Our Success Story

A global golf equipment company, partnered with Avvale to streamline its

CAPEX and OPEX planning

- 70+ countries
- 40+ years in business
- More than 24,000 employees
- Real-time financial planning and analysis

What We'll Cover

- Need for SAC Planning
- Life Before SAC
- From Idea to Implementation
- The Solution
- Planning for Future Success and Growth
- Key Wins
- Key Takeaways

Need for SAC Planning

Financial planning and analysis (FP&A), specifically **CAPEX and OPEX planning**, is one of the most powerful processes for golf equipment companies to effectively manage and execute **strategic steps** to drive significant **business results** in an increasingly competitive market.

Life Before SAC

- Forecasting in separate spreadsheets and many legacy systems
- Difficulties to create analysis and visualization scenarios
- No real-time integration or connectivity with the ERP
- Data silos across the organization

Action Plan

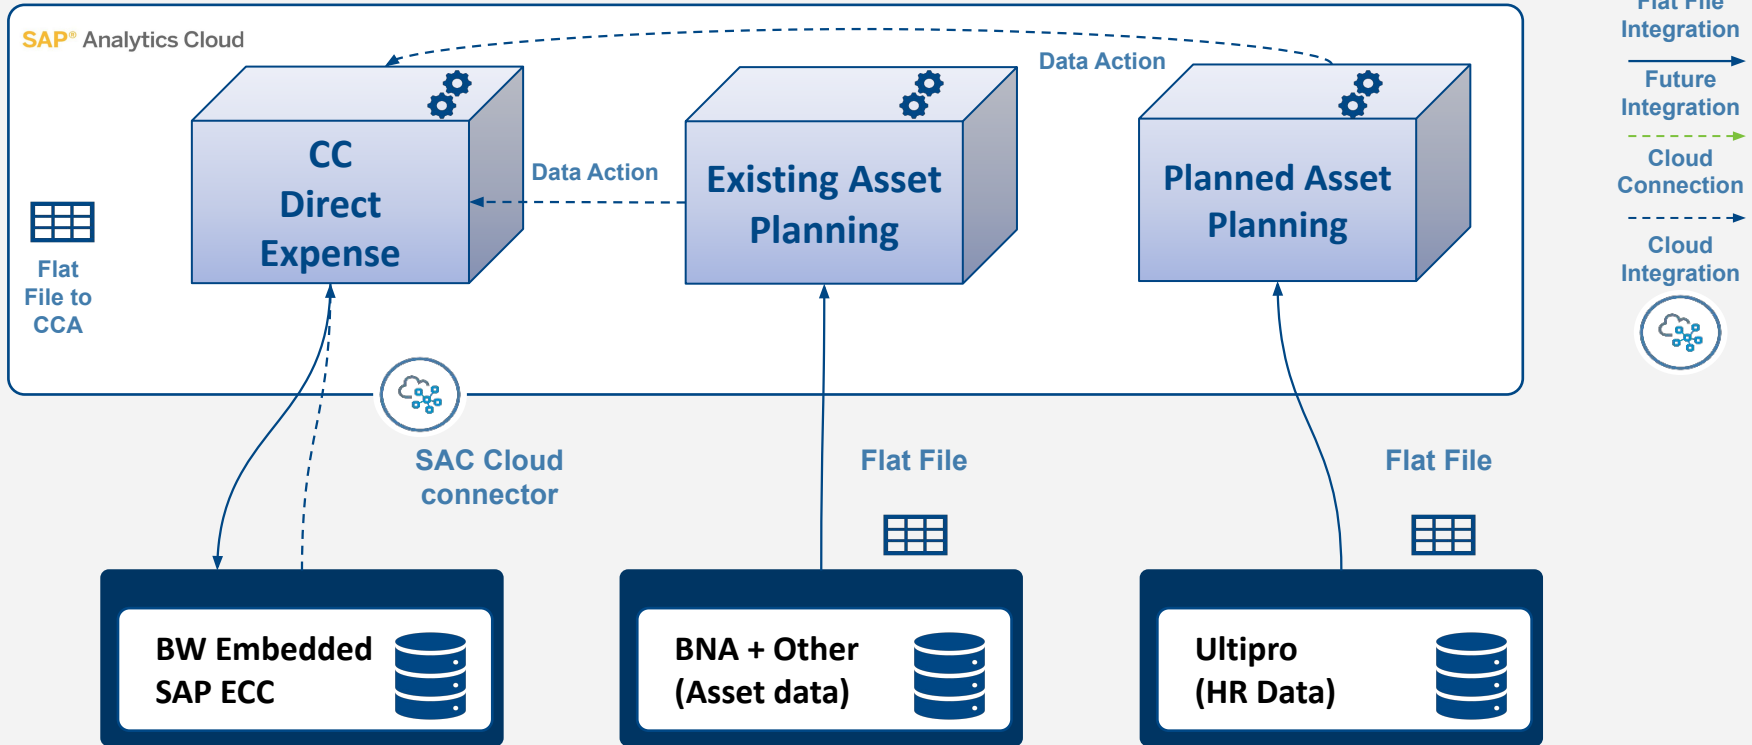

- Found a great partner team – SAP & Awwale
- Performed an in depth analysis in Phase 1 to discover the improvement opportunities
- “Sustainable” design approach

