## Simplify the Journey to SAP HANA with Gekkobrain and Google Cloud

April 22nd, 2020

**Alison Hettrick, Partner Technology** Lead - Strategy & Architecture, **Google Cloud** 

Gekkobrain

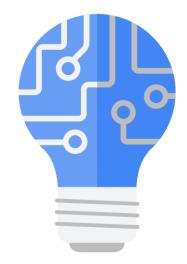

### Jens Strandbygaard, CEO,

### Challenges in driving change

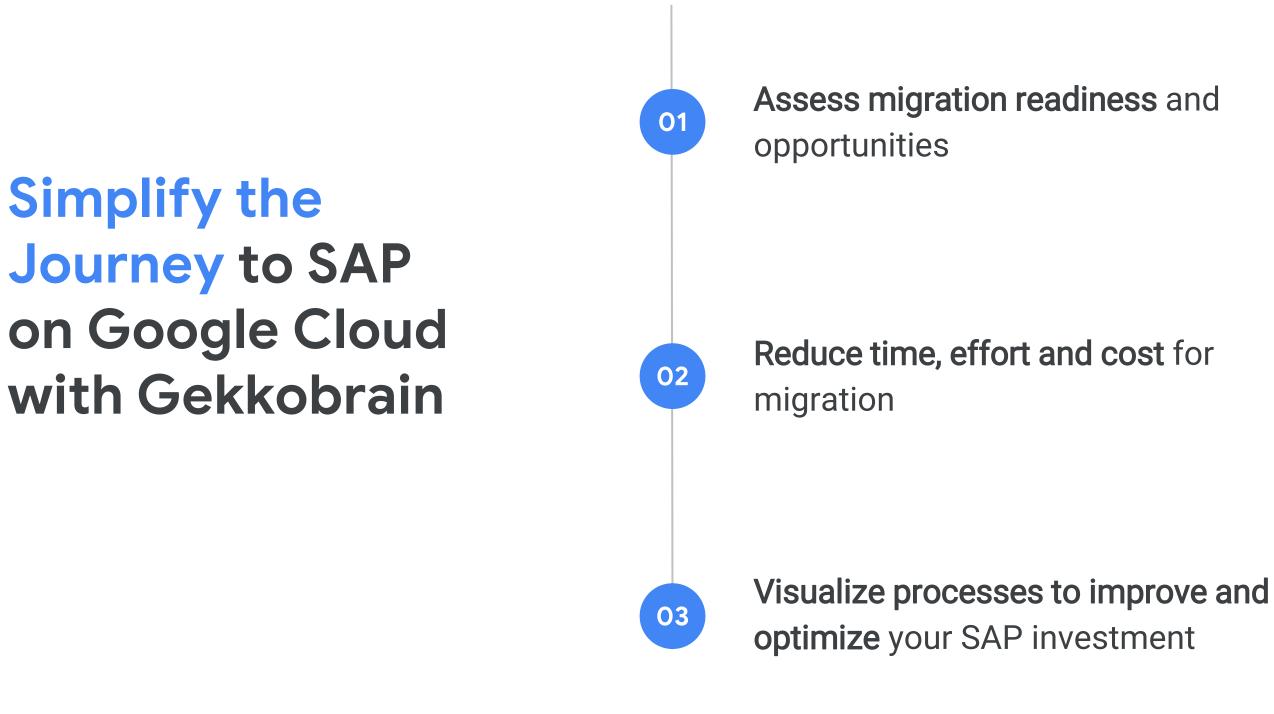

Enterprise IT is complex and costly

Businesses demand agility and innovation

### To migrate --OR-- not to migrate

#### **Top of mind questions**

- 1 What are my options for migration?
- 2 How much will this cost?
- 3 How long will this take?
- 4- Where will my company benefit once this is done?

