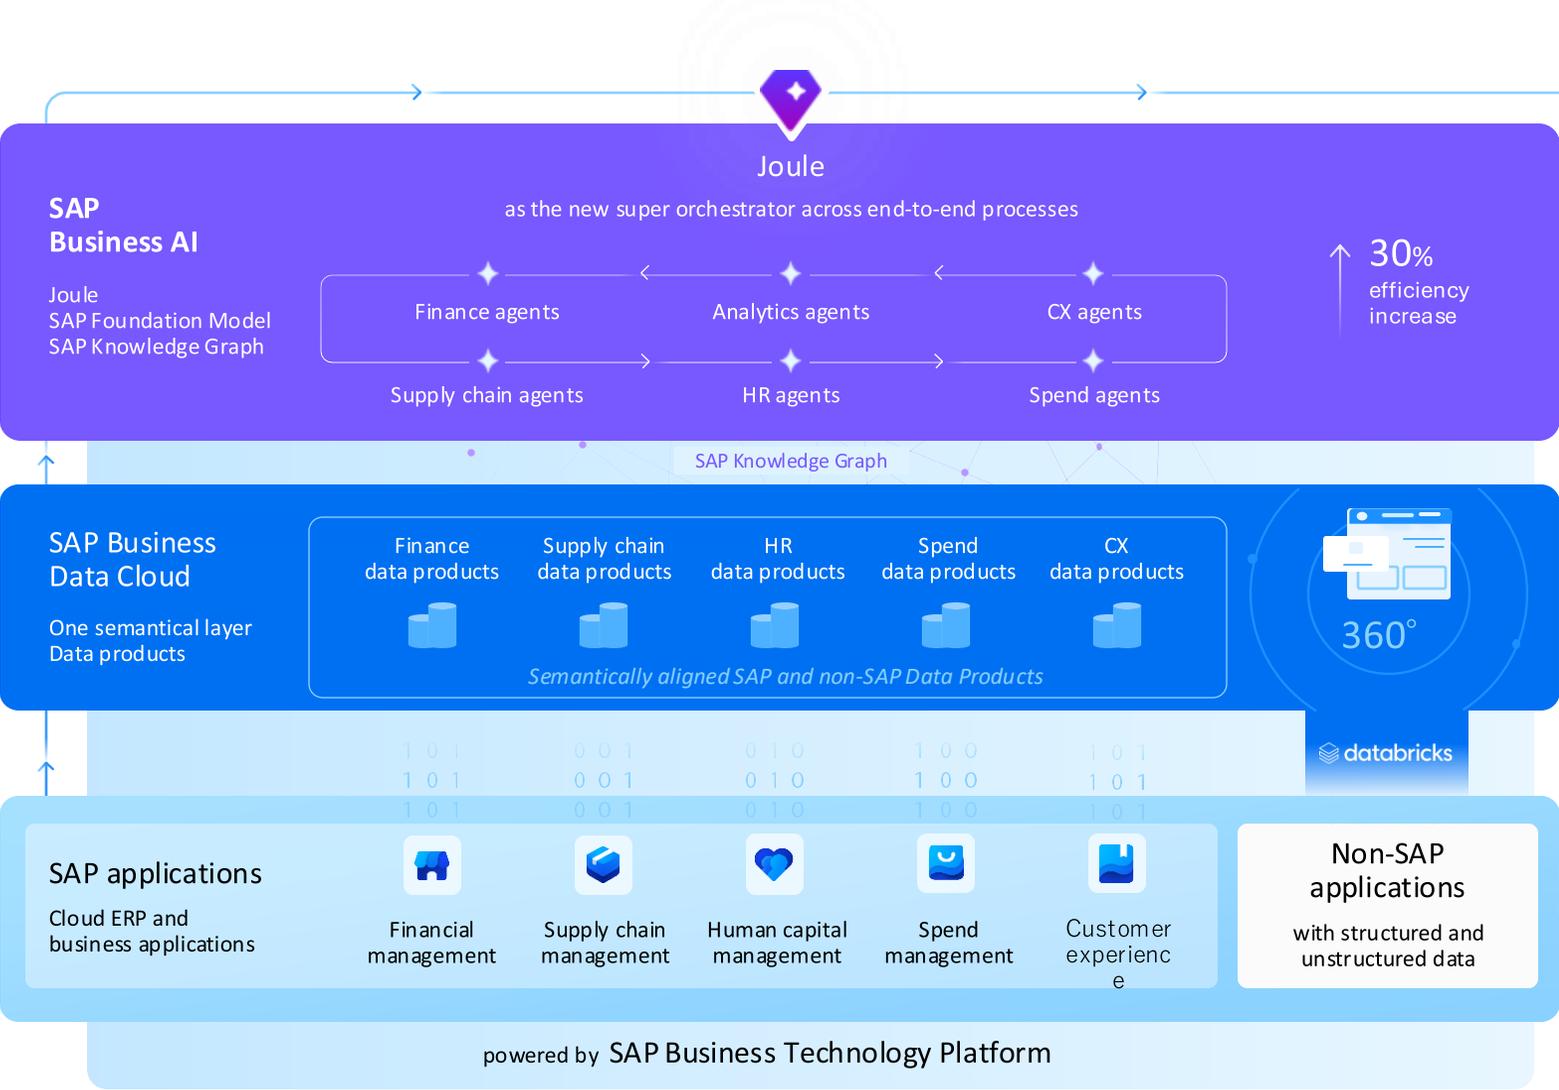

5

Accelerate adoption and success of AI transformation with WalkMe

Ensure AI investments deliver the ROI you expect with learning and guidance, automation, and contextual AI, in the flow of work, in any application.

SAP Business Suite – transformation North Star for 2026

A suite that integrates applications, data, & AI to drive your cloud transformation

Unrivaled AI

With **SAP Business AI** collaborative agents are deployed and orchestrated to enhance operations, drive real-time insights, and optimize decision-making at scale—unlocking capabilities others can't match