From Idea to Implementation

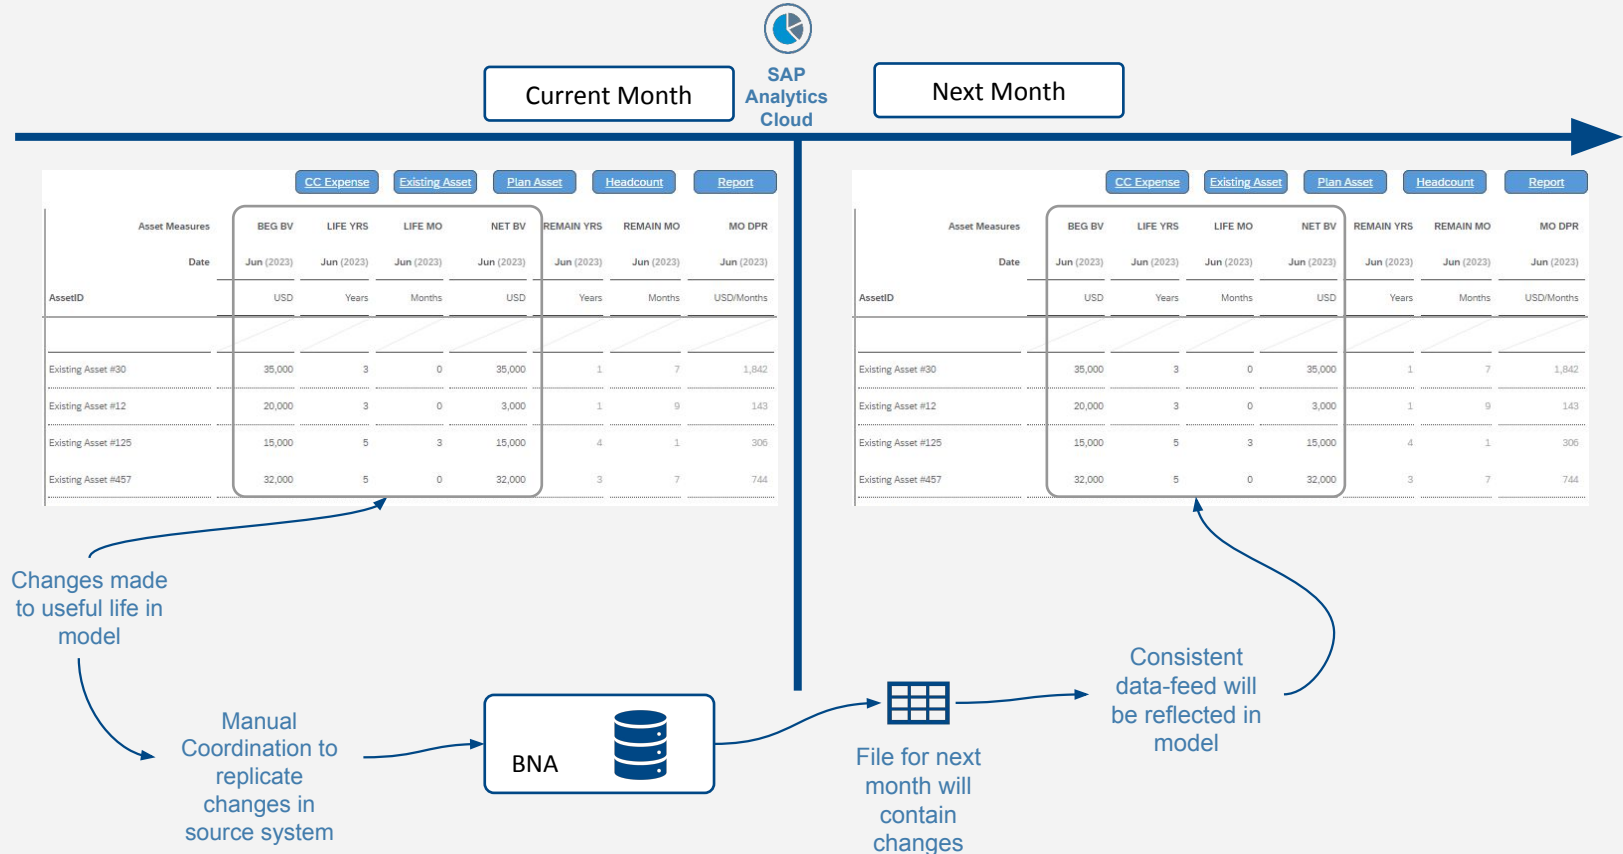

- **The CAPEX and OPEX Planning Solution** was designed
- Real-time SAP ECC Cloud ERP Integration
- Highly configurable CAPEX and OPEX Planning models and dashboards
- Data management leveraging SAP Best Practices
- KPI Enablement

Planning for Future Success and Growth

- Decreased Forecasting Time
- Efficient FP&A Process
- Scalable Design to adopt future requirements

Key Wins

- **Decreased forecasting time**
Centralized data sources and one unified planning environment
- **User Adoption**
SAC's Excel add-on allow users to build reports easily in (fewer sheets using) Excel
- **SAP S/4HANA Integration**
Enable real-time actual data to be analyzed into SAC

Key Takeaways

- Understanding how SAP BTP can seamlessly integrate with other data platforms
- Iterative development is key
- This use case applies **beyond professional services**
- An Intelligent Planning Solution can be realized in as little as **4 months**
- Unbounded potential for integrations between SAP BTP and other platforms