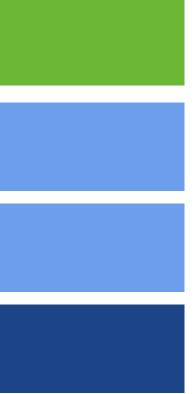

### **Possible Strategies for SAP Migration to Cloud**

3	Transformation	Application
2	Lift-n-Migrate	Database
		Operating System
	Lift-n-Shift	Infrastructure

#### Which strategy is right for you? How do you assess this?

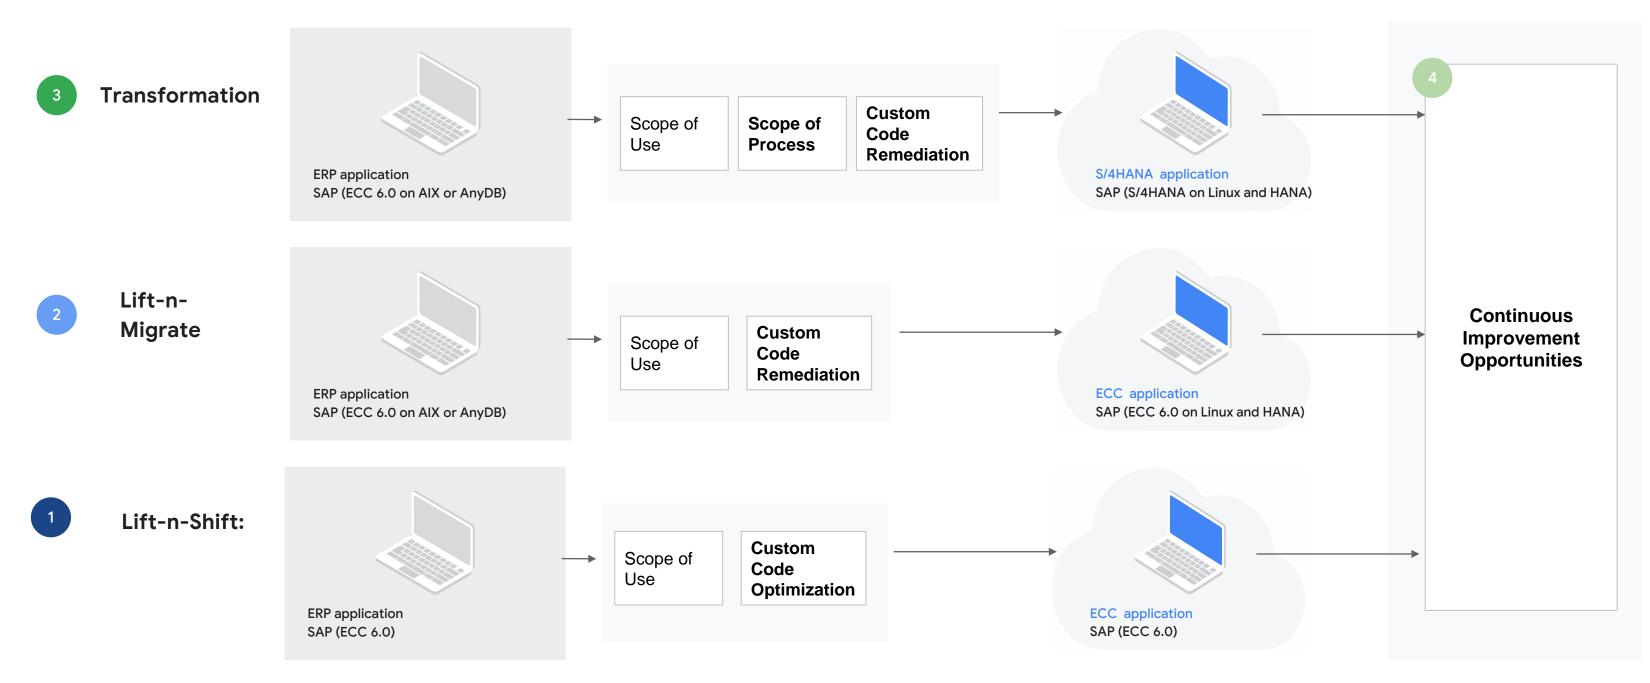

### **Things to Consider - Scope & Complexity**

# Introducing Gekkobrain with Google Cloud

Analyze and obtain a deeper understanding of custom code in your SAP landscape

Develop **automated migration plans to optimize OR remediate custom code and its complexities** for SAP migration (depending on scenario)

**Optimize your migrated SAP processes** running in Google Cloud for continuous improvement

Average savings of \$1,000,000 per project

### **Gekkobrain Solution**

#### Where it fits into Cloud and SAP migration strategies

Scope	<b>Gekkobrain Solution</b>	Benefi
Transformation	S/4HANA Assessment Automatic Business Process Discovery	Understand cost an system consolidatio (greenfield/br
Lift-n-Migrate	HANA Readiness Assessment Automatic Code Remediation	Understand cos minimize manual migrate with au
Lift-n-Shift	Gekkobrain Code Quality Assessment	Optimize code for o for better perform saving

#### fits

and time, assess ion, choose path prownfield)

ost and time, al efforts and automation

cloud operation nance and cost igs

#### Continuous Improvement

4

Business Process Analysis and troubleshooting for process optimization

DevOps Custom Code Monitoring for performance optimization

### **Gekkobrain Solution**

**Key Components & Capabilities** 

1 Lift-n-Shift	2 Lift-n-Migrate	3
Custom Code Quality Assessment Detailed overview of custom code performance in production in less than 24 hours	<ul> <li>HANA Readiness Assessment</li> <li>Detailed budget and timeline for HANA migration in less than 24 hours</li> <li>Automatic Code Remediation</li> <li>Migrates and fixes more than 90% of HANA code issues automatically</li> </ul>	S/4 Tim coo FLO Au pro sys Ass Lin Sav ma
4 DevOps: Code Quality Optimization	HANA Readiness Monitoring	ſ