Unmatched Data

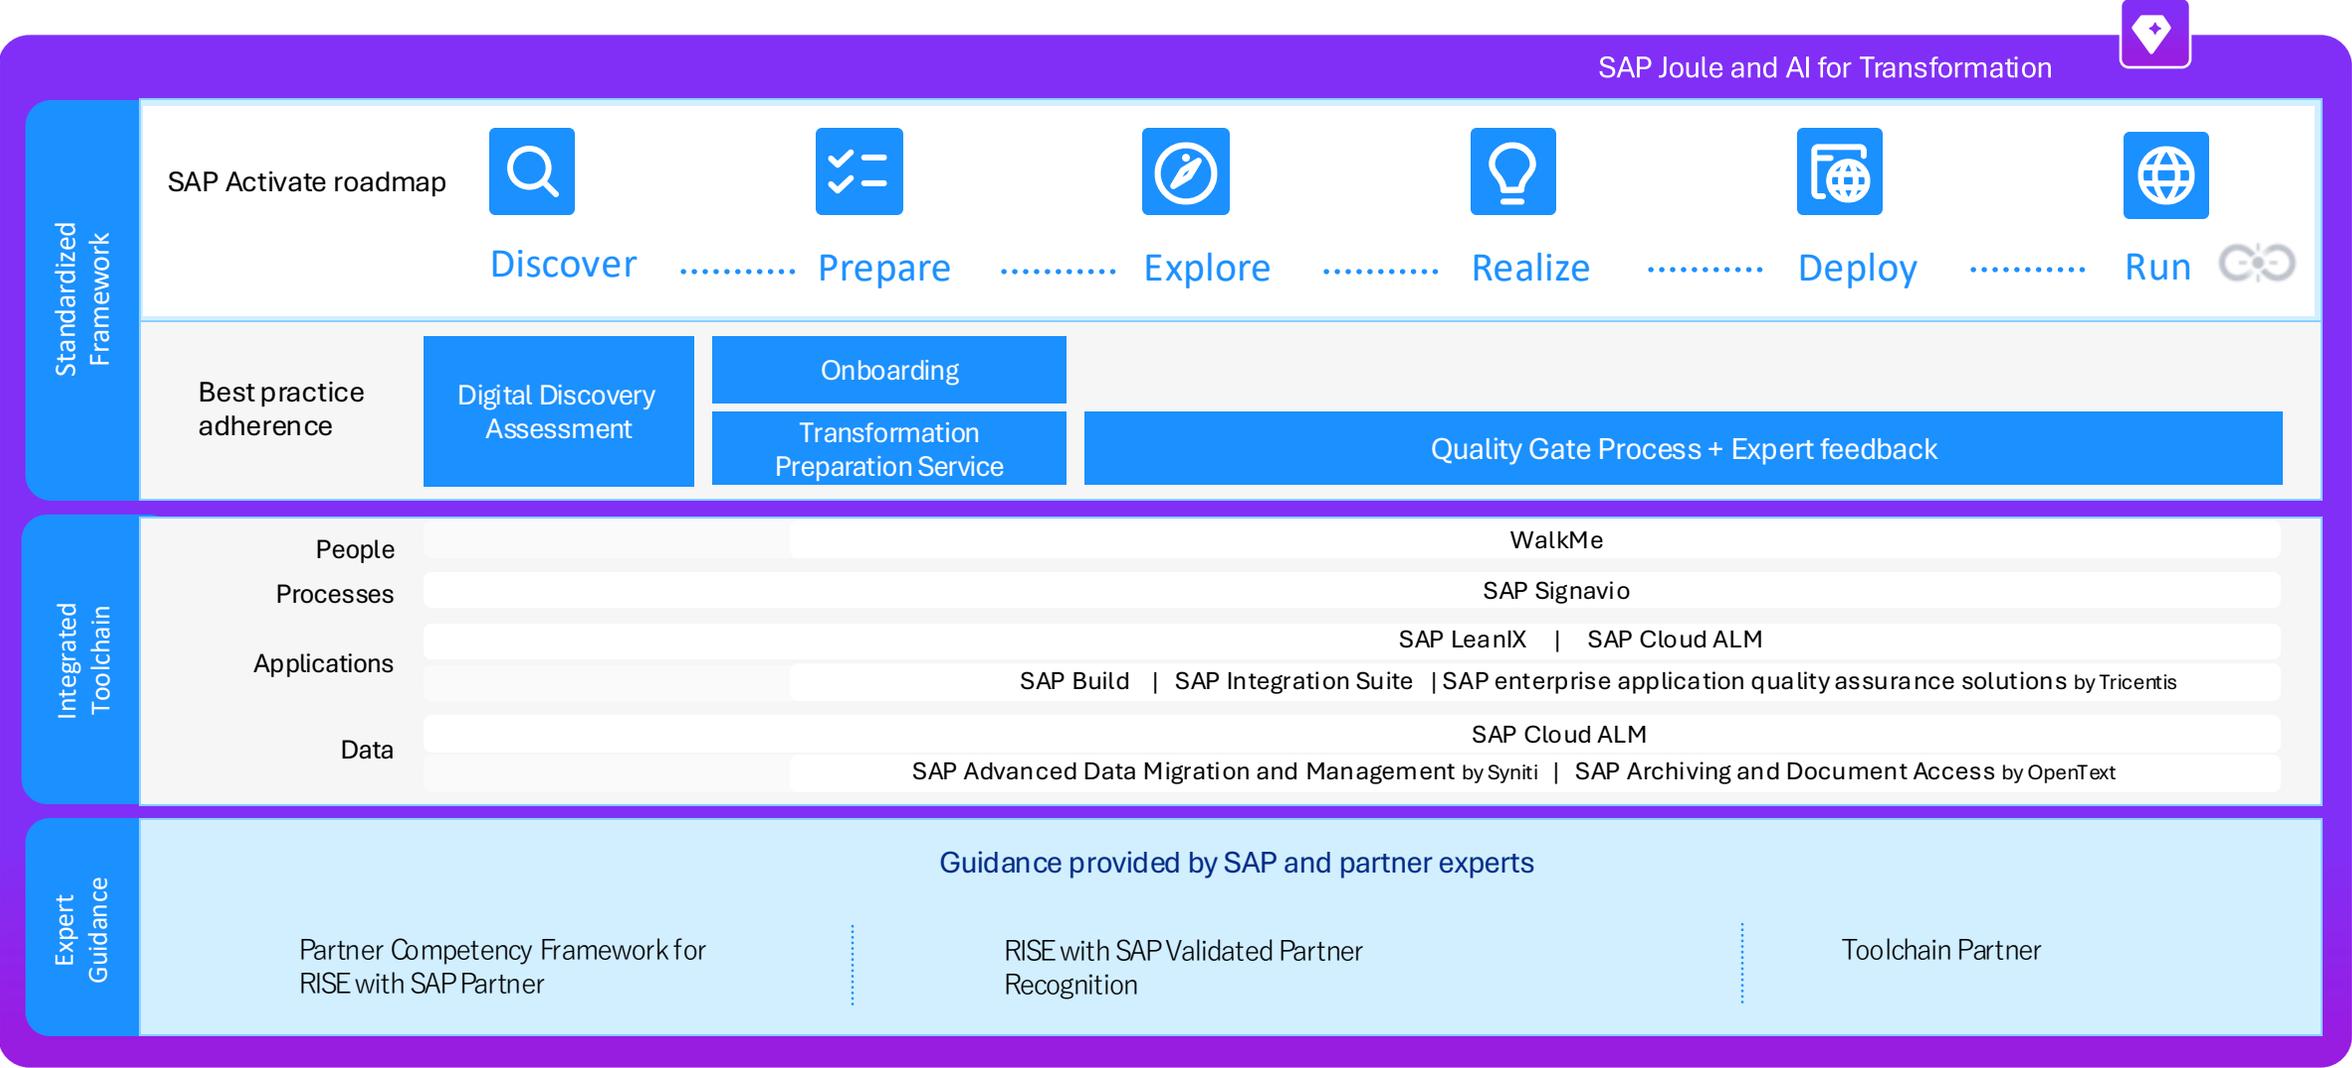

With **SAP Business Data Cloud**, the most valuable business data from every part of the business turns into a semantically-rich data treasure that fuels unrivaled AI-powered value

Unparalleled Applications

With **SAP's applications** and our **SAP Business Technology platform**, every part of the business is deeply connected, delivering end-to-end transformational value to business processes

RISE with SAP Methodology for SAP Cloud ERP Private

Transform into a cloud operating model with best practices—aligned guidance, tools, and services

SAP GROW – Start Fresh & Fast with SAP Cloud ERP (Public)

Enterprise power without enterprise pain

SAP GROW is a complete cloud ERP platform that launches in weeks with transparent, fixed-scope pricing. Start with Finance, Supply Chain, or HR—with AI and industry best practices embedded from day one.

Start Lean, Expand at Will

Start with core processes then expand flexibly and grow without disruption

AI That Means Business

AI enables simplicity, works across applications, and is embedded in the business processes

Industry Depth, Faster Value

Pre-configured industry best practices, proven globally, for rapid, reliable results

Predictable Costs, Zero Surprises

Transparent pricing, no hidden fees, measurable outcomes, with faster and smoother operations

Never rebuild. Never re-platform. One foundation that scales with your ambition.

Lean on & leverage the SAP Business Transformation Center

The SAP Business Transformation Center helps companies unleash & accelerate their transformation with a unified & guided five-step methodology