### 3

#### Transformation

#### /4HANA Readiness Assessment

imeline and budget for S/4HANA custom ode remediation in less than 24 hours

#### LOWS: Business Process Analysis

Automatic visualization of all business processes across multiple modules and ystems in less than 1 week

ssess greenfield/brownfield options

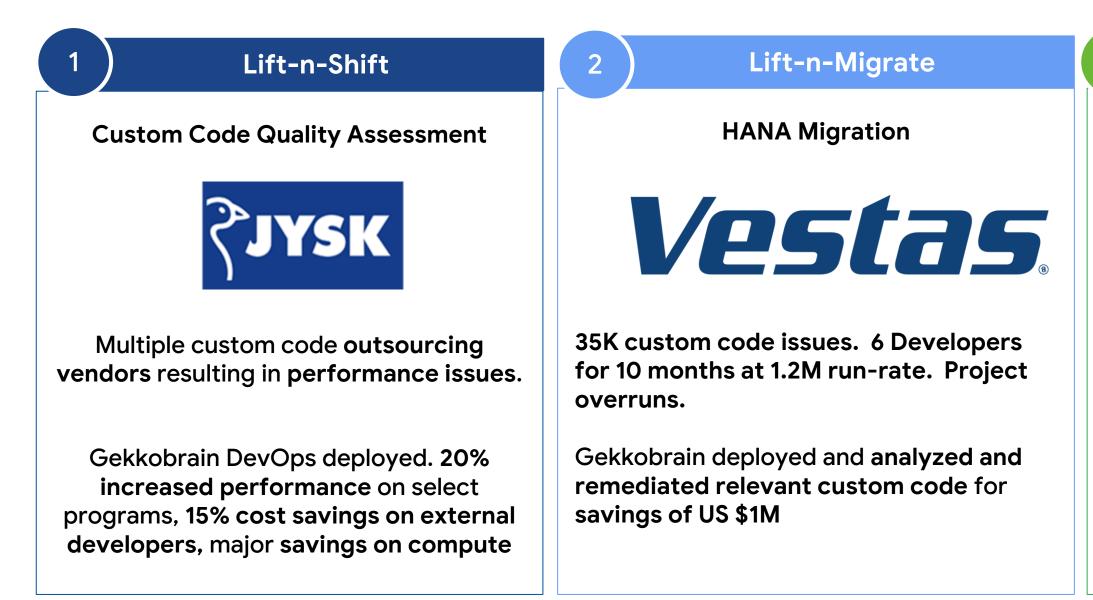

ink processes with custom code

ave millions of dollars on consultants for nanual process discovery

**FLOWS: Business Process Deep Dive** 

### **Customer Reference Examples** Value and Benefits

scope and cost. Gekkobrain deployed. Detailed overview of S/4HANA readiness, overlay of business processes from 2 countries. Major savings on external consulting, final decision on greenfield/brownfield and system consolidation.