1

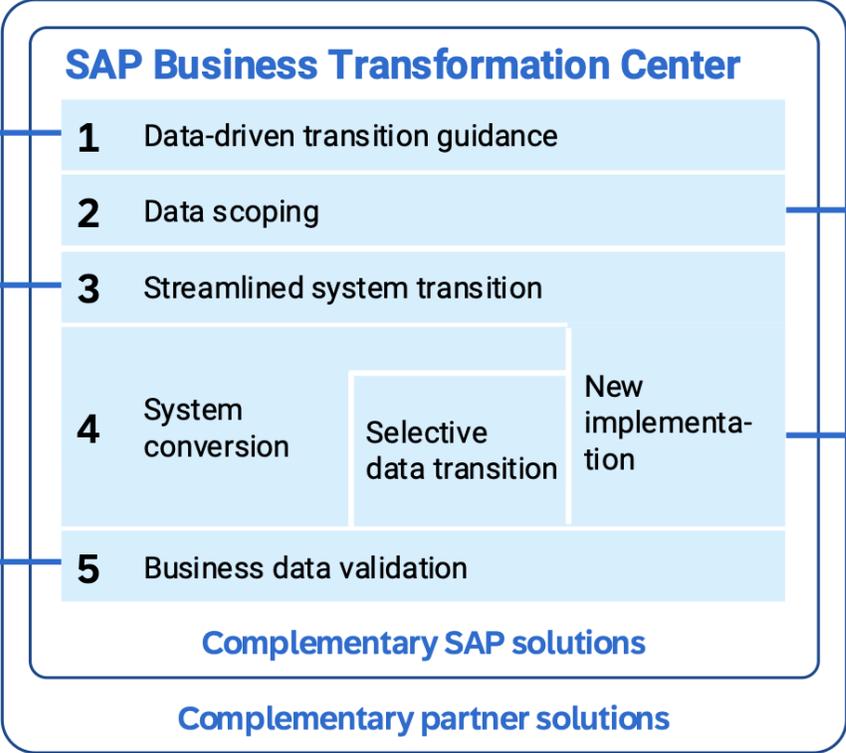

AI and data-driven, customer-specific transition recommendations

3

Streamlined cloud transition with safeguarded procedures, automated steps, and minimal downtime

5

Automated validation of business data through predefined SAP reconciliation reports

SAP Business Transformation Center

1 Data-driven transition guidance

2 Data scoping

3 Streamlined system transition

4 System conversion

Selective data transition

New implementation

5 Business data validation

Complementary SAP solutions

Complementary partner solutions

2

Visual, interactive, and data-based foundation for analysing and scoping data while creating documentation for traceability

4

Three options for transferring data based on the chosen transition path

ASUG

Community Discussion:

What are your thoughts?

Community Topic Discussion

2026 Readiness

Question for the Community:

Looking ahead for 2026, what is one capability your organization could strengthen? (ex. Architectural maturity, transformation governance, cloud ERP optimization/ innovation)?

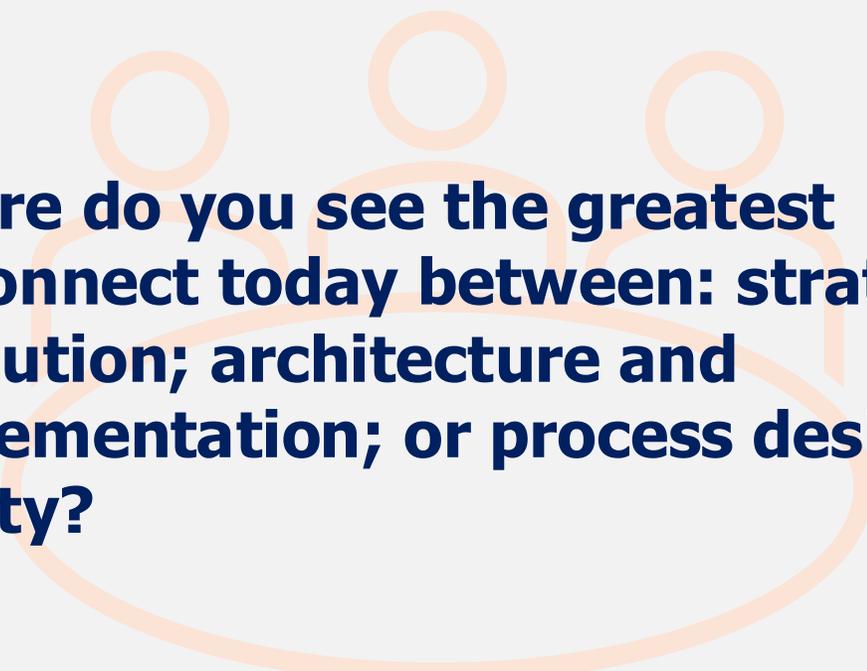

ASUG

Community Topic Discussion

Intersection Focus

Question for the Community:

Where do you see the greatest disconnect today between: strategy and execution; architecture and implementation; or process design and reality?