**Transformation** 

#### S/4HANA Transformation

S/4HANA journey. Needed to understand

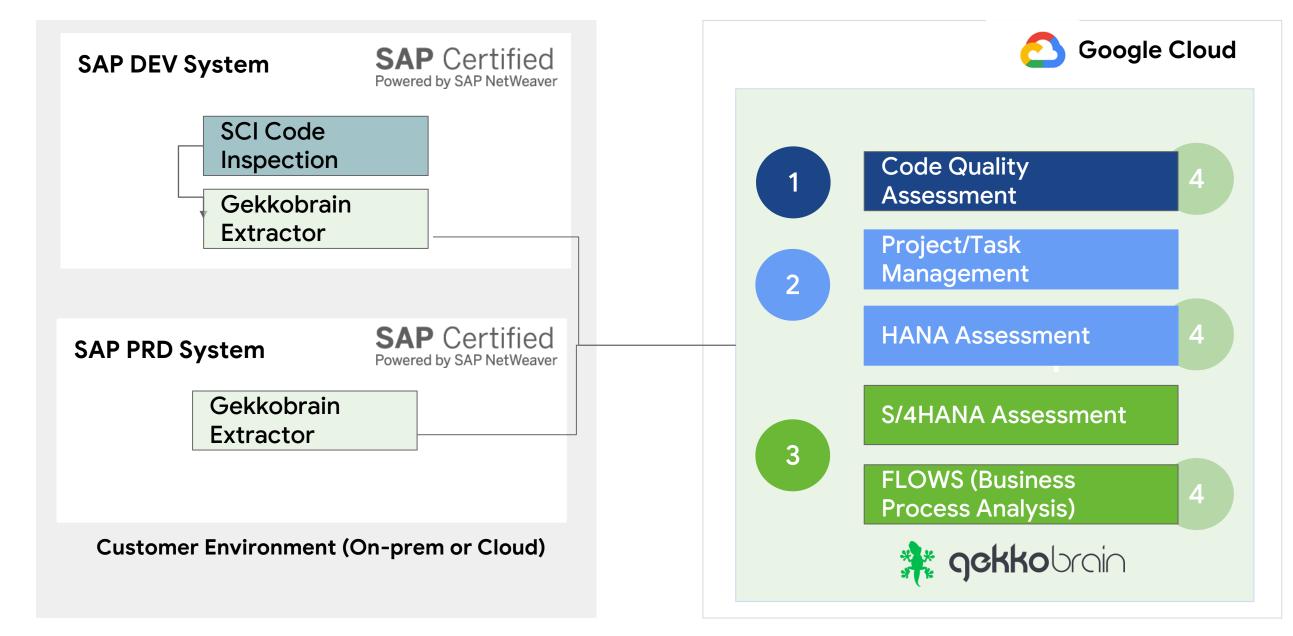

### How does it work?

### **Gekkobrain Solution**

#### **Reference Architecture with Google Cloud**

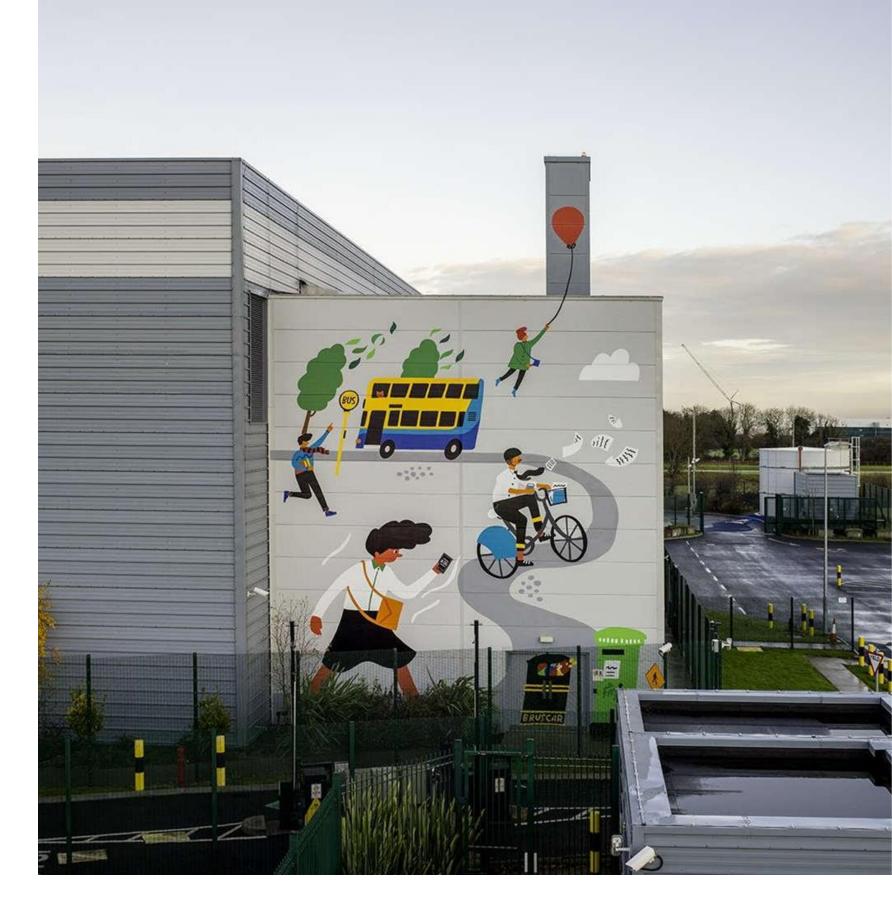

### Gekkobrain Demo

### Commitment to Customer Success

### **Committed to your success**

Commitment to **solving the unique needs of your business**.

Exceptional consumer response times

### Customer Reliability Engineering, a white glove service

**Cloud Acceleration Program (CAP)** & Business Continuity Program

Senior GCP leadership focusing on your biggest challenges and committed to your success

### Free Assessment with Gekkobrain

for SAP migration to Google Cloud

#### **Assessment Scope & Process**

Review your requirements Perform assessment and review findings Understand value potential and savings Align migration strategy and approach Prepare project timeline
